Electricity Commission

Electricity (Levy of Industry Participants) Regulations 2005

Notice of Reconciled Annual Levy Rates for the Financial Year Ending 30 June 2007

This notice of the Reconciled Annual Levy Rates for the financial year ending 30 June 2007, is issued by the Electricity Commission ("Commission") pursuant to Regulation 11(1)(c) of the Electricity (Levy of Industry Participants) Regulations 2005 ("Regulations").

The Regulations came into force on 21 April 2005.

The Regulations impose levies on generators, purchasers and distributors for the costs of the Commission performing its functions, duties and powers under the Electricity Act 1992 from 1 July 2004.

The Regulations provide that each generator, purchaser or distributor is liable to pay a levy to the Commission.

The Commission collects the levy on behalf of the Crown.

Regulation 7 specifies the Commission must calculate the annual levy rates using estimated Commission costs, estimated quantities of electricity generated, purchased or conveyed, and an estimated number of consumer connections.

Regulations 11, 12 and 13 set out how the levy is to be reconciled after the end of a financial year on the basis of the Commission's actual costs, actual quantities of electricity generated, purchased or conveyed, and the actual number of consumer connections.

Reconciled Annual Levy Rates for the Financial Year Ending 30 June 2007

The Commission has calculated the reconciled annual levy rates for the financial year ending 30 June 2007 in accordance with Regulation 11.

The reconciled annual levy rates for that period are as follows:

	Generators	Purchasers	Distributors (including Transpower)	Distributors (excluding Transpower)	Transpower
Common quality operations	\$0.1484/MWh	\$0.1499/MWh	\$0.0859/MWh		
Market operations	\$0.2260/MWh	\$0.2282/MWh			
Registry and consumer operations		\$0.2159/ICP		\$0.2151/ICP	
Supply security operations		\$0.6349/MWh			
Transmission operations					\$0.1674/MWh
Electricity efficiency operations		\$0.1422/MWh			
Other activities	\$0.0132/MWh	\$0.0133/MWh	\$0.0077/MWh		
MACQS reform	\$0.0239/MWh	\$0.0242/MWh	\$0.0138/MWh		

A copy of these reconciled annual levy rates is available on the Commission's website at

Electricity Act 1992

Notice of Making of Electricity Governance Amendment Rules (No. 59) 2007 and Notice of Reasons for Decision

1. Pursuant to section 172I of the Electricity Act 1992 ("Act"), I notify the amendment of the Electricity Governance Rules 2003 ("Rules") under section 172H of the Act.

2. The empowering provisions for the Electricity Governance Regulations in relation to which the amendments to the Rules are made are sections 172D(1)(4), 172D(1)(5) and 172KA(1) of the Act.

3. In brief, the amendments are to:

- amend the definition of "interconnection circuit branch" in Part A of the Rules;
- add the Connection Code to the Rules as Schedule 8 of the benchmark agreement, which itself is Schedule F2 of Section II of Part F;
- amend Rules 3, 4, 8 (Rule 8 comes into force on 1 April 2008) and 10.9 of Section VI of Part F;
- add the interconnection service measures to the Rules as Schedule F6 of Section VI of Part F; and
- add the Outage Protocol to the Rules as Schedule F7 of Section VII of Part F.

4. Pursuant to section 172Z(4) of the Act, the reasons for my decision to amend the Rules are that:

- the amendment to the definition of "interconnection circuit branch" in Part A of the Rules will ensure that it includes circuits where only some of the assets in the circuit are interconnection assets;
- the Connection Code sets out the default technical requirements and standards that designated transmission customers must meet in order to be connected to the grid and with which Transpower New Zealand Limited (in its capacity as grid owner) ("Transpower") must also comply. The principle embodied in the development of the code, that it should reflect a balance between the needs of Transpower and those of grid customers, should result in a more balanced code that reduces technical barriers to entry for new connections;
- the amendments to Rules 3, 4, 8 and 10.9 of Section VI of Part F of the Rules provide an exception

from the requirements of Rule 3 of that section for certain changes to interconnection assets and to the configuration of the grid that occur prior to 1 April 2008, and for these changes to be reflected in the obligations that apply to Transpower under the Interconnection Rules;

- the information and diagrams in the interconnection service measures together set the capacity service measures and the related service levels for the different elements of the interconnected transmission grid, and specifies its configuration. Transpower will be required to maintain its interconnection assets at these capacity levels and in the configuration shown, unless it follows the Outage Protocol to temporarily remove them from service, or it undertakes a net benefit assessment before deciding to permanently decommission interconnection assets; and
- the Outage Protocol facilitates Transpower's consideration of other parties' interests when Transpower is planning to temporarily withdraw assets or change the configuration of its assets. This consideration is likely to result in more efficient outcomes and is fairer to market participants, who rely on the use of interconnection services.

5. The amendments to Rule 8 of Section VI of Part F come into force on 1 April 2008. The rest of these amendments come into force on 17 January 2008.

6. Copies of the Rules may be inspected free of charge or purchased from the Electricity Commission, Level 7, ASB Bank Tower, 2 Hunter Street, Wellington. The Rules can also be viewed on the Electricity Commission's website

<http://www.electricitycommission.govt.nz/rulesandregs/rules>

Dated at Wellington this 18th day of December 2007.

DAVID PARKER, Minister of Energy.

Notice of Recommendation and Assessment Concerning the Electricity Governance Rules 2003 – Rule Amendment Proposal No. 119, 2007

1. This notice of a recommendation and assessment concerning the Electricity Governance Rules 2003 ("Rules"), Rule Amendment Proposal No. 119, is issued by the Electricity Commission ("Commission"), pursuant to section 172E(2)(c) of the Electricity Act 1992 ("Act").

2. The Act provides that, no later than 10 working days after making a recommendation to the Minister of Energy concerning the Rules, the Commission must publicise the recommendation and the assessment completed under section 172F of the Act.

Recommendations

3. On 14 December 2007, the Commission recommended that:

- (a) the definition of “interconnection circuit branch” in Part A of the Rules be amended;
- (b) the Connection Code be added to the Rules as a new Schedule 8 of the benchmark agreement, which itself is Schedule F2 of Section II of Part F;
- (c) Rules 3, 4, 8 (Rule 8 comes into force on 1 April 2008) and 10.9 of Section VI of Part F be amended;
- (d) the interconnection service measures be added to the Rules as a new Schedule F6 of Section VI of Part F; and
- (e) the Outage Protocol be added to the Rules as a new Schedule F7 of Section VII of Part F.

Recommended Amendments to the Rules

4. The recommended amendments to the Rules were:

- (a) to amend the definition of “interconnection circuit branch” in Part A of the Rules to provide that it includes circuits where only some of the assets in an interconnection circuit branch are interconnection assets;
- (b) to insert the Connection Code as a schedule to the benchmark agreement. The Connection Code sets out the technical requirements and standards that designated transmission customers must meet in order to be connected to the grid and with which Transpower New Zealand Limited (in its capacity as grid owner) (“Transpower”) must also comply. This completes the benchmark agreement and allows it to operate as a default contract for transmission connection asset services from 1 April 2008;
- (c) to amend Rules 3, 4, 8 (Rule 8 comes into force on 1 April 2008) and 10.9 of Section VI of Part F to provide an exception from the requirements of Rule 3 of that section for certain changes to interconnection assets and to the configuration of the grid that occur prior to 1 April 2008, and for these changes to be reflected in the obligations that apply to Transpower under the Interconnection Rules;
- (d) to insert the capacity service measures and levels for interconnection assets as a new schedule to Section VI of Part F of the Rules. The new schedule comprises a series of information documents and diagrams prepared by Transpower that relate to the capacity of the different elements of the interconnected grid, and diagrams that show its configuration. This information and the diagrams together set the capacity service measures and the related service levels for interconnection assets, and specify the grid configuration. Transpower will be required to maintain its interconnection assets at these capacity levels and in the configuration shown, unless it follows the Outage Protocol to temporarily remove them from service, undertakes a net benefit assessment before deciding to permanently decommission interconnection assets, or the other exceptions in Rule 4 of Section VI of Part F apply; and
- (e) to insert the Outage Protocol as a new schedule to Section VII of Part F of the Rules. The Outage Protocol specifies the circumstances in which Transpower may temporarily remove any assets,

forming part of the grid, from service or reduce the capacity of assets that it would otherwise have to provide under the benchmark agreement and the interconnection rules. It also provides for procedures and policies for Transpower to plan for and carry out outages, and the management of unplanned outages on the grid.

Securities Commission

Securities Markets Act 1988

The Authorised Futures Dealers Notice (No. 3) 2005 Amendment Notice 2007

Pursuant to section 38 of the Securities Markets Act 1988, the Securities Commission gives the following notice.

Notice

1. **Title, commencement and principal notice**—(1) This notice is the Authorised Futures Dealers Notice (No. 3) 2005 Amendment Notice 2007.

(2) This notice comes into force on the day after the date of its publication in the *New Zealand Gazette*.

(3) This notice amends the Authorised Futures Dealers Notice (No. 3) 2005*.

2. **New clause inserted**—(1) The following clause is inserted into the Authorised Futures Dealers Exemption Notice (No. 3) 2005:

3(3) The authorisation is subject to the further conditions that:

- (a) before the company sells a futures contract of a particular class to a member of the public, the company must have provided that person with a disclosure document that includes information that would enable a prudent but non-expert investor to make a decision about whether to invest in a futures contract of that class; and
- (b) the disclosure document given to that person must not, at the time the contract is entered into, be likely to deceive, mislead or confuse with regard to any particular that is material to the offer of the futures contract contained or referred to in that disclosure document; and
- (c) the disclosure document must include at the front of the disclosure document a statement describing a client's right to receive investment advisers disclosure in terms of clause 3(2)(c) of this notice; and
- (d) the disclosure document must state, in a prominent place, the date as at which the disclosure document was prepared; and
- (e) the disclosure document must contain all of the following information that is applicable to the class or classes of futures contracts to which the disclosure document relates:
 - (i) a description of the key features of that class or those classes of futures contracts;
 - (ii) the name and contact details of the company;
 - (iii) a description of the amounts payable, or the method of calculating the amounts payable, by a person to the company in respect of that class or those classes of futures contracts, including the consequences of failing to make any payments;
 - (iv) a description of the types of fees or charges payable by a person, directly or indirectly, to the company in respect of that class or those classes of futures contracts;

- (v) a description of the rights of the company or any other person to alter any of the fees or charges applicable to that class or those classes of futures contracts;
- (vi) a description of the nature of any amounts or returns that may be payable, or the method of calculating any amounts or returns that may be payable, by the company to a person in respect of that class or those classes of futures contracts;
- (vii) a description of the key factors that determine the amounts or returns that may be payable by the company to a person in respect of that class or those classes of futures contracts;
- (viii) a description of the principal risks associated with entering into that class or those classes of futures contracts, including any specific risk factors that apply to any one or more of the particular futures contracts;
- (ix) if it is reasonably foreseeable that, at the end of the arrangement relating to that class or those classes of futures contracts, a person will have received, in total, less than the amount paid to the company for the futures contracts, a statement to this effect and a brief description of the circumstances that may produce this result;
- (x) a description of the parties' rights to alter the terms of that class or those classes of futures contracts;
- (xi) a description of the parties' rights to terminate, cancel, surrender, or otherwise make or obtain payment of any amounts or returns in respect of that class or those classes of futures contracts, other than as described in paragraphs (vi) and (vii);
- (xii) a statement whether a person is entitled to sell his or her interest in a futures contract to another person and, if so, whether in the opinion of the company there is an established market for such sales;
- (xiii) the names or descriptions, and the addresses and business telephone numbers, of officers, employees or agents of the company to whom enquiries about the futures contracts can be made, and to whom complaints about the futures contracts can be made;
- (xiv) a statement to the effect that other information about the company is contained or referred to in financial statements of, or relating to, the company and where a copy of the latest financial statements may be obtained from;
- (xv) a statement of the type of information that is required to be, or otherwise will be, given annually to subscribers;
- (xvi) a statement describing the type of information that is required to be, or otherwise will be, available on request from the company;
- (xvii) a statement explaining how a request made under paragraph (xvi) should be made;
- (xviii) a statement whether any charge may be made for the information referred to in paragraph (xvi) and the amount of any charge;
- (ix) any other material matters applicable to that class or those classes of futures contracts.

3(4) If a matter specified in clause 3(3)(e) is not applicable to the class or classes of futures contracts to which a disclosure document relates, the disclosure document is not required to refer to that matter, and is not required to state that the matter is not applicable.

3(5) Nothing in this clause limits the information, statements or other matters that may be contained in a disclosure document.

Dated at Wellington this 18th day of December 2007.

The Common Seal of the Securities Commission was affixed in the presence of:
