Electricity Commission

Electricity Governance Rules 2003

Electricity Governance Rules (Approval as Industrial Co-generating Station (No. 1) (Carter Holt Harvey Pulp and Paper Limited)) Notice 2007

Pursuant to Rule 8 of Schedule G9 of Part G of the Electricity Governance Rules 2003 ("Rules"), the Electricity Commission ("Commission") gives the following notice.

Notice

1. Title and date—(1) This notice is the Electricity Governance Rules (Approval as Industrial Co-generating Station (No. 1) (Carter Holt Harvey Pulp and Paper Limited)) Notice 2007.

(2) This notice is dated 31 July 2007.

2. Approval—The following generating unit, owned by Carter Holt Harvey Pulp and Paper Limited ("CHH"), is approved as an industrial co-generating station in accordance with Schedule G9 of Part G of the Rules:

- Kinleith Mill Turbine Generator.

3. Condition—This exemption is granted on the following condition:

- The industrial co-generating station must comply with dispatch instructions if the system operator has issued a formal notice as defined in Part A of the Rules.

4. Reasons for granting the approval—The reasons for granting this exemption are:

- (a) The system operator provided comments on the application and the condition noted above was added as a consequence;
- (b) the plant fits the definition of industrial co-generating station as defined in Part A of the Rules. It derives its fuel source from a co-located industrial process, and the electricity produced by the co-generating station is used by that industrial process and a by-product of the generation is then provided to that industrial process. Accordingly, the industrial process is dependent on the operation of the co-generation plant;
- (c) because of this close link between the on-site industrial process and the co-generation plant, the generator is unable to comply with the standard dispatch tolerance; and
- (d) granting approval will, in accordance with the Commission's principal objectives and specific outcomes, encourage co-generation, thereby promoting and facilitating the efficient use of electricity and other resources. It will maintain the efficient use of resources by continuing to allow CHH to fully utilise waste products for electricity generation. It will therefore maintain the incentives for co-generation.

Notice

1. Title and date—(1) This notice is the Electricity Governance Rules (Approval as Industrial Co-generating Station (No. 2) (Alinta Energy (New Zealand) Limited)) Notice 2007.

(2) This notice is dated 31 July 2007.

2. Approval—The following generating unit, owned by Alinta Energy (New Zealand) Limited ("Alinta"), is approved as an industrial co-generating station in accordance with Schedule G9 of Part G of the Rules:

- Kilns Co-generation Plant at the Glenbrook Power Station.

3. Condition—This exemption is granted on the following condition:

- The industrial co-generating station must comply with dispatch instructions if the system operator has issued a formal notice as defined in Part A of the Rules.

4. Reasons for granting the approval—The reasons for granting this exemption are:

- The system operator provided comments on the application and the condition noted above was added as a consequence;
- the plant fits the definition of industrial co-generating station as defined in Part A of the Rules. It derives its fuel source from a co-located industrial process, and the electricity produced by the co-generating station is used by that industrial process. Accordingly, the industrial process is dependent on the operation of the co-generation plant;
- because of this close link between the on-site industrial process and the co-generation plant, the generator is unable to comply with the standard dispatch tolerance; and
- granting approval will, in accordance with the Commission's principal objectives and specific outcomes, encourage co-generation, thereby promoting and facilitating the efficient use of electricity and other resources. It will maintain the efficient use of resources by continuing to allow Alinta to fully utilise waste products for electricity generation. It will therefore maintain the incentives for co-generation.

Electricity Governance Rules (Approval as Industrial Co-generating Station (No. 3) (Todd Energy Limited and Whareroa Power Limited Unincorporated Joint Venture)) Notice 2007

Pursuant to Rule 8 of Schedule G9 of Part G of the Electricity Governance Rules 2003 ("Rules"), the Electricity Commission ("Commission") gives the following notice.

Notice

1. Title and date—(1) This notice is the Electricity Governance Rules (Approval as Industrial Co-generating Station (No. 3) (Todd Energy Limited and Whareroa Power Limited Unincorporated Joint Venture)) Notice 2007.

(2) This notice is dated 31 July 2007.

2. Approval—The following generating units, owned by the Todd Energy Limited and Whareroa Power Limited Unincorporated Joint Venture ("the Joint Venture"), are approved as an industrial co-generating station in accordance with Schedule G9 of Part G of the Rules:

- All 5 units at the Whareroa Co-generator.

3. Conditions—This exemption is granted on the following conditions:

- The industrial co-generating station must not deviate from the quantity set out in dispatch instructions by greater than ± 1 MW for longer than one trading period without making a revised offer.
- The industrial co-generating station must comply with dispatch instructions if the system operator has issued a formal notice as defined in Part A of the Rules.

4. Reasons for granting the approval—The reasons for granting this exemption are:

- The system operator provided comments on the application and the conditions noted above were added as a consequence;
- the plant fits the definition of industrial co-generating station as defined in Part A of the Rules. Most of the electricity produced by the co-generating station is used by a co-located industrial process. Also, a by-product of the generation is then provided to that industrial process. Accordingly, the industrial process depends upon the operation of the co-generation plant;
- because of this close link between the on-site industrial process and the co-generation plant, the generator is unable to comply with the standard dispatch tolerance; and
- granting approval will, in accordance with the Commission's principal objectives and specific outcomes, encourage co-generation, thereby promoting and facilitating the efficient use of electricity. It will maintain the efficient use of resources by continuing to allow the Joint Venture to fully utilise by-products of electricity generation in the industrial process. It will therefore maintain the incentives for co-generation.

Land Transport New Zealand

Land Transport Act 1998

Land Transport Rules

In accordance with section 161(2) of the Land Transport Act 1998, Land Transport New Zealand, on behalf of the Minister of Transport, gives notice of the Minister's intention to make amendments to 10 Land Transport Rules, and advises that draft *Land Transport Rule: Omnibus Amendment 2007* (Rule 10003) ("the draft Rule") is available for public comment.

The draft Rule proposes amendments to the following Land Transport Rules:

- Driver Licensing 1999* (Rule 91001)
- Heavy Vehicles 2004* (Rule 31002)
- Heavy-vehicle Brakes 2006* (Rule 32015)
- Passenger Service Vehicles 1999* (Rule 31001)
- Road User 2004* (Rule 61001)
- Traffic Control Devices 2004* (Rule 54002)
- Tyres and Wheels 2001* (Rule 32013)
- Vehicle Dimensions and Mass 2002* (Rule 41001)
- Vehicle Lighting 2004* (Rule 32005)
- Vehicle Standards Compliance 2002* (Rule 35001/1)

The proposed Rule amendments would update vehicle standards; bring into effect traffic signs approved by the Director of Land Transport; make consequential changes required as a result of changes to other land transport legislation, including Rules; clarify existing requirements and make other minor changes to Rules.

The draft Rule also proposes an amendment to the Driver Licensing Rule that would remove the theory test requirements applying to driver licence holders from countries whose licence holders are exempt, under the current Rule, from a practical driving test when they convert to a New Zealand Class 1 (light, four-wheeled vehicles) or Class 6 (motorcycles) licence.

A copy of draft *Land Transport Rule: Omnibus Amendment 2007* and information about the amendment proposals can be obtained by calling the Land Transport NZ Help Desk on freephone 0800 699 000 or by visiting the Land Transport New Zealand website at
