Reserve Bank of New Zealand

Reserve Bank of New Zealand Act 1989

Policy Targets Agreement

This agreement between the Minister of Finance and the Governor of the Reserve Bank of New Zealand ("the Bank") is made under section 9 of the Reserve Bank of New Zealand Act 1989 ("the Act").

The Minister and the Governor agree as follows:

1. Price Stability

- (a) Under section 8 of the Act, the Reserve Bank is required to conduct monetary policy with the goal of maintaining a stable general level of prices.
- (b) The objective of the Government's economic policy is to promote sustainable and balanced economic development in order to create full employment, higher real incomes and a more equitable distribution of incomes. Price stability plays an important part in supporting the achievement of wider economic and social objectives.

2. Policy Target

- (a) In pursuing the objective of a stable general level of prices, the Bank shall monitor prices as measured

by a range of price indices. The price stability target will be defined in terms of the All Groups Consumers Price Index (CPI), as published by Statistics New Zealand.

- (b) For the purpose of this agreement, the policy target shall be to keep future CPI inflation outcomes between 1 per cent and 3 per cent on average over the medium term.

3. Inflation Variations Around Target

- (a) For a variety of reasons, the actual annual rate of CPI inflation will vary around the medium-term trend of inflation, which is the focus of the policy target. Amongst these reasons, there is a range of events whose impact would normally be temporary. Such events include, for example, shifts in the aggregate price level as a result of exceptional movements in the prices of commodities traded in world markets, changes in indirect taxes, significant government policy changes that directly affect prices, or a natural disaster affecting a major part of the economy.
- (b) When disturbances of the kind described in clause 3(a) arise, the Bank will respond consistent with meeting its medium-term target.

4. Communication, Implementation and Accountability

- (a) On occasions when the annual rate of inflation is outside the medium-term target range, or when such occasions are projected, the Bank shall explain in policy statements made under section 15 of the Act why such outcomes have occurred, or are projected to occur, and what measures it has taken, or proposes to take, to ensure that inflation outcomes remain consistent with the medium-term target.
- (b) In pursuing its price stability objective, the Bank shall implement monetary policy in a sustainable, consistent and transparent manner and shall seek to avoid unnecessary instability in output, interest rates and the exchange rate.
- (c) The Bank shall be fully accountable for its judgements and actions in implementing monetary policy.

Dated at Wellington this 24th day of May 2007.

Chairperson's Report for the Year Ended 31 March 2007

BayTrust beneficiaries, that is all those people normally resident in the Bay of Plenty, can feel hugely satisfied that their trust has again performed well. It has performed well in its investments, in its grants and in how it is positioning itself for the future.

Highlights of the year to 31 March 2007:

- Excellent return on investments: 9.9% (\$13m). Although this was down on the previous year's record return of 14%, it was again very healthy against an expectation of 7.2% p.a. (\$8.6m) over the long term.
- Total grants paid rose to a record \$4.6m, a significant improvement on \$2.8m the previous year and on the average of \$2.5m over the previous five years.
- After two exceptionally good income years, the trust further strengthened its investment position by reducing its allocation to short-term investments and by further diversifying its investment portfolio.

- BayTrust continues to keep its overseas investments fully hedged to the New Zealand dollar so that asset values and returns cannot be impaired by a rising New Zealand dollar.
- The trust has entered into an agreement with the Taupo-based Philips Search and Rescue trust to fund the Rotorua-based *BayTrust Rescue Helicopter* for three years at \$200,000 a year.
- The trust has developed a new Strategic Plan 2007-2010 which gives further guidance to the way the trust intends to work with and for Bay of Plenty communities.

The trust continues to be the foundation and backbone supporter of Sport BoP's hugely successful *CoachForce* programme. Since its inception as a Sport BoP/BayTrust partnership in 1997, the trust has contributed nearly \$5m to this critically important programme. We congratulate Sport BoP and all those involved in now taking the programme out nationally.

After almost six years as chairperson of BayTrust, Ray Sharp of Opotiki stood down from that role in February of this year, in preparation for his scheduled retirement from the trust on 31 May 2007. We pay a very sincere and heart-felt compliment to Ray for his leadership and for the skills, insights and professionalism he brought to the position. Ray led the trust through some very difficult investment times in the early 2000s and the trust's present strong position is a credit to him and indeed to all trustees.

During the year under review, trustees Maureen Waaka (Rotorua) and Enid Leighton (Whakatane) retired and their places were taken by Ray Morrison (Rotorua) and Anne Simpson (Whakatane). Maureen had served two terms (eight years) with the trust and is particularly remembered for her passion for matters Māori and her deep involvement with the trust's Dillon Scholarship programme. Enid had served one term and during that time was a strong contributor to the trust overall.

Our sincere thanks to all trustees and staff for the part they have played in BayTrust's highly successful 2006/07 year. Making grants to help build, strengthen and enhance Bay of Plenty communities is certainly very rewarding but it involves a huge amount of hard work and dedication too, and all trustees and staff can feel rightly pleased to have been part of the year's excellent results.

PAULA THOMPSON, Chairperson.

BRUCE W. CRONIN, Trust Manager.

Notes to the Financial Statements for the Year Ended 31 March 2006

1. Statement of Accounting Policies

Reporting Entity

The trust is a charitable trust in accordance with the provisions of the Community Trusts Act 1999.

The financial statements have been prepared as required by the Community Trusts Act 1999 and the Trust Deed dated 17 August 2000 and in accordance with the Financial Reporting Act 1993.

Measurement Base

The accounting principles recognised as appropriate for the measurement and reporting of financial performance and financial position on a historical cost basis are followed by the trust, with the exception of investments which are stated at market value.

Specific Accounting Policies

The following specific accounting policies which materially affect the measurement of financial performance and the financial position have been applied:

(a) *Grants:*

Grants made during the year from revenue are included in the statement of financial performance. Those made from trust capital have been included in the statement of movements in equity.

(b) *Investments:*

All investments are stated at assessed market value (refer Note 5).

(c) *Fixed assets:*

Fixed assets are stated at cost less accumulated depreciation.

(d) *Depreciation:*

Depreciation is charged to write off the cost of fixed assets over their expected economic lives using the diminishing value method at rates from 11.4% to 50% per annum.

(e) *Accounts receivable:*

Accounts receivable are recorded at their estimated realisable value.

(f) *Consolidation:*

The 2006 comparatives include the Bay of Plenty Community Trust and its subsidiary charitable company. The company was wound up during the financial year ended 31 March 2006 and its assets and liabilities were acquired by the Bay of Plenty Community Trust.

(g) *Financial instruments:*

The trust includes all financial instrument arrangements in the balance sheet using the concept of accrual accounting. Financial instruments are valued as per Note 1, measurement base. These instruments arise as a result of everyday operations and include bank, accounts receivable, accounts payable and investments. Revenues and expenses in

relation to all financial instruments are recognised in the statement of financial performance. Financial instruments are shown at their fair values.

Changes in Accounting Policies

There have been no changes in accounting policies. All policies have been applied on bases consistent with those used in previous years.

4. Financial Instruments

Investments managed by financial institutions are stated at market value as at balance date. Accrued interest, accounts payable and grants approved not yet paid are stated at the amounts expected to be received or paid. Accordingly, the trustees consider that the fair value of each class of financial assets and financial liabilities is the same as the carrying value in the financial position.

Concentration of Investments

Ninety-eight point nine percent (98.9%) of the assets of the trust are represented by investments held with a range of financial institutions (2006 – 98.5%). However, the trustees consider the risk of non-recovery of these investments to be minimal. Maximum exposure to credit risk as at balance date is:

	2007 \$000	2006 \$000
Bank balances	37	14
Bank term deposits	729	664
Accounts receivable	0	4
Interest free loans	699	987
Investments	142,717	135,527

Currency Risk

The trust incurs currency risk as a result of investment transactions entered into by fund managers. The trust has a policy of fully hedging global bonds and global equities.

Interest Rate Risk

The investments of the trust are sensitive to changes in interest rates: Bank call accounts and deposits, government and local authority securities, and securities held by fund managers.

Fair Value

The carrying value is considered to be the fair value for financial instruments.

5. Investments

The value of investments which are held in equities, fixed interest, property and hedge funds are subject to market fluctuations. The total investment portfolio is diversified in such a way that over time, reductions in value in particular asset classes should be more than offset by increases in other classes. Investments are disclosed at market value at balance date and any gains (losses) arising from that treatment are shown as “investment gains (losses)” in the statement of financial

performance. Therefore, no provision has been made for potential gains or losses that could occur due to future market fluctuations. The investment portfolio as at 31 March 2007 is diversified as follows:

	<i>Tower Asset Management</i>	<i>SSGA</i>	<i>AMP Capital Investors</i>	<i>Russell Investment Group</i>	<i>Total</i>
	<i>\$000</i>	<i>\$000</i>	<i>\$000</i>	<i>\$000</i>	<i>\$000</i>

6. Taxation

Bay of Plenty Community Trust is exempt from income tax with effect from 1 April 2004, under section CW 44 of the Income Tax Act 2004.

7. Goods and Services Tax

The trust is not registered for goods and services tax purposes. Accordingly, these financial statements are stated on a GST inclusive basis.

8. Related Party Transactions

There were no related party transactions during the year.

9. Adoption of International Financial Reporting Standards (NZ IFRS)

In December 2002, the New Zealand Accounting Standards Review Board announced that International Reporting Standards (NZ IFRS) will apply to all New Zealand entities for periods beginning on or after 1 January 2007. Entities also have the option of a voluntary early adoption of NZ IFRS for periods beginning on or after 1 January 2005.

The Bay of Plenty Community Trust intends to implement NZ IFRS in its annual financial statements for the year ending 31 March 2008.

Transition Management

The Bay of Plenty Community Trust has started a project to:

- assess the key differences in accounting policies under NZ IFRS and current accounting policies;
- determine the impacts on the financial statements from transition; and
- determine and to implement processes to deal with any related business impacts.

Change in Accounting Policies on Transition to NZ IFRS

Significant differences identified by The Bay of Plenty Community Trust are outlined below. It should not be regarded as a complete list of changes in accounting policies that will result from the transition to NZ IFRS, as some decisions have not yet been finalised where choices of accounting policies are available.

The Bay of Plenty Community Trust has not yet completed an exercise to quantify the effects of the differences in accounting policies discussed below, and are therefore currently unable to reliably quantify impacts on the financial statements, which will arise from transitioning to NZ IFRS. It is possible that the actual impact of adopting NZ IFRS may vary from the information presented below, and the variation may be material.

Financial Instruments

The Bay of Plenty Community Trust current accounting policy is to recognise financial instruments at fair value with movements through the profit and loss account. Under NZ IFRS, the trust will continue to adopt this accounting policy. However, the trust envisages that further work will be required to ensure that the valuation techniques used to value financial instruments are consistent with the requirements of NZ IFRS.

It is also noted that financial instruments should be initially measured at fair value. This may result in a re-measurement of the trust's loans and receivables.

10. Segment Information

The trust's only activity is to receive income to allocate for charitable, cultural, philanthropic, recreational and other purposes beneficial to the community, principally in the Bay of Plenty area.

11. Contingent Liabilities

The trust has no contingent liabilities other than those disclosed in Note 12 (2006 – Nil).

The Canterbury Community Trust Notes to the Financial Statements for the Year Ended 31 March 2007**1. Statement of Accounting Policies****General Accounting Policies**

The following general accounting policies have been adopted in the preparation of the financial statements.

- The Canterbury Community Trust was incorporated as a charitable trust in accordance with the provisions of the Community Trusts Act 1999. These financial statements have been prepared in accordance with applicable financial reporting standards.
- The measurement base adopted is that of historical cost, except for the revaluation of investments. Reliance is placed on the fact that the trust is a going concern.

Specific Accounting Policies**Depreciation**

Depreciation has been charged in the financial statements using rates allowed by the Inland Revenue Department which will write off the cost of assets less their estimated residual value over their estimated economic lives.

The depreciation rates used are:

Buildings	3% c.p.
Office equipment	6–60% d.v.
Furniture and fittings	14–40% d.v.
Computer	28–48% d.v.

Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation.

Investments

Where there is a quoted market value for the underlying investment, these are recorded at market value. Where there is no quoted market value then proxy valuations are used based on underlying yields. For certain investments net asset value is used. Where there is no quoted value and a reliable estimate cannot be determined, then cost is used. Net income including realised and unrealised gains or losses from holding or trading these investments are recorded in the statement of financial performance.

Investment properties are stated at open market value less estimated costs of disposal as determined by independent valuers at balance date. Unrealised changes in the value of investment properties are included in revenue. Investment properties are not depreciated.

Donations

Donations are accounted for on a cash basis.

Dividend Income

Dividend income is included in the statement of financial performance when it is received.

Income Tax

For non exempt entities, income tax expense is recognised on the surplus available for distribution before taxation, adjusting for differences between taxable and accounting income.

Goods and Services Tax

The subsidiary of The Canterbury Community Trust, Canterbury Trust House Limited, is registered for GST. Accordingly, its financial performance and financial position have been consolidated within the accounts on a GST exclusive basis.

Subject to the above, the trust is not registered for GST purposes and therefore the financial statements have been prepared on a GST inclusive basis.

Financial Instruments

Foreign currency transactions are translated to New Zealand currency at the exchange rate ruling at the dates of the transactions. Amounts receivable and payable in foreign currencies at balance date are translated at the exchange rate at that date. Exchange differences arising from the translation of amounts payable and receivable in foreign currencies are recognised in the statement of financial performance.

Off-balance sheet financial instruments that are designated as hedges are recognised on the same basis as the underlying hedged item. Off-balance sheet transactions that do not constitute specific hedges are stated at market value and any resultant gain or loss is recognised in the statement of financial performance.

Cash

For the purpose of the statement of cash flows, cash comprises Westpac balances only. Cash excludes bank deposits not used as part of the trust's day-to-day cash management.

Joint Ventures

When a member of the group participates in a joint venture arrangement, that member recognises its proportionate interest in the individual assets, liabilities and expenses of the joint venture. The liabilities recognised include its share of those for which it is jointly liable.

Basis of Consolidation

The Canterbury Community Trust and its subsidiaries, Community Trust Charities Limited, Canterbury Trust House Limited, Canterbury Direct Investments Limited, Amateur Game or Sport Promoter Limited and District Improvement Organisation Limited have been consolidated using the purchase method of consolidation.

Changes in Accounting Policies
