Fisheries Act 1996

Fisheries (Incidental Bycatch of Seabirds by Vessels 46m+) Notice 2005 (No. F336)

Pursuant to section 11 (4) (b) (i) of the Fisheries Act 1996, the Minister of Fisheries gives the following notice.

Notice

1. **Title**—(1) This notice is the Fisheries (Incidental Bycatch of Seabirds by Vessels 46m+) Notice 2005.
2. **Commencement**—This notice shall come into effect 60 days after the date of its notification in the *New Zealand Gazette*.
3. **Interpretation**—In this notice, “paired streamer lines” means:
 - (a) 2 fishing lines of 9 millimetre diameter, hereafter known as “streamer lines”, which shall be a minimum of 50 metres in length and shall be deployed so as to have an aerial extent of at least 10 metres behind the point at which the trawl warps enter the water;
 - (b) streamer lines shall be attached to the port and starboard sides of the vessel from a point a minimum of 2 metres above the trawl blocks and 2 metres outside of the trawl blocks on both sides of the vessel, on a sidearm if necessary. Attachment points should be as close to the stern as practicable;
 - (c) a net covered buoy of no less than 600 millimetres in diameter shall be attached at the seaward end of each of the streamer lines;
 - (d) branched streamers, each comprising of 2 strands of fluorescent red, yellow, orange or pink plastic tubing of a minimum of 3 millimetres in diameter, shall be attached no more than 5 metres apart commencing 5 metres from the point of attachment of the streamer line to the vessel and thereafter along the seaward extent of the line. When a streamer line is fully deployed, each of the branched streamers must reach the sea surface in the absence of wind and swell. Branched streamer length will therefore vary depending on the height of its attachment point above the water but, in any event, every branched streamer must be longer than 1 metre in length; and
 - (e) each branched streamer shall have a swivel or other device at its point of attachment to the streamer line to prevent fouling of individual branched streamers. A swivel may also be used at the point of attachment of the streamer line to the buoy to reduce movement of the buoy and streamer line in heavy seas.
4. **Fishing without paired streamer lines prohibited**—(1) No person shall operate a vessel greater than 46 metres in overall length with its trawl gear deployed in FMA3, FMA4, FMA5, FMA6 or FMA7 without paired streamer lines deployed in accordance with this notice.
(2) Paired streamer lines must be deployed as soon as practicable after the shooting of the net, and the paired streamer lines shall remain deployed for as long as practicable prior to the net being brought back on board the vessel.
5. **The Schedule**—(1) The Schedule sets out an illustration to guide the definition of paired streamer lines.
(2) If there is any inconsistency between the illustration in the Schedule and the definition, the definition prevails.

Streamer line minimum of 50 metres in length

Example of branched streamer attachment to streamer line

DAVID BENSON-POPE, Minister of Fisheries.

Dated at Wellington this 12th day of September 2005.

Explanatory Note

This note is not part of the notice, but is intended to indicate its general effect.

The intent of this notice is to ensure implementation of effective devices to deter seabirds from interacting with trawl warp cables. This notice, which only applies to vessels 46 metres or over, prohibits fishing in FMAs 3 – 7 unless the vessel has paired streamer lines deployed.

2. **Commencement**—This notice shall come into effect 60 days after the date of its notification in the *New Zealand Gazette*.
3. **Interpretation**—In this notice, “paired streamer lines” means:
 - (a) 2 fishing lines of 9 millimetre diameter, hereafter known as “streamer lines”, which shall be a minimum of 40 metres in length and shall be deployed so as to have an aerial extent of at least 10 metres behind the point at which the trawl warps enter the water;
 - (b) streamer lines shall be attached to the port and starboard sides of the vessel from a point as close to 2 metres above the trawl blocks as practicable and 2 metres outside of the trawl blocks on both sides of the vessel, on a sidearm if necessary. Attachment points should be as close to the stern as practicable;
 - (c) a net covered buoy of between 400 to 600 millimetres in diameter shall be attached at the seaward end of each of the streamer lines. The size of the buoy must be sufficient to ensure that the streamer line is taut behind the vessel;
 - (d) branched streamers, each comprising of 2 strands of fluorescent red, yellow, orange or pink plastic tubing of a minimum of 3 millimetres in diameter, shall be attached no more than 5 metres apart commencing 5 metres from the point of attachment of the streamer line to the vessel and thereafter along the seaward extent of the line. When a streamer line is fully deployed, each of the branched streamers must reach the sea surface in the absence of wind and swell. Branched streamer length will therefore vary depending on the height of its attachment point above the water but, in any event, every branched streamer must also be longer than 1 metre in length; and
 - (e) each branched streamer shall have a swivel or other device at its point of attachment to the streamer line to prevent fouling of individual branched streamers. A swivel may also be used at the point of attachment of the streamer line to the buoy to reduce movement of the buoy and streamer line in heavy seas.
4. **Fishing without paired streamer lines prohibited**—(1) No person shall operate a vessel between 28 and 46 metres in overall length with its trawl gear deployed in FMA3, FMA4, FMA5, FMA6 or FMA7 without paired streamer lines deployed in accordance with this notice.
(2) Paired streamer lines must be deployed as soon as practicable after the shooting of the net, and the paired streamer lines shall remain deployed for as long as practicable prior to the net being brought back on board the vessel.
5. **The Schedule**—(1) The Schedule sets out an illustration to guide the definition of paired streamer lines.
(2) If there is any inconsistency between the illustration in the Schedule and the definition, the definition prevails.

Notice of Confirmation of Electricity Governance Amendment Rules (No. 21) 2005 and Notice of Reasons for Decision

1. Pursuant to section 172E(3)(b) of the Electricity Act 1992 ("Act"), I notify that the Electricity Governance Amendment Rules (No. 21) 2005 ("Amendment Rules"), which were made under urgency in accordance with section 172E(3) of the Act on 24 March 2005, will not be revoked, replaced or amended.

2. Pursuant to section 172E(3)(b) of the Act, the reasons for my decision not to revoke, replace or amend the Amendment Rules are that:

- (a) no submissions received on the Amendment Rules identified any concerns that need to be addressed by revoking, replacing or amending the Amendment Rules; and
- (b) the reasons for making the Amendment Rules remain valid in that:

(i) Transpower has advised that it requires additional time to complete the proposed transmission pricing methodology this year, due to the limited staff resources available to complete the work required, and the potential for competing resource requirements to meet other regulatory requirements of both the Electricity and Commerce Commissions; and

(ii) it is conceivable that 90 days may also not be sufficient in future years, particularly if there are further changes to the Part F framework in the Rules which impact on the preparation of the transmission pricing methodology.

3. Copies of the Electricity Governance Rules 2003 may be inspected free of charge or purchased from the Electricity Commission, Level Seven, ASB Bank Tower, 2 Hunter Street, Wellington, and these Rules can also be viewed on the Electricity Commission web site:

Notes to the Financial Statements for the Year Ended 31 March 2005**1. Statement of Accounting Policies**

The ASB Bank Community Trust (“the trust”) is the reporting entity. The trust was formed on 30 May 1988 through the creation of a trust deed in compliance with the Trustee Banks Restructuring Act 1988. Under the terms of the trust deed, the trust was settled with 60 million \$1 fully paid ordinary shares in ASB Bank Limited representing 100% of the issued capital. As at 31 March 1988, the net tangible asset backing of those 60 million shares was \$147,655,000. In 1989, 45 million shares were sold to the Commonwealth Bank of Australia for \$252,000,000 which was then donated to the ASB Charitable Trust. In October 2000, the remaining 15 million shares were sold to the Commonwealth Bank of Australia for \$545,000,000.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Consolidated Financial Statements

Consolidated financial statements have not been prepared as the subsidiary companies have not traded since incorporation.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers. Therefore, the statement of cash flows does not reflect the cash flows within the fund managers’ portfolios.

Dividends

Dividends are recognised as income when they are received by the trust. They are recorded net of any imputation tax credits.

Donations

Donations are accounted for as they are committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Charitable Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between each trust on the basis of the number of applications processed by each.

Joint expense allocations were:

	<i>2005</i>	<i>2004</i>
This trust	50%	50%
ASB Charitable Trust	50%	50%

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investment in managed funds and other investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period. Investment transactions are recorded by the fund managers on a settlement date basis.

Financial Instruments

All assets and liabilities of the trust are financial instruments and are recognised in the balance sheet. All financial instruments are recorded at market value which equates to fair value.

The trust uses financial instruments to reduce exposure to fluctuations in foreign currency exchange rates. Forward exchange contracts are entered into to hedge foreign currency transactions. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the income and expenditure statement.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments have been included throughout the financial statements where material.

Reserves

Transfers to the capital maintenance reserve are based on the annual movement in the consumer price index. Transfers to all other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

Taxation includes both current and deferred tax. Deferred tax is calculated using the comprehensive liability method. Deferred tax assets are recognised when future taxable income is virtually certain.

Changes in Accounting Policies

There have been no material changes in accounting policies during the period.

9. Financial Instruments

The trust invests in securities that are denominated in foreign currencies and therefore result in a currency risk. In order to minimise the currency risk, foreign currency assets are hedged.

For all classes of financial assets held by the trust, the maximum credit risk exposure to the trust is the carrying value.

Due to the diversification of the investment portfolio and the policies and procedures in place, there is no significant concentrations of credit risk. No collateral is required in respect of financial assets.

Audit Report

To the Trustees of ASB Bank Community Trust:

We have audited the financial statements comprising the statement of income and expenditure, the statement of movements in trust funds, the balance sheet, the statement of cash flows and the notes to these financial statements. The financial statements provide information about the past financial performance of the trust and its financial position as at 31 March 2005. This information is stated in accordance with the accounting policies in the notes to these financial statements.

Trustees' Responsibilities

The trustees are responsible for the preparation of financial statements which give a true and fair view of the financial position of the trust as at 31 March 2005 and the results of its operations and cash flows for the year ended on that date.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the trustees and report our opinion to you.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial report. It also includes assessing:

- the significant estimates and judgements made by the trustees in the preparation of the financial statements;
- whether the accounting policies are appropriate to the trust's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with New Zealand Auditing Standards. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to obtain reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements.

Our firm has also provided other services to the trust in relation to taxation advisory services. These matters have not impaired our independence as auditors of the trust. The firm has no other relationship with, or interest in, the trust.

Unqualified Opinion

We have obtained all the information and explanations we have required.

In our opinion, proper accounting records have been kept by the trust as far as appears from our examination of those records and the financial statements:

- comply with generally accepted accounting practice; and
- give a true and fair view of the financial position of the trust as at 31 March 2005 and the results of its operations and cash flows for the year ended on that date.

Our audit was completed on 30 May 2005 and our unqualified opinion is expressed as at that date.

Notes to the Financial Statements for the Year Ended 31 March 2005**1. Statement of Accounting Policies**

The ASB Charitable Trust (“the trust”) is the reporting entity. The trust was formed on 31 May 1989 through the creation of a trust deed by the ASB Bank Community Trust and a donation of \$252,000,000.

The measurement basis adopted is that of historical cost adjusted for the revaluation of certain assets. Reliance is placed on the fact that the trust is a going concern. The financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993.

Bank

Bank is stated as the balance in the bank account rather than the balance as per the cash book.

Statement of Cash Flows

Cash comprises cash at bank and call deposits but does not include cash or deposits held by the fund managers. Therefore, the statement of cash flows does not reflect the cash flows within the fund managers’ portfolios.

Depreciation

Depreciation is provided over the useful life of the assets. Buildings are depreciated on a straight line basis. Vehicle, office equipment and furniture are depreciated on a diminishing value basis. The rates used are those recommended by the Inland Revenue Department.

Land and buildings	2.5% – 3.0%
Vehicle	31.2%
Office equipment and furniture	9.5% – 48.0%

Dividends

Dividends are recognised as income when they are receivable by the trust and exclude imputation tax credits.

Donations

Donations are accounted for as they are committed to be distributed to eligible organisations as approved by the trustees.

Expenses

Some expenses are shared jointly with the ASB Bank Community Trust. Whilst each trust bears its own specific costs, the joint expenses are allocated between the trusts on the basis of the number of applications processed by each.

Joint expense allocations were:

	2005	2004
This trust	50%	50%
ASB Bank Community Trust	50%	50%

Fixed Assets

Fixed assets are valued at cost less accumulated depreciation.

Foreign Currencies

All amounts denominated in foreign currencies are converted to New Zealand dollars at balance date and all realised and unrealised gains and losses are recognised in income and expenditure for the period.

Investments

Investments are stated at market value. Any gains or losses are recognised in income and expenditure for the period.

Investment transactions are recorded by the fund managers on a settlement date basis.

Financial Instruments

All assets and liabilities of the trust with the exception of fixed assets are financial instruments and are recognised in the balance sheet. All financial instruments are recorded at market value which equates to fair value.

The trust uses financial instruments with off balance sheet risk to reduce exposure to fluctuations in foreign currency exchange rates. Forward exchange contracts are entered into to hedge foreign currency transactions. These are converted to the New Zealand dollar rate at balance date with all realised and unrealised gains and losses being recognised in the income and expenditure statement.

The quantitative disclosures required by FRS 31 Disclosure of Information about Financial Instruments have been included throughout the financial statements where material.

Reserves

Transfers to the capital maintenance reserve are based on the annual movement in the consumer price index.

Transfers to all other reserves from the unallocated surplus are made at the discretion of the trustees.

Taxation

The trust has been accorded tax exempt status in New Zealand and Australia but is liable to taxation on investment income in some other overseas countries. Tax on overseas income is accounted for as a reduction of that income.

Changes in Accounting Policies

There have been no material changes in accounting policies during the period.
