## New Zealand Public Health and Disability Act 2000

### Advice Notice to General Practitioners Concerning Patient Benefits and Other Subsidies—Amendment No. 5

This variation Amendment No. 5 is made to the Advice Notice to General Practitioners under section 88 of the New Zealand Public Health and Disability Act 2000 (originally issued 1 May 2000 under section 51 of the Health and Disability Services Act 1993) and with the approval of the Minister of Health.

#### Notice

**1. Commencement**—This notice applies on and after 1 October 2005.

**2. Interpretation**—In this notice, the Advice Notice to General Practitioners Concerning Patient Benefits and Other Subsidies is called the “principal notice”.

**3. Amendment**—(1) Schedule 3 of Part B of the principal notice is amended by revoking clause 3A.2, and substituting the following clause:

“3A.2 The Programme consists of a course of three MeNZB™ injections and a 4th MeNZB™ vaccine dose for eligible children who commence the 1st dose of MeNZB™ prior to 6 months of age, or as otherwise advised by the Ministry of Health.”

(2) Schedule 3 of Part B of the principal notice is amended by revoking clause 4.6, and substituting the following clause:

“4.6 The subsidised fee for the administration of a vaccine episode on the childhood immunisation schedule as set out in the Immunisation Handbook (other than the influenza vaccine) is \$18.50 (G.S.T. inclusive). The subsidised fee for the administration of the influenza vaccine is \$18.50 (G.S.T. inclusive) plus the purchase cost (inclusive of G.S.T.) of the vaccine from the nominated supplier. For the purposes of clarity, a vaccine episode is a visit on any given day for the administration of any number of vaccines. The subsidised fee for immunisations will be reviewed annually by the Ministry of Health.”

(3) Schedule 3 of Part B of the principal notice is amended by revoking clause 5.5, and substituting the following clause:

“5.5 For all immunisations eligible for a payment of a subsidised fee, the subsidised fee is \$18.50 (G.S.T. inclusive) in respect of each immunisation episode as set out in this Notice. The subsidised fee for immunisations will be reviewed annually by the Ministry of Health.”

(4) Schedule 3 of Part B of the principal notice is amended by revoking clause 5.7, and substituting the following clause:

“5.7 A subsidised fee of \$18.50 (G.S.T. inclusive) will be paid for the administration of a vaccine or vaccines where:

- (a) the Person is a household contact or sexual contact of a person with acute Hepatitis B or a carrier of Hepatitis B; or
- (b) the Person is a household contact of a person with Measles, Mumps or Rubella.

This subsidised fee will be reviewed annually by the Ministry of Health.”

(5) Schedule 3 of Part B of the principal notice is amended by revoking clause 5.8, and substituting the following clause:

“5.8 A subsidy of \$18.50 (G.S.T. inclusive) will be paid for administering a MeNZB™ vaccine episode.”

**4. Statement of reasons for departure from terms and conditions for the purposes of section 89 (5) of the New Zealand Public Health and Disability Act 2000**—The terms and conditions in this notice depart from terms and conditions in the principal notice for the following reasons:

- (a) to enable delivery of a 4th dose of the MeNZB™ vaccine for young infants who commence dose 1 at less than 6 months of age (this was as a result of advice from clinical trials. This increases the protection for this age group at highest risk of contracting meningococcal disease);
- (b) to allow for a price increase adjustment of 2.8 per cent to be applied to all immunisation benefits (all National Immunisation Schedule and Meningococcal B Immunisation Programme events).

**Electricity Act 1992**

**Notice of Making of Electricity Governance Amendment Rules (No. 32) 2005 and Notice of Reasons for Decision**

1. Pursuant to section 172i of the Electricity Act 1992, I notify the amendment of the Electricity Governance Rules 2003 ("Rules") under section 172H of the Electricity Act 1992.

2. This amendment to the Rules is made pursuant to section 172D (1) (3) of the Electricity Act 1992.

3. A brief description of the nature of the amendments is as follows:

The procurement plan set out in Schedule C5 of Part C of the Rules is to be replaced in its entirety with a new procurement plan. The key changes between the existing procurement plan and the new procurement plan are set out below:

- (a) Changes to assessment methodology for instantaneous reserve and frequency keeping and to the proposed contracting process that increase the latitude for the parties to negotiate terms and conditions as long as none are inconsistent with the key contracting terms set out in the procurement plan.
- (b) Changes have been included for every ancillary service to make provision for the system operator to enter into ancillary service procurement contracts with other providers at any time during the procurement plan period.
- (c) A number of the key contracting terms have been inserted, largely relating to the monitoring and compliance arrangements, including:
  - (i) new provision for the system operator to terminate an ancillary service schedule if an ancillary service agent (ASA) commits a material breach of the contract in relation to that service and such breach, if remediable, is not remedied to the reasonable satisfaction of the system operator within 10 business days of the notice, or such longer period as the system operator may determine;
  - (ii) new provision for the system operator to make a claim that an ASA has failed or is unable to meet a performance requirement in the ancillary service procurement contract (ASPC) or cannot comply with a dispatch instruction. If the claim is accepted (either voluntarily or after dispute resolution), the system operator will not be liable to pay the ASA for the relevant period and the ASA will take remedial action;
  - (iii) new provision that makes it clear that some "baseline" tests may be required of ASAs for some ancillary services at their own expense;
  - (iv) new provision for the system operator to request ASAs carry out an "on-demand" test of the equipment used to provide or monitor any ancillary service and/or provide a statement of the capability and operational limitations of the equipment;
  - (v) new provision requiring the system operator to pay an ASA's reasonable costs of an "on-demand" test unless the equipment fails the test or the sole reason for the test was to verify the success of any remedial action;
  - (vi) new provision that if any equipment used to provide or monitor an ancillary service (except for non-mandatory frequency keeping or instantaneous reserve) fails to meet any test, the ASAs must re-test the equipment at their own expense until the equipment passes the test, unless otherwise agreed with the system operator, and the ASAs will be deemed incapable of providing the ancillary service until the test is passed;
  - (vii) new provision for the system operator to inspect any equipment used by ASAs to provide or monitor an ancillary service upon at least five days' notice of the intention to inspect the

equipment, but may give less or no notice if the system operator reasonably believes the equipment is being used in a manner inconsistent with the ASPC. The system operator must not interfere unreasonably with the ASA's business in carrying out such an inspection; and

- (viii) new provision for the system operator to assign its interest in the ASPC to another party taking over the role of system operator; otherwise, assignment by either party must have the consent of the other party.
- (d) The frequency of system operator reporting of ancillary service settlement volumes, prices, costs, etc, which is currently unspecified, is to be carried out monthly.
- (e) A number of changes to the performance requirements and technical specifications for various ancillary services:
  - (i) New requirement for ASAs to maintain their monitoring equipment in accordance with good industry practice (all ancillary services);
  - (ii) new requirement that the measurement of time error must be performed with a global positioning system clock or agreed equivalent (associated with provision of frequency keeping);
  - (iii) new obligation on system operator to use reasonable endeavours to dispatch frequency keepers at least five minutes in advance of the start or end of the relevant trading period, as the case may be;
  - (iv) new requirement that the control maximum be greater than, or equal to, the control minimum plus twice the range of the offered MW band for the frequency keeping site;
  - (v) description of the method the system operator will use to assess whether or not the ASAs have delivered a quantity of instantaneous reserve following an under frequency event that is consistent with the quantity dispatched;
  - (vi) new requirement that the relay equipment for over frequency reserve must immediately arm or disarm (as appropriate) when it receives a remote arming or disarming signal from the system operator's co-ordination centre;
  - (vii) new requirement for the ASAs to provide voltage support equipment that will be available at all times to provide voltage support, is able to respond when dispatched, and is maintained in accordance with good industry practice;
  - (viii) new requirement for the ASAs to provide monitoring equipment that is available at all times and continuously monitors and transmits the reactive power being produced by the voltage support equipment to the designated interface points;
  - (ix) new requirement for the ASAs to ensure the black start equipment is able to start without power being obtained from the grid or local network at least once every six weeks unless the black start equipment has been generating for 66% or more of the time since the last test;
  - (x) new requirement that the system operator may require the ASAs to conduct a baseline test of the black start service no more than once during the procurement plan period to confirm the ASAs can meet the performance requirements;

- (xi) new requirement for the ASAs to ensure the black start equipment is able to achieve the response times specified in the ASPC; and
  - (xii) new requirement for the ASAs to ensure the black start equipment is maintained in accordance with good industry practice.
  - (f) Changes to the offer period for the provision of voltage support, over frequency reserve, and black start provide the system operator with the ability to enter into new long-term contracts without limitation.
  - (g) Change to the pricing structure for voltage support drops the requirement for the system operator to purchase a mix of half-hour and long-term pricing.
  - (h) Change to the quantity requirements for voltage support drops the requirement for the system operator to use planning studies to justify the procurement of more voltage support.
4. Pursuant to section 172Z (4) of the Electricity Act 1992, the reason for my decision to amend the Rules is that the new procurement plan improves the process for making a net purchase quantity assessment so the system operator can better meet the principal performance obligations while also reducing the cost of the ancillary service purchases and meeting the requirements of Rule 4 in section IV of Part C of the Rules.
5. These Rules come into force on 1 November 2005.
6. Copies of the Rules may be inspected free of charge or purchased from the Electricity Commission, Level Seven, ASB Bank Tower, 2 Hunter Street, Wellington. The Rules can also be viewed on the Electricity Commission web site:

### Notice of the Grant of a Variation of an Exemption #13

This notice of the grant of a variation of exemption is issued by the Electricity Commission ("Commission"), continued under subpart 1 of Part 15 of the Electricity Act 1992, pursuant to Regulation 196 of the Electricity Governance Regulations 2003 ("Regulations") in favour of TrustPower Limited ("TrustPower"), acting as an agent for Carter Holt Harvey Pulp and Paper Limited.

#### Notice of the Grant of a Variation of Exemption ("notice")

Regulation 194 (2) requires that the variation of exemption and the Commission's reasons for granting it are notified in the *New Zealand Gazette* as soon as practicable after being granted.

Subject to the terms and conditions imposed upon TrustPower in respect of any variation of exemption contained within this notice, the Commission hereby notifies it grants a

variation of exemption to the original exemption granted to TrustPower (Exemption #13, published in the *New Zealand Gazette*, 26 February 2004, No. 21, page 424) from the requirement to comply with the following Electricity Governance Rules ("Rules"):

Rule 4.11 of section III of part G

### Terms and Conditions of the Grant of the Variation of Exemption

Pursuant to Regulation 196, the Commission may vary or revoke an exemption.

Regulation 194 applies as if the variation or modification were the granting of an exemption and with all other necessary modifications. In respect of the variation of exemption contained within this notice, the Commission imposes the following terms and conditions:

- The exemption will expire on 1 April 2006.
- The exemption only relates to generation at KIN0112.
- Generation at KIN0112 stays within 5 MW of any dispatch instruction issued by the system operator.

The Commission notes that Regulation 196 provides that an exemption may be varied or revoked either on application by a participant or on the initiative of the Commission.

### Commission's Reasons for the Grant of the Variation of Exemption Contained in this Notice

The reasons for the grant of the variation of exemption are as follows:

- (a) Most of the energy produced by generation at the Kinleith plant is used on-site and the on-site processes require the operation of the co-generation plant in conjunction with these processes. The Kinleith plant is therefore unable to comply with the rule requiring it to follow dispatch instructions.
- (b) The Commission is unable to identify any participants who would be unduly affected by the grant of the amendment of exemption.
- (c) Granting the amendment of exemption will allow time for the Commission to finalise a rule change or other mitigation measures which appropriately reflect the operation of cogeneration plant.

### Date Upon Which the Variation to the Exemption Becomes Effective

Pursuant to Regulation 195, the date upon which the variation of exemption contained in this notice takes effect, being a date which is not earlier than the date of the *New Zealand Gazette* notice in respect of the variation of exemption, is 1 September 2005.

Dated at Wellington this 26th day of August 2005.

For and on behalf of the Electricity Commission:

ROY HEMMINGWAY, Chair.

NEW ZEALAND SEAFOOD INDUSTRY COUNCIL.

#### **Explanatory Note**

*This notice specifies five matters required to be notified by either the Commodity Levies (Fish) Order 2002 or the Constitution of SeaFIC.*

*They are:*

- 1. the rates of levy to be levied on fish under the Order;*
- 2. the dates on and from which the rates take effect;*
- 3. the Core Services Levy Rates;*
- 4. the Stock Specific Levy Rates; and*
- 5. the Total Levy Rates (which are the same as the rates of levy for the purposes of the Order).*

*The rates are all notified for the 1 October 2005 to 30 September 2006 levy year.*

*The notice also records for the information of levy payers and others:*

- the Declared Port Prices as declared by SeaFIC (column 1);*
- the Core Services Levy Rates expressed on a \$ per tonne basis (column 2);*
- the Stock Specific Levy Rates expressed on a \$ per tonne basis (column 4); and*
- the Total Levy Rates expressed on \$ per tonne and \$ per kilo bases (columns 6 and 7).*

*With the exception of the new species to be introduced into the QMS on 1 October 2005, the rates specified are only listed for Quota Management Areas where a TACC has been set. Areas with a Zero TACC have been excluded.*
