funds in accordance with the Pre-Seed Accelerator Scheme (“the scheme”) specified in this notice.

Nature of the Scheme

The scheme is intended to foster commercialisation skills, technological learning and technological innovation by “public sector research providers”¹.

The intended outcome of this scheme is to increase the stream of commercial prospects from “publicly funded research”² carried out by public sector research providers and develop these projects to the point where a private sector firm or other suitable commercialisation partner can be attracted.

The scheme will support “experimental development and related pre-commercial activities”³ that develop research undertaken by public sector research providers to an “investor-ready”⁴ point.

Scheme Objectives

Projects that meet the scheme’s objectives are eligible to receive funds from the foundation.

The scheme’s objectives are to:

- maximise the commercial benefits to New Zealand of previously publicly funded research;
- raise public sector providers’ commercial capabilities and skills; and
- improve public sector research providers links with potential private sector partners.

In making funding decisions, the foundation will fund those projects that, in its view, best meet the following criteria:

- Projects that commercialise previously publicly funded research;
- have a clear link to a business strategy focused on developing projects with strong commercial potential (especially to create new exports) to the investor-ready point;
- are likely to be started sooner and completed earlier because of the scheme’s support; and
- have the potential to generate an enduring wealth creating capability in New Zealand.

The foundation will have full discretion to manage the allocation of funds for the scheme in a way that will achieve the objectives of the scheme.

The Mechanism

The foundation, or a provider to whom the foundation has devolved funds, will use the scheme to fund up to 33% of the eligible costs that the provider will incur in undertaking a project that meets the scheme’s objective. The other 67% contribution may come from one or more of the sources listed below:

- The reprioritisation of other research funding held by the provider, provided that using such funding on the project remains consistent with the original purpose of the research funding and complies with any restrictions imposed upon it.
- The provider’s own discretionary funds.
- Other external funds, such as private sector co-investment, but excluding non-research funds sourced from public sector funding agencies.

Allocation of Funding

Funds available to the scheme will be published each year in the estimates of appropriations.

Period of Operation

The scheme commenced operation on 1 August 2003. Its continuation and mode of operation will be reviewed after three years.

Research, Science & Technology

Foundation for Research, Science, and Technology Act 1990

Notice of Introduction to Ministerial Scheme Under Section 8A of the Foundation for Research, Science, and Technology Act 1990—the Pre-seed Accelerator Scheme

Direction to: The Foundation for Research, Science and Technology (“the foundation”).

Under section 8A of the Foundation for Research, Science, and Technology Act 1990, I direct the foundation to allocate

Monitoring Agency

Monitoring and review of this scheme, including of the implementation of this ministerial notice by the foundation and the extent to which the scheme achieves its stated objectives, will be carried out by the Ministry of Research, Science and Technology (“MoRST”).

Dated on the 14th day of August 2003.

PETE HODGSON, Minister of Research, Science and Technology.

Notes

¹For the purposes of this scheme, “public sector research providers” include entities governed by the Education Act 1989, the Crown Research Institutes Act 1992, Te Papa, Cawthron Institute and any New Zealand-based not for profit research associations. Subsidiaries that are more than 50% owned directly or indirectly by one or more public sector research providers are included.

²“Publicly funded research” means research funded or co-funded by any New Zealand-based public sector funding agency.

³The definition that is applied to “experimental development and related pre-commercial activities” will be determined by the foundation and MoRST, based on the definition in the OECD Frascati Manual.

⁴“Investor-ready” means a working prototype or similar stage at which a private sector firm, venture capital investor or other investor may reasonably be expected to be attracted, in order to advance or to complete the commercialisation process.

Executive Director: B. E. C. Strathern, P.O. Box 983, Community House, Timaru.

Chairperson's Report for the Year Ended 31 March 2003

I am pleased to report on the financial accounts and the operations of the trust for the year ended 31 March 2003.

I regret to announce that the trust incurred a deficit of 7.3% in its investments.

Movement in Managed Funds

The year under review has seen a high level of volatility in the investment market place, especially in overseas equities which contributed largely to the deficit.

The trust's investment policy is a relatively conservative one and it maintains a diversified portfolio of off-shore and on-shore debt and equity investments.

Although off-shore equities were largely responsible for the loss, our manager achieved a better than index result, whereas the manager responsible for New Zealand equities failed to achieve targets related to that market. For this reason, the trust appointed Forsyth Barr Frater Williams as its new manager for the forthcoming year to manage this part of its investment portfolio.

Trustees spent considerable time and effort in grappling with its investment policy, and acting upon the advice of its investment consultant and studying past trends, they are optimistic that improved results will be achieved within the relatively near future.

It would be appropriate to refer to a recent survey which canvassed the views of a number of respected professional managers to gauge the forecast returns of each class of asset class before tax and expenses.

One of the most important factors is the improved forecast performance of both New Zealand and overseas equities.

Hopefully I can report an improved position in my next annual report.

Donations

Donations authorised during the year amounted to \$723,410, including a further district secondary schools' technology grant of \$248,413, compared to \$1,555,856 the previous year.

Donation Assessment Process

Last year I referred to the district socio-economic survey which was to be carried out this year.

The purpose of the survey was to assist trustees in deciding where best to channel its donations for the wider community to benefit. At the time of writing this report, the final draft copy of the survey has now been received.

Trustee Appointment

During the year, Mr Laurance Cooney, of Ashburton, retired from the office of trustee. Mr Cooney was a long-standing trustee whose experience and wise counsel made a most important contribution of the affairs of the trust.

Mrs Heather Sim of Methven was appointed to replace him, and her knowledge of the Methven and Ashburton districts will prove to be valuable.

Appointment of Auditor

The trust appointed Martin Wakefield, Chartered Accountants of Timaru to act as auditors to the trust.

Trustees' Training Day

On 26 August 2002, trustees spent a complete training day under the leadership of a professional advisor.

Some of the subjects covered were:

- Legal responsibilities of trustees
- Strategic planning
- Alternative ways of improving the donation process
- Understanding of legal obligations

Appreciation

Trustees spent a challenging and frustrating year in struggling with the complexities of the investment sector. They all have diverse experience and knowledge, and make worthwhile contributions to the affairs of the trust, and I know that they would prefer to be involved in deciding where best to channel donations in the district, as distinct from spending the majority of their time on investment issues.

However, these functions go hand in hand, and I express my sincere thanks to them for working together to achieve their main objective – making the district a better place to live in.

In all its activities, the trust relies on the co-operation and experience of its administrative staff, and the way they have diligently carried out their responsibilities during the year has been particularly commendable.

P. F. MCILRAITH, Chairperson.

Notes to the Consolidated Financial Statements for the Year Ended 31 March 2003

1. Statement of Accounting Policies

Reporting Entity

The Community Trust of Mid & South Canterbury Inc. is a charitable trust incorporated under the Trustee Banks Restructuring Act 1988. The financial statements have been prepared in accordance with the Financial Reporting Act 1993 and generally accepted accounting policies.

General Accounting Policies

The general accounting policies adopted in the preparation of these financial statements are:

- The measurement base adopted is that of historical cost, except for the revaluation of investments. Reliance is placed on the fact that the trust is a going concern.
- The matching of revenues earned and expenses incurred using accrual accounting.

Particular Accounting Policies

The following are the particular accounting policies which have a material effect on the measurement of results and financial position:

(a) Dividend Income

Dividend income is included in the consolidated statement of financial performance when it is received.

(b) Donations

Donations, special projects and community loans are accounted for when they are approved for payment.

(c) Investments

Investments held as managed funds are shown at market value. Net income including unrealised gains or losses from holding such investments are recorded in the consolidated statement of financial performance.

(d) Trust Capital

Trust capital is made up of:

- Capital fund – which records initial capital fund (being the realised value of trust bank shares).
- Inflation reserve – it is intended to increase the inflation reserve each year by applying the consumer price index to the sum of the initial capital fund and opening inflation reserve. The amount is to be allocated from trust profit on an annual basis.
- Uncommitted surplus represents the balance of any profit remaining.

(e) Basis of Consolidation

The Community Trust of Mid & South Canterbury Inc. and its subsidiary the Trust Bank South Canterbury Community Trust Charities Limited have been consolidated using the purchase method of consolidation.

Changes in Accounting Policies

- (a) While the trust has not changed its policy with respect to the capital and reserves of the trust, unfortunately the current financial result has depleted the capital and reserves:

- Capital fund – The initial capital fund (being the realised value of trust bank shares) was \$32,087,148. The fund has been depleted with the current year's financial result to \$31,136,967. It is the intention of the trustees to restore the initial capital fund to \$32,087,148.
- Inflation reserve – The inflation reserve has been extinguished with the current year's financial result. It is intended to increase the inflation reserve each year by applying the consumer price index to the sum of the initial capital fund and opening inflation reserve. The nominal inflation reserve required under this policy at 31 March 2003 is \$4,328,167 and it is the trustees' intention to restore the inflation reserve accordingly.

- (b) The trustees have not distinguished between realised and unrealised losses or between fund managers as was the case in previous years. Rather, the trustees have considered that it is more informative to analyse the gain/loss which results from the following four categories:

- Offshore debt
- Offshore equity
- New Zealand debt
- New Zealand equity

- (c) The trustees have not identified accrued interest on managed funds as a separate line item this year but rather it is included in the managed fund investment balance. The trustees consider that this more accurately reflects the total balance invested in managed funds.

- (d) There have been no other changes in accounting policy.

Statement of Significant Accounting Policies for the Year Ended 31 March 2003

A. Basis of Preparation

The Community Trust of Southland was formed under the Trustee Banks Restructuring Act 1988 and is incorporated under the Charitable Trusts Act 1957. The financial statements presented are those for The Community Trust of Southland Group (“the group”). The group consists of The Community Trust of Southland (“the trust”), its wholly owned subsidiary company Southland Community Trust Charities Limited and the trust’s interests in associates.

The financial statements comply with the Financial Reporting Act 1993 and the Community Trusts Act 1999. They comprise statements of the following: significant accounting policies, financial performance, movements in trust funds, financial position, cash flows, as well as notes to these statements.

The financial statements are prepared on the basis of historical cost except that investment assets are stated at valuation.

B. Consolidation Method

The financial statements of the trust’s wholly owned company Southland Community Trust Charities Limited are included in the financial statements using the purchase method of consolidation.

C. Associates

Associates are entities in which the group has significant influence, but not control over the operating and financial policies. The financial statements include the group’s share of the net surplus of associates on an equity accounted basis.

D. Trust Capital

Following the sale of the group’s shares in Trust Bank New Zealand Limited in April 1996 for \$158,460,000, the trustees agreed that the value of the trust at that time should be maintained for the benefit of current and future generations living in the region. For this purpose, the trustees agreed that \$158,460,000 would be considered as the “trust capital” value of the group and that this value would be maintained.

E. Capital Maintenance Reserve

The capital maintenance reserve represents the additional amount necessary to preserve the real value of the trust capital allowing for inflation as measured by the Consumers Price Index (all groups) and payments of grants out of capital.

F. Grants Maintenance Reserve

While the trustees have adopted a long-term investment strategy, they accept that annual returns from investments are likely to fluctuate from year to year. In recognition of this, a grants maintenance reserve is maintained. In years when net income from investments is higher than the grant levels, surplus income will be transferred to this reserve. In years when there is insufficient income to sustain the level of grants, an appropriate amount will be transferred from the grants maintenance reserve to income.

G. Basis of Recognising Components of the Financial Statements

The following general accounting policies are adopted:

Assets

A transaction results in an asset being recognised in the statement of financial position when it will probably give rise to ongoing benefits for the group and those benefits can be measured with reliability.

Liabilities

A transaction results in a liability being recognised in the statement of financial position when it will probably give rise to the need for the group to sacrifice assets in the future and those sacrifices can be measured with reliability.

Revenue

Revenue is recognised in the statement of financial performance when a transaction gives rise to an increase in the value of the group’s net assets, and that increase can be measured with reliability.

Expenses

An expense is recognised in the statement of financial performance when a transaction results in a decrease in the value of the group’s net assets, and that decrease can be measured with reliability.

Classification of Assets and Liabilities Between Current and Non-current

An amount is classified as current when it is expected to be settled or extinguished within one year of the date of the financial statements. All other amounts are classified as non-current.

H. Fixed Assets

Fixed assets are initially stated at cost and then depreciated on a straight line basis. The estimated useful lives of fixed assets are as follows:

Land	Indefinite
Buildings	30-40 years
Furniture and fittings	3-15 years
Office equipment	3-8 years
Motor vehicles	5-8 years

I. Investments

Investments are stated at market value and report realised and unrealised gains or losses on holding these investments in the statement of financial performance. These gains or losses are shown in the statement of financial performance as income from revaluation of investments.

J. Accounts Receivable

Accounts receivable are stated at expected realisable value.

K. Grants

Grants are recognised when they are approved by the trustees. Unpaid grants are recorded as a liability.

L. Goods and Services Tax

The group is not registered for goods and services tax. The financial statements are prepared using G.S.T. inclusive accounting.

M. Income Taxation

The group provides for income tax on its net income after adjusting for tax accounting differences and any beneficiaries' income determinations made pursuant to section OB1 (226) of the Income Tax Act 1994.

N. Statement of Cash Flows

Operating cash flows includes interest and dividends paid or credited to investment funds under management and any upward or downward revaluation of funds during the period. Cash movements in funds invested are recognised in investing activities.

O. Changes in Accounting Policies

8. Investments in Associates

Invest South Limited is a joint venture company, owned 50% each by the group and SBS. Invest South Limited is in the business of investing, principally by way of equity investment, in businesses in the Southland region. Invest South Limited's balance date is 31 March.

The group's investment in Invest South Limited comprises:

The trustees resolved prior to balance date to purchase from SBS their shareholding in Invest South Limited for the sum of \$2,625,000, and this transaction was completed in May 2003. Following the purchase, the group owns 100% of Invest South Limited's 10 million shares.

The group has funds with five investment managers (fund managers), being AMP Asset Management, ING (NZ) Ltd, State Street Global Advisors, Tower Asset Management and Invest South Limited. Market values and asset allocations of these investments as at balance date were as follows:

	<i>AMP</i>	<i>ING</i>	<i>State Street</i>	<i>Tower</i>	<i>Invest</i>	<i>Total</i>	<i>Total</i>

Exposure to currency, interest rate and credit risk arises in the normal course of the fund managers' management of the group's investments. A range of hedging policies are in place whereby the fund managers use derivative financial instruments as a means of managing exposure to fluctuations in foreign exchange rates and interest rates. While these financial instruments are subject to the risk of market rates changing subsequent to acquisition, such changes would generally be offset by opposite effects on the items being hedged.

12. Loans

Loan balances outstanding as at 31 March were as follows:

	<i>2003</i>	<i>2002</i>
	\$	\$
Troopers Memorial Corner Charitable Trust	195,000	195,000
Topoclimate South Trust	98,493	146,525

	<u>938,055</u>	<u>1,768,771</u>

Each loan is repayable upon demand. All loans are interest free, with the exception of the loan to Topoclimate South Trust, which attracts interest at the 90 day bank bill rate plus a margin of 2%, and the loan to Nga Hau Wha Society, which attracts interest of 7%.

14. Financial Instruments*General*

The group states its investments at balance date at estimated market value. The trustees consider that the fair value of the financial assets is identical to the value in the statement of financial position.

Concentration of Credit Risk

The group, from time to time, has significant funds in trading bank deposits. The group limits risk by spreading the deposits over several trading banks. The group has not required collateral or other security to support its financial statements.

The group further limits risk through its policy of placing investment funds with five separate fund managers, with each fund manager having an investment mandate which requires that they diversify their investments on the group's behalf. The group has sought and obtained the advice of professional financial advisers prior to making its investment allocation and placement decisions.

Interest Rate Risk

The bank deposits are sensitive to changes in interest rates, as are a proportion of the funds managed by the fund managers, and the loans to Topoclimate South Trust and Nga Hau Wha Society.

15. Capital Commitments

Commitments of \$4,202,448 exist for grants which will be distributed from either capital or future income sources in future years. These grants have not been recorded in either the statements of financial performance or financial position. Specific commitments are as follows:

Statement of Notes to the Accounts**1. Statement of Accounting Policies****Reporting Entity**

TSB Community Trust is a charitable trust formed by a trust deed dated 30 May 1988. A new trust deed was adopted by the trust on 8 February 2001. The financial statements have been prepared in accordance with this deed and the Community Trusts Act 1999.

Measurement Base

The measurement base is that of historical cost.

Specific Accounting Policies

The following specific accounting policies which materially affect the measurement of financial performance and financial position have been applied.

Specific Accounting Policies

Receivables are stated at their estimated realisable value.

Investments

The TSB Bank Limited shares are stated at the value when gifted: 20,000,000 fully paid shares at 50 cents each, representing \$10,000,000. The net asset backing at 31 March 2003 was \$6.46 per share.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost, office equipment will be depreciated on a straight line basis over four years.

Income Tax

The income tax expense charged to the statement of income includes both the current year's provision and the income tax effects of timing differences calculated using the liability method.

Tax effect accounting is applied on a comprehensive basis to all timing differences. A debit balance in the deferred tax account, arising from timing differences or income tax benefits from income tax losses, is only recognised if there is virtual certainty of realisation.

Financial Instruments

The financial instruments are recorded at their carrying value which is also the fair value of each of the classes of financial instruments consisting of cash, accrued interest, dividends receivable, investments other than shares in TSB Bank Ltd, accrued charges and donations payable. As stated above, the shares in TSB Bank Ltd are carried at their value when gifted.

Cashflows

For the purpose of the statement of cashflow, cash includes cash on hand and deposits held on call with banks.

Goods and Services Tax

The financial statements have been prepared on a G.S.T. inclusive basis.

Changes in Accounting Policies

Dividend income is now recognised when the bank provides for an obligation to pay the dividend. This change in accounting policy has resulted in additional dividend income of \$3,515,000 being included in the current year, leading to an increase in trust equity and dividends receivable of the same amount. All other policies have been applied on bases consistent with those used in the previous years.

2. Dividend

The dividend includes \$3,315,000 relating to the final instalment received from the bank for year ended 31 March 2002, \$1,270,000 interim dividend for the year ended 31 March 2003 and, for the first time, the \$3,515,000 final dividend receivable from the bank for the year ended 31 March 2003.

3. Financial Instruments

Financial instruments that potentially have credit risk are cash, accrued interest and accrued charges.

The maximum credit risk exposure at balance date is the carrying value of bank, accrued interest and accrued charges. This is also the fair value.

4. Income Tax

Auditors' Report

To the Readers of the Financial Statements of the TSB Community Trust

We have audited the financial statements. The financial statements provide information about the past financial performance of the trust and its financial position as at 31 March 2003. This information is stated in accordance with the accounting policies set out.

Trustees' Responsibilities

The trustees are responsible for the preparation of financial statements which give a true and fair view of the financial position of the trust as at 31 March 2003 and the results of operations and cash flows for the year ended on that date.

Auditors' Responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the trustees and report our opinion to you.

Basis of Opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the trustees in the preparation of the financial statements; and
- whether the accounting policies are appropriate to the trust's circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with generally accepted auditing standards in New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the financial statements.

Other than in our capacity as auditor, we have no relationship with, or interests in, the trust.

Unqualified Opinion

We have obtained all the information and explanations we have required.

As stated in note 14, the trust has not prepared consolidated financial statements which would include the results and financial position of TSB Bank Ltd. This is a departure from Financial Reporting Standard No. 37 which requires consolidated financial statements to be prepared including all subsidiaries. Had the trust prepared the consolidated financial statements, an estimate of the effect would have been to show a group net surplus after taxation for the year of \$17,213,400 and total group accumulated funds of \$134,096,000 as at 31 March 2003.

In our opinion:

- proper accounting records have been kept by the trust as far as appears from our examination of those records; and
- except for the effect of the departure from applicable Financial Reporting Standard No. 37 as outlined above, the financial statements:
 - comply with generally accepted accounting practice in New Zealand;
 - give a true and fair view of the financial position of the trust as at 31 March 2003 and the results of its operations and cash flows for the year ended on that date.

Our audit was completed on 21 August 2003 and our unqualified opinion is expressed as at that date.

LANDRIGAN WAITE, Chartered Accountants, New Plymouth.
