Pursuant to section 131 (3) (a) of the Biosecurity Act 1993, the Animal Health Board gives notice that the movement of cattle and deer within the Controlled Area is restricted and regulated to the extent and subject to the conditions specified below.

Notice

1. Definitions

In this notice, unless the context otherwise requires:

“Herd” means:

- (a) a group of cattle, or deer, or cattle and deer, that is managed as one unit.
- (b) a group of cattle, or deer, or cattle and deer, that is kept within the same enclosure or behind the same fence.

2. Declaration Cards

2.1 Every cattle beast or deer aged 30 days or more that is moved within the Controlled Area from:

- (i) its herd of origin; or
- (ii) the place or establishment at which the animal is being kept

to a place other than a place occupied by the owner or person in charge of the cattle beast or deer, must be accompanied throughout the movement by a completed Declaration Card relating to that animal, so that a person inspecting that animal may inspect the Declaration Card at the same time.

2.2 A completed Declaration Card must be signed and dated by the owner of the animal to which it relates or a person acting with the authority of the owner, and must contain the following information for each animal to which the card relates:

- (a) The breed, sex and age of the animal;

For these herds, the Clear index is capped at a maximum value of “1”.
 - (iii) “Suspended”, which refers to animals from a herd in which diagnosis of suspected tuberculosis awaits confirmation or a herd containing animals of unknown testing history (including feral animals), for which sufficient testing information to establish the herd status has yet to be accumulated.
 - (iv) “Works monitored”, which refers to animals from a herd not subject to on-farm testing under the operational plan of the Animal Health Board.

3. Testing Prior to Movement From or Within Risk Areas

3.1 No cattle beast or deer aged 90 days or more may be moved:

- (a) from any Risk Area to a place outside that Risk Area; or
- (b) within any Risk Area from its herd of origin, or the place or establishment at which the animal is being kept to a place other than a place occupied by the owner or person in charge of the cattle beast or deer; unless it has undergone, within 60 days prior to the date of movement, a negative test for bovine tuberculosis in accordance with the Biosecurity (National Bovine Tuberculosis Pest Management Strategy) Order 1998.

3.2 The restriction on movement in 3.1 does not apply where an animal is being moved directly to a place of slaughter.
