Land Transfer Act / Joint Family Homes Act Notices

Land Transfer Act Notice

The applicants described below have applied, under section 70 of the Land Transfer Act 1952, for the removal of a right to drain sewage easements.

The applicants claim the right to drain sewage easements are redundant by reason of the circumstances set out below.

I intend to remove the right to drain sewage easements on 1 July 2012 if no objections have been received before that date.

Applications: 8976157.2 and 8976157.3.

Applicants: Troy Edward De Baugh and Rosalie Marie De Baugh, c/o Glaister Ennor Lawyers, 18 High Street, Auckland 1140
(*Attention:* Joel Fotu).

Easements:

1. Right to drain sewage over part Lot 22 DP 342728; marked "T" on DP 342728, comprised in Computer Freehold Register 175382 created by easement instrument 6343941.8 registered on 11 March 2005.
2. Right to drain sewage over part Lot 22 DP 342728; marked "AJ" on DP 348179, comprised in Computer Freehold Register 175382 created by easement instrument 6752200.12 registered on 13 February 2006.

Circumstances: Determined by specified event: The sewage easements are no longer applicable, as the sewage system has been removed and connection to a public sewer system has been made available to the dominant tenements.

Dated at the Hamilton Office of Land Information New Zealand this 28th day of May 2012.

Recovery Strategy for Greater Christchurch, Mahere Haumanutanga o Waitaha

This notice, containing the text of the Recovery Strategy for Greater Christchurch, Mahere Haumanutanga o Waitaha, is published in conjunction with the Canterbury Earthquake (Recovery Strategy Approval) Order 2012, as published in the *New Zealand Gazette*, 31 May 2012, No. 61, page 1745.

3 What is Recovery? – He aha tēnei mea te Whakaara?

The CER Act defines recovery as including both restoration and enhancement. Recovery is inherently future focussed and there will be opportunities to “build back better” when repairing damage caused by the earthquakes.

Opportunities for enhancements should be considered, including where:

- they lead to increased resilience and/or functionality; or
- are cost-effective according to life-cycle analysis

provided that they do not come at the expense of the repair or replacement of essential infrastructure and services elsewhere.

For the purposes of this Strategy, “recovery” does not mean returning greater Christchurch to how it was on 3 September 2010.

Individuals and organisations are likely to view what recovery means in different ways. Their views will be shaped by how the earthquakes have affected them, how they view the social, cultural, economic and environmental impacts on the greater Christchurch area, and their hopes for the future.

4 Vision and Goals for the Recovery – Ngā Wawata

Vision

Greater Christchurch recovers and progresses as a place to be proud of – an attractive and vibrant place to live, work, visit and invest, mō tātou, ā, mō kā uri ā muri ake nei – for us and our children after us.

Supporting this vision are the following goals, which relate to the six components of recovery.

The community is at the heart of the vision and the success of recovery.

Leadership and Integration

1. *CERA, the public and private sector and communities coordinate with each other to contribute to the recovery and future growth of greater Christchurch – by:*

- 1.1 facilitating a timely and efficient recovery, including intervening where necessary to remove impediments, resolve issues and provide certainty;
- 1.2 considering the effects of ongoing seismic activity;
- 1.3 reporting and communicating how recovery work programmes are delivering integrated recovery;
- 1.4 facilitating engagement that will result in constructive and enduring governance, partnerships and relationships for recovery;
- 1.5 delivering smarter council and government planning and services;
- 1.6 ensuring that public sector investment and expenditure are transparent;
- 1.7 identifying opportunities to leverage the significant investment needed for new and upgraded infrastructure; and
- 1.8 providing research and knowledge that will help to make well-informed decisions for a robust and enduring recovery.

Economic Recovery

2. *Revitalise greater Christchurch as the heart of a prosperous region for business, work, education, and increased investment in new activities – by:*

- 2.1 planning for a well-functioning Christchurch central city, thriving suburban centres, flourishing rural towns and a productive rural sector;
- 2.2 leading and working with strategic partners and both the public and private sector;
- 2.3 restoring the confidence of the business sector and the insurance and finance markets to enable economic recovery and growth;
- 2.4 renewing the region’s brand and reputation as a safe, desirable and attractive place to live, study, visit and invest;
- 2.5 identifying and facilitating increased opportunities for early and substantial local and international investment;
- 2.6 ensuring a range of employment options to attract and retain a high-calibre, appropriately skilled workforce;
- 2.7 collaborating with the private sector and government agencies to address obstacles to economic recovery and to match supply with demand for resources;
- 2.8 enabling a business-friendly environment that retains and attracts business;
- 2.9 aligning provision of education and training to support long-term economic growth;
- 2.10 ensuring science, technology and innovation supports recovery and growth; and
- 2.11 facilitating the recovery and development of the central business district.

Social Recovery

3. *Strengthen community resilience, safety and wellbeing, and enhance quality of life for residents and visitors – by:*

- 3.1 enabling and empowering local communities to shape and lead their own recovery;
- 3.2 growing capacity, knowledge and skills within the community to build resilience;
- 3.3 delivering community, health, education and social services that are collaborative, accessible, innovative and inclusive;
- 3.4 supporting people, in particular those facing hardship and uncertainty, by providing quality housing, education and health services; and
- 3.5 supporting communities as they go through the processes of resettlement.

Cultural Recovery**4. *Renew greater Christchurch's unique identity and its vitality expressed through sport, recreation, art, history, heritage and traditions – by:***

- 4.1 acknowledging and celebrating the rich and diverse Ngāi Tahu, colonial and other heritages and connections;
- 4.2 resuming cultural, community and sports events and activities;
- 4.3 encouraging participation in a range of entertainment, cultural, recreational and sporting activities;
- 4.4 restoring historic buildings, where feasible, for the benefit of the community; and
- 4.5 acknowledging losses and creating spaces to remember, while embracing necessary changes to the city's character and urban form.

Built Environment Recovery**5. *Develop resilient, cost effective, accessible and integrated infrastructure, buildings, housing and transport networks – by:***

- 5.1 coordinating and prioritising infrastructure investment that effectively contributes to the economy and community during recovery and into the future;
- 5.2 supporting innovative urban design, buildings, technology and infrastructure to redefine greater Christchurch as a safe place built for the future;
- 5.3 rebuilding infrastructure and buildings in a resilient, cost-effective and energy-efficient manner;
- 5.4 developing a transport system that meets the changed needs of people and businesses and enables accessible, sustainable, affordable and safe travel choices;
- 5.5 zoning sufficient land for recovery needs within settlement patterns consistent with an urban form that provides for the future development of greater Christchurch;
- 5.6 having a range of affordable housing options connected to community and strategic infrastructure that provides for residents participation in social, cultural and economic activities; and
- 5.7 drawing on sound information about ongoing seismic activity and environmental constraints, including other natural hazards and climate change.

Natural Environment Recovery**6. *Restore the natural environment to support biodiversity and economic prosperity and to reconnect people to the rivers, wetlands and Port Hills – by:***

- 6.1 ensuring recovery activities value, protect and sustainably manage the sources of our water;
- 6.2 ensuring ecosystems are healthy and functioning;
- 6.3 improving the quality and function of estuaries, waterways and wetlands to support the unique biodiversity that is endemic to Te Waipounamu;
- 6.4 providing public access to and opportunities for outdoor recreation, cultural, social and economic activities;
- 6.5 enhancing air quality through managing recovery activities that impact on air quality, such as heating, transport, demolition and construction; and
- 6.6 storing, sorting and processing waste in an environmentally safe and effective manner, including minimising and recycling construction and demolition wastes.

5 Priorities – Ngā Whāinga tōmua

This strategy identifies the following priorities to address and promote social, economic, cultural and environmental wellbeing.

People's safety and wellbeing by:

- enabling people, particularly the most vulnerable, to access support;
- addressing the risk to life posed by unsafe buildings and from natural hazards;
- providing options for repairing housing and temporary or replacement housing;
- deciding whether land is suitable for residential use and providing a process for purchasing affected residential property; and
- repairing and maintaining essential services to all homes and businesses until major infrastructure is completed and/or land use decisions are finalised and implemented.

Investment conditions in greater Christchurch to support the rebuild and development of the area.

Permanent repair or rebuild of infrastructure in areas identified for redevelopment and development in the short to medium term. This strategic and horizontal infrastructure includes lifeline utilities, major transport routes, public transport services and electricity and communication networks.

Supply of land for recovery needs through efficient consenting processes and timely provision, restoration or optimisation of infrastructure. This enables developers to provide a mix of quality housing options that are connected to services and infrastructure (for example, schools, communications, shopping and transport networks) and new business developments.

Coordinate work across central government, iwi, local authorities, insurers and the private sector to:

- establish and facilitate clear arrangements for governance and work programming;
- align and sequence work including the early identification of risks and removal of obstacles to the rebuild;
- respond to housing needs; and
- encourage the provision of a variety of accommodation that is sufficient for residents, including temporary construction workers and people displaced due to the rebuild.

Communicate and engage with communities including youth so that they understand and can participate in recovery activities and inform the development of recovery programmes.

Regulation, standards and other information to support the rebuild and repair of housing to a quality that meets the technical requirements for the land categories and building standards. One of these requirements is that:

- when making a resource consent application or a request for a plan change for the subdivision of land, the person proposing the subdivision must address the risk of liquefaction. As a minimum, that person must provide the local authority with a geotechnical assessment in accordance with the *Guidelines for the geotechnical investigation and assessment of subdivisions in the Canterbury region* (Department of Building and Housing, 14 November 2011).¹ [This requirement does not apply where a building will not be permitted as a result of the subdivision of land.]

A functioning Central Business District, suburban areas and rural towns that provide opportunities for local businesses and economic activities to relocate, maintain services and grow.

Opportunities and facilities for sporting, recreational and cultural activities.

6 Phases of recovery and milestones – Ngā Wāhanga me ngā Tohu o te Whakaara

Many actions are needed to support the community early in the recovery; other activities can be undertaken only after investigation and planning. Recovery activities can be organised into typical phases that indicate what to expect as the community moves from the emergency response to short-term recovery and then medium- to longer-term recovery.

As seismic activity continues in greater Christchurch, progress through these recovery phases may be complex. If there is another earthquake, it may be necessary to return to a previous phase to deal with immediate recovery needs.

The following table outlines typical recovery phases and some key milestones for greater Christchurch. For more information about the timeline and achievements to date, see the CERA website at <http://cera.govt.nz/recovery-strategy>

Typical phases of recovery

Immediate – repair, patch and plan

- Provide basic human needs and support services.
- Address health and safety issues.
- Make safe or demolish unsafe and damaged buildings and structures.
- Investigate, scope and initiate recovery programmes and initiatives.
- Plan for land use and settlement patterns so land can be made available for displaced residents.
- Conduct ongoing programme of investigation and research to understand the geotechnical issues and seismic conditions. Use this information to guide recovery activities and decisions on land suitability for rebuilding.

Short term – begin to rebuild, replace and reconstruct

- Engage both established and new communities and inform them about rebuilding and future planning.
- Establish new social and health support and service delivery models.
- Continue demolition of damaged buildings.
- Continue repair and rebuild.
- Deliver early projects to instil confidence.
- Planning and supporting community resilience.
- Begin replacement activity.
- Begin restoration and adaptive reuse of heritage features.
- Continue, monitor and review recovery.

Medium to longer term – construct, restore and improve

- Continue to build resilient communities.
- Continue reconstruction.
- Major construction projects are underway.
- Complete restoration and adaptive reuse of heritage features.
- Phase out recovery organisations.
- Economy is growing and businesses are sustainable.
- Labour market is active and attracting employees.

Indicative recovery milestones for greater Christchurch

September 2010 to December 2011

Repair, patch and plan

- Support, assist and provide information to communities and individuals.
- Stronger Christchurch Infrastructure Rebuild Team (SCIRT) Alliance assesses damage and starts repairs to infrastructure.
- Restore non-chlorinated water supply to residents and declare beaches safe for swimming.
- Decide on suitability of land for rebuilding. Establish green and red residential zones.
- Government makes offer to purchase residential red zone properties and settlements begin.
- Begin to demolish dangerous buildings.
- New Building Act Guidelines establish new standards for buildings.
- Earthquake Commission (EQC) and insurance companies undertake damage assessments and payouts are underway.
- Greater Christchurch residents engage with government and local government on the future of the central city and the nature and coordination of recovery activities (draft Recovery Plan for the CBD and draft Recovery Strategy).
- Facilitate the release of land for new subdivisions.

2012 to 2014**Begin to rebuild, replace and reconstruct**

- Approve Recovery Strategy to direct and coordinate recovery activities and agencies involved in recovery.
- Restore access to and transportation networks in central city.
- Establishment of the Christchurch Central Development Unit (CCDU).
- Finalisation of the Recovery Plan for the CBD.
- Rebuilding of the CBD starts.
- Complete decisions on land zones and geotechnical issues.
- Continue repair of infrastructure and make decisions about long-term repair and provision of infrastructure.
- Finish demolition of larger commercial buildings.
- Government and statutory partners undertake recovery programmes.
- Complete settlements and land clearance for residential red zone properties.
- EQC and insurers undertake residential repairs and rebuilds.
- Establish new residential subdivisions.
- Find facilities for sporting and cultural activities.
- Construct temporary buildings for entertainment and retail in greater Christchurch.

2015 to 2020 and beyond**Construct, restore and improve**

- Government and strategic partners continue to implement recovery programmes.
- Continue rebuilding and construction.
- EQC and insurers complete residential repairs and rebuilds.
- Major sporting and cultural facilities are under construction.
- Recovery responsibilities are transferred when necessary. Put new business arrangements in place.

Note: Ongoing seismic activity in greater Christchurch may mean return to a previous phase to deal with immediate recovery needs.

7 Recovery programmes – Te Huanui Angitu

CERA has worked across government and with strategic partners to develop programmes to implement the Recovery Strategy. These programmes deal with each of the six components of recovery and are interconnected. They include activities, projects and larger programmes of work and will seek to achieve multiple goals where appropriate.

Government-led recovery programmes should:

- be consistent with the Recovery Strategy, particularly the goals and principles;
- integrate activities to achieve multiple goals of the Recovery Strategy where possible;
- investigate opportunities for risk reduction and enhancement to build a stronger and more resilient community and region;
- use appropriate impact assessment methodologies and tools;
- identify programme targets and objectives; and
- identify pre-earthquake baselines and expectations for the components of recovery (social, economic, natural environment, cultural and built environment). These baselines can then be used when measuring the success of the recovery programmes.

Recovery programmes will be implemented in a number of ways. For example, some agencies will coordinate with each other on new initiatives and others will reorient or adapt business-as-usual work. Some programmes may use the statutory tools provided by the CER Act (such as Recovery Plans and Orders in Council) or other Acts such as the Resource Management Act 1991 and the Local Government Act 2002.

7.1 Recovery Plans

In some cases a programme of work may need a Recovery Plan. Recovery Plans can be developed under the CER Act. This Act also identifies the need for the Recovery Plan for the CBD (known as the Central City Plan). Recovery Plans impact on other regulatory plans created under other laws. They need to be carefully considered and consulted on before they are finalised.

Why might a Recovery Plan be developed?

- A Recovery Plan is appropriate if statutory intervention is needed to undertake a particular programme of work. Sections 23 and 26 of the CER Act provide for this intervention.
- A Recovery Plan may be appropriate when usual methods of work cannot achieve the required intervention because of the type of work or timeframe involved.

At this stage, several Recovery Plans are being scoped. Part of preparing any Recovery Plan will be to consider any existing Treaty of Waitangi obligations. To integrate activities, connect the components of recovery, and implement the goals of this strategy, the preparation of Recovery Plans will use impact assessment methodologies and tools, such as the Integrated Recovery Planning Guide (June 2011).

8 Monitoring, Reporting and Review of the Recovery Strategy – Te Aroturuki me te Arotake**8.1 Monitoring**

CERA will develop a monitoring plan by the end of June 2012, in consultation with the strategic partners and government agencies. This plan will coordinate and outline responsibilities for monitoring and reporting on the recovery's progress. Monitoring will track recovery over time and make information available to decision-makers and the community. If any recovery activities are not effective, this process will also help identify the required changes.

The plan will address three levels of monitoring and reporting.

1. **Monitoring indicators for the Recovery Strategy goals.** In collaboration with the strategic partners and other agencies, CERA will develop baseline indicators for the Strategy's goals. These indicators will be used to measure progress towards recovery, including outcomes for iwi. For example, social recovery indicators may relate to trends in education, health, housing and demography, and may be analysed in terms of age, ethnicity, employment status and gender. A few key indicators, such as for community and economic wellbeing, will be linked to more detailed monitoring that closely tracks progress.
2. **Monitoring progress towards the goals.** Recovery programmes for the six components of recovery will identify targets and objectives that will be used to measure progress towards the goals.
3. **Financial monitoring and reporting by central government and local authorities.** Financial reports make the spending of public funds accountable and transparent. They also provide information about future work programmes.
 - (a) Central government produces quarterly financial reports on Vote appropriations. Information includes programme and activity spend (actual and projected) on the greater Christchurch earthquake recovery.
 - (b) Local authorities produce financial reports under the Local Government Act 2002 on their programme and actual and projected activity spend.

8.2 Reporting and review

CERA will review and report publicly on the implementation of the Recovery Strategy, recovery programmes and progress towards milestones. Reporting will show where outcomes are, or are not, being achieved and where conditions have changed – for example, because knowledge has changed or there is ongoing seismic activity. Reports will be posted and updated on the CERA website.

CERA provides available research and information (for example, on land decisions and liquefaction, tsunami and rockfall risk) through its website and updates via Facebook and Twitter.

The Recovery Strategy will be reviewed as required to keep it current and relevant.

In particular, a review may be required for any of the following reasons.

- Another significant earthquake or aftershock forces changes to the longer-term approach to recovery.
- Monitoring shows a need to change approach, or to address an ongoing market failure.
- Other influences or risks have a significant impact on recovery activities – for example, there are changes to the availability of finance or to other strategic documents that influence the recovery.

In addition, the Minister for Canterbury Earthquake Recovery will review the CER Act in terms of its operation and implementation and will report on it each year (see section 92 of the CER Act).

4. Location—

- (1) Transmit Location: All New Zealand.
- (2) Receive Location: All New Zealand.

5. Special conditions—

1. Use is limited to determination, telemetry and telecommand.
2. Use is limited to auditory aids.
3. Use is limited to model control.
4. Use is limited to audio senders.
5. Use is limited to biomedical telemetry.
6. Use is limited to audio/video senders.
7. Use is limited to radiolocation.
8. Use is limited to wireless LAN indoor systems only.
9. Use is limited to wireless LAN.
10. Use is limited to road transport and traffic telematics.
11. Use is limited to field disturbance sensors.
12. Use is limited to fixed point-to-point links.
13. Transmitters using e.i.r.p.s greater than 0 dBW (1 W) must employ frequency hopping or digital modulation techniques.
14. In the band 402 to 406 MHz, the maximum permitted duty cycle is 0.1%.
15. In the band 868 to 870 MHz, the maximum permitted peak power is -27 dBW (2 mW) and the maximum permitted duty cycle is 1%, except in the band 869.2 to 869.25 MHz, where the maximum permitted peak power is -20 dBW (10 mW) and the maximum permitted duty cycle is 0.1%.
16. In the band 5150 to 5250 MHz, the maximum permitted power density is 10 dBm/MHz (10 mW/MHz) e.i.r.p. or equivalently -36 dBW/25 kHz (0.25 mW/25 kHz) e.i.r.p.
17. Indoor-Only Systems: In the band 5250 to 5350 MHz, the maximum permitted mean power is -7 dBW (200 mW) e.i.r.p. and the maximum permitted mean power density is -20 dBW/MHz (10 mW/MHz) e.i.r.p., provided Dynamic Frequency Selection and Transmitter Power Control are implemented. If Transmitter Power Control is not used, then the e.i.r.p. values must be reduced by 3 dB;

Indoor and Outdoor Systems: In the band 5250 to 5350 MHz, the maximum permitted mean power is 0 dBW (1 W) e.i.r.p. and the maximum permitted mean power density is -13 dBW/MHz (50 mW/MHz), provided Dynamic Frequency Selection and Transmitter Power Control are implemented in conjunction with the following vertical radiation angle mask where θ is the angle above the local horizontal plane (of the Earth):

Maximum permitted mean power density	Elevation angle above horizontal
-13 dB(W/MHz)	for $0^\circ \leq \theta < 8^\circ$
$-13 - 0.716(\theta - 8)$ dB(W/MHz)	for $8^\circ \leq \theta < 40^\circ$
$-35.9 - 1.22(\theta - 40)$ dB(W/MHz)	for $40^\circ \leq \theta \leq 45^\circ$
-42 dB(W/MHz)	for $45^\circ < \theta$;

18. In the band 5470 to 5725 MHz, the maximum permitted transmitter power is -6 dBW (250 mW) with a maximum permitted mean power of 0 dBW (1 W) e.i.r.p. and a maximum permitted mean power density of -13 dBW/MHz (50 mW/MHz), provided Dynamic Frequency Selection and Transmitter Power Control are implemented. If Transmitter Power Control is not in use, then the maximum permitted mean power shall be reduced by 3 dB.
19. In the band 57 to 64 GHz, the average power density of any emission, measured during the transmit interval, shall not exceed -40 dBW/cm² (9 μ W/cm²) at a distance of 3 metres and the peak power density of any emission shall not exceed -37 dBW/cm² (18 μ W/cm²) at a distance of 3 metres. In the band 57 to 64 GHz, the peak total transmitter power shall not exceed -3 dBW (500 mW). In the band 57 to 64 GHz, for emissions of bandwidths less than 100 MHz, the transmitter peak power must be limited to -3 dBW (500 mW) \times (bandwidth (MHz) / 100 (MHz)).
20. In the bands 3.64 to 4.04 MHz and 10.44 to 10.76 MHz, the maximum permitted field strength is -40 dB μ A/m measured in a 10 kHz bandwidth at 10 metres.
21. In the band 3.18 to 3.38 MHz, the maximum permitted field strength is -20 dB μ A/m measured in a 10 kHz bandwidth at a distance of 10 metres.
22. Indoor-Only Systems: In the band 57000 to 66000 MHz, the power spectral density must not exceed 13 dBm/MHz e.i.r.p. and spurious emissions outside the band must be less than -30 dBm/MHz.
23. Except where condition 24 applies, transmissions from devices operating in the band 921 to 928 MHz must not exceed the following unwanted emission limits: -79 dBW (-49 dBm) from 800 to 915 MHz, then varying from -79 dBW (-49 dBm) at 915 MHz to -66 dBW (-36 dBm) at 921 MHz in accordance with the formula $y = mx + C$, where, y = dBm, x = MHz, $m = dy/dx$, C = the value of y where $x = 0$ (the y intercept). The maximum value of -63 dBW (-33 dBm) applies from 928 MHz to 1 GHz. The reference bandwidth for emissions is 100 kHz. Outside the band 800 MHz to 1 GHz, the limits prescribed in applicable standards prescribed in the Radiocommunications (Radio Standards) Notice 2010* apply. In the absence of applicable standards, the limits prescribed in Table 2 of the notice apply.
24. 1) This condition applies where, in the course of business, any person manages a network consisting of five or more devices that transmit in the band 921 to 928 MHz.

2) Where this condition applies:

- a. The number of simultaneous transmissions in any single square kilometre within the area covered by the network must not exceed 35 on average over any five-minute period; and
- b. The unwanted emission limits for the devices, using a reference bandwidth of 100 kHz, must not exceed:
 - (i) -70 dBW (-40 dBm) from 800 MHz to 915 MHz;
 - (ii) -56 dBW (-26 dBm) from 915 MHz to 921 MHz;
 - (iii) -56 dBW (-26 dBm) from 928 MHz to 935 MHz;
 - (iv) -63 dBW (-33 dBm) from 935 MHz to 1 GHz; or
 - (v) outside the band 800 MHz to 1 GHz, the unwanted emission limits specified in Table 2 of the Radiocommunications (Radio Standards) Notice 2010.

25. In the band 0.009000 to 0.090000 MHz, the magnetic field strength from devices must not exceed 72 dBµA/m at a distance of 10 metres. In the band 0.090000 to 0.190000 MHz, the magnetic field strength from devices must not exceed 43 dBµA/m at a distance of 10 metres, except in the band 0.119000 to 0.135000 MHz, where the magnetic field strength from devices must not exceed 66 dBµA/m at a distance of 10 metres.

6. General conditions applying to all transmissions under this licence—

1. The frequency ranges, peak power of transmissions within those frequency ranges, and designated uses of frequencies are those prescribed in this licence. All transmissions in a given frequency range must comply with any special conditions relating to that frequency range.
2. Transmitters, and persons supplying or using transmitters, must comply with the requirements of Regulations 32 to 37 of the Radiocommunications Regulations 2001.
3. Frequency use is on a shared basis and the chief executive does not accept liability under any circumstances for any loss or damage of any kind occasioned by the unavailability of frequencies or interference to reception.
4. Should interference occur to services licensed pursuant to a radio licence or a spectrum licence, the chief executive reserves the right to require and ensure that any transmission or any emission pursuant to this General User Radio Licence change frequency, reduce power, or cease operation.
5. Transmissions that are broadcasting, as defined in the Broadcasting Act 1989, are not permitted.

7. Consequential revocation of licences—(1) The Radiocommunications Regulations (General User Radio Licence for Short Range Devices) Notice 2012, dated the 5th day of March 2012 and published in the *New Zealand Gazette*, 8 March 2012, No. 29, page 828, is revoked.

(2) Notwithstanding the revocation of the notice under subsection (1), every transmitter capable of making transmissions compliant with the requirements of that notice on the commencement date of this notice is deemed to be compliant with the requirements of this notice.

Dated at Wellington this 28th day of May 2012.

SANJAI RAJ, Group Manager, Radio Spectrum Management, Ministry of Economic Development.

Explanatory Note

This note is not part of the notice, but is intended to indicate its general effect.

This notice increases the unwanted emission limits for devices operating in the band 921 – 928 MHz, provided the devices are being operated in the course of business by any person who manages a network consisting of five or more devices, and the number of simultaneous transmissions by devices in the network does not exceed 35 per square kilometre.

Health and Disability Services (Safety) Act 2001

Designation of Auditing Agency

Pursuant to section 32 of the Health and Disability Services (Safety) Act 2001 (“the Act”), I, Don Mackie, Chief Medical Officer, Ministry of Health (“the Ministry”), under delegation from the Director-General of Health, designate Health Audit (NZ) Limited to audit the provision or likely future provision of the following kinds of health care services:

- Hospital care services (as defined in section 4(1) of the Act), that are:
 - children’s health services;
 - geriatric services;
 - maternity services;
 - medical services;
 - mental health services;
 - surgical services.
- Rest home care services (as defined in section 6(2) of the Act); and
- Residential disability services (as defined in section 4(1) of the Act), that are:
 - intellectual;
 - physical;
 - psychiatric;
 - sensory.

This designation is subject to the following conditions:

1. The Designated Auditing Agency (“DAA”) must comply with the requirements of the DAA Handbook issued by the Ministry and updated from time to time.
2. Promptly after giving a certified provider or prospective provider an audit report, the DAA must:
 - complete the Ministry of Health Audit Report Tool and provide an electronic copy to the Ministry; and
 - provide a summary of the audit report to the Ministry (refer to condition 9).
3. The DAA must provide any information about the auditing of health care services pursuant to the Act if requested in writing by the Ministry.
4. During the term of the DAA’s designation, the DAA will allow the Ministry to audit or to commission the undertaking of audits or reviews of the DAA. This could also include attending audits being undertaken by the DAA. The Ministry may or may not notify the DAA of any audit or review.
5. The DAA must immediately notify the Ministry in writing of any significant change to the DAA, including but not restricted to:
 - any change in ownership and/or control of the legal entity;
 - any change in management personnel;
 - any change to the Auditor Register (refer to condition 8); and
 - any change in the status of any third party accreditation the DAA may hold including evidence of such accreditation and copies of any Third Party Accreditation Audit Reports or notifications in respect of their accreditation.
6. The DAA must conduct as a minimum at least one annual:
 - internal audit that focuses on the DAA’s auditing activities undertaken pursuant to the Act, together with a compliance audit against the requirements of the DAA as set out in the Act; and
 - management review in respect of the DAA’s programmes operated pursuant to the Act.
7. The DAA shall at all times operate an internal appeals system which is documented and conveyed in writing to all clients. Auditable records of the facts and outcomes of all client appeals shall be maintained by the DAA. The DAA must provide these records to the Ministry when requested in writing by the Ministry.
8. The DAA must provide in writing, in a timely manner when requested by the Ministry, the details of the name, auditing qualifications and experience, and if relevant, the area of clinical or service competency of each auditor or technical expert approved by the DAA to undertake audits pursuant to the Act.
9. The DAA must provide all documentation to the Ministry in the form prescribed by the Ministry.
10. The DAA must hold third party accreditation with a Ministry approved third party accreditation body.
11. The DAA must notify the Ministry of any intent to audit Hospital care services (as defined in section 4(1) of the Act), that are:
 - children’s health services;
 - geriatric services;
 - maternity services;

- medical services;
 - mental health services;
 - surgical services
- and satisfy the Ministry, as per section 33(b) of the Act, that it has:
- (i) the technical expertise to audit the provision of services of that kind; and

- (ii) has in place effective systems for auditing the provision of services of that kind.

This designation expires on **1 June 2015**.

Dated at Wellington this 23rd day of May 2012.

DR DON MACKIE, Chief Medical Officer.

Local Government Act 2002

Local Government (Manawatu District and Palmerston North City) Boundary Alteration Order 2012

LT GEN THE RT HON SIR JERRY MATEPARAE,
Governor-General

ORDER IN COUNCIL

At Wellington this 28th day of May 2012

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL
PRESIDING IN COUNCIL

Pursuant to section 25 of the Local Government Act 2002, His Excellency the Governor-General of New Zealand, acting by and with the advice and consent of the Executive Council, makes the following order.

Order

1. Title—This order may be cited as Local Government (Manawatu District and Palmerston North City) Boundary Alteration Order 2012.

2. Commencement—This order comes into force on **1 July 2012**.

3. Interpretation—In this order, unless the context otherwise requires:

Area A means the area marked as Area A on the maps deposited with the Local Government Commission for the purposes of this order. Areas B, C, D and E have the corresponding meaning.

Councils means the Manawatu District Council and the Palmerston North City Council.

GST means goods and services tax.

Manawatu District means the area administered by the Manawatu District Council prior to this order coming into force.

Palmerston North City means the area administered by the Palmerston North City Council prior to this order coming into force.

4. Boundary alteration—(1) The boundaries of Manawatu District and Palmerston North City are altered by excluding areas A to E from Manawatu District and including those areas in Palmerston North City.

(2) Where, as a result of this order, the boundary between Manawatu District and Palmerston North City follows a road, the boundary is the centre-line of the road.

5. Representation—(1) Area A is excluded from the Kairanga Ward of Manawatu District and included in the Awapuni Ward of Palmerston North City.

(2) Area B is excluded from the Kairanga Ward of Manawatu District and included in the Takaro Ward of Palmerston North City.

(3) Area C is excluded from the Kairanga and Kiwitea-Pohangina Wards of Manawatu District and included in the Papaioea Ward of Palmerston North City.

(4) Area D is excluded from the Kairanga Ward of Manawatu District and included in the Ashurst-Fitzherbert Ward of Palmerston North City.

(5) Area E is excluded from the Kiwitea-Pohangina Ward of Manawatu District and included in the Ashurst-Fitzherbert Ward of Palmerston North City.

(6) In accordance with clause 67(j) of Schedule 3 to the Local Government Act 2002 and subject to clauses 1 to 4 of Schedule 7 to the Local Government Act 2002, this order makes no changes to the membership of the Manawatu District Council or the Palmerston North City Council.

6. Transitional payments—(1) Annual transitional payments will be paid by the Palmerston North City Council to the Manawatu District Council under the arrangements set out in this clause.

(2) The transitional payments will be made in acknowledgement of the expectation that the boundary alteration made by this order will result, for a number of years, in a net annual revenue reduction for the Manawatu District Council and a net annual revenue increase for the Palmerston North City Council. The transitional payments will be made by the Palmerston North City Council to the Manawatu District Council each year for 10 years after the date that this order comes into force.

(3) Payments to be made under this order are to be paid as quarterly sums at the end of each financial quarter, that is, on 30 September, 31 December, 31 March and 30 June in each year.

(4) For the purposes of calculating the annual transitional payments under this clause:

(a) All calculations shall be based on the operating budget of the Manawatu District Council and the rates set by the Manawatu District Council for the year immediately prior to this order coming into force.

(b) The estimated amount of the annual net revenue reduction for the Manawatu District Council as a result of this order coming into force is the amount (GST exclusive) of the Manawatu District Council annual rates assessed on the properties to be transferred from Manawatu District to Palmerston North City (Areas A to E), plus the amount of any other estimated annual operating revenue receivable

by the Manawatu District Council in relation to those properties, less the amount of any estimated annual operating expenses (GST exclusive) payable by the Manawatu District Council in relation to those properties.

(c) The amount of the annual transitional payment in each of the first five years after this order has come into force shall, subject to subclause (3), remain constant and equal to the estimated annual net revenue reduction for the Manawatu District Council. GST, if applicable, is to be added to the amount of each payment.

(d) The amount of the annual transitional payment in each of the 6th to 10th years after this order has come into force shall, subject to subclause (3), remain constant and equal to 50 per cent of the estimated annual net revenue reduction for the Manawatu District Council. GST, if applicable, is to be added to the amount of each payment.

(e) Notwithstanding anything in subclauses (a) to (d), the amount of each transitional payment is to be adjusted in accordance with changes in the Local Government Cost Index for New Zealand that apply to the operating expenditure of the Manawatu District Council.

7. Rating—(1) The Palmerston North City Council will, using the latest valuation carried out for each property, assess and set rates for properties that are included in Palmerston North City as a result of this order coming into force in the same manner as it has assessed and set rates for like properties within Palmerston North City prior to this order coming into force.

(2) Notwithstanding subclause (1), a targeted rate in relation to the costs of upgrade to the industrial wastewater system in Longburn may be applied to properties in that area that are included in Palmerston North City as a result of this order coming into force.

8. Resource management—(1) In accordance with section 81 of the Resource Management Act 1991, on the date that this order comes into effect the operative Manawatu District Plan shall be deemed to be part of the operative Palmerston North City District Plan, in so far as it applies to Areas A to E. Within a period of two years from the date that this order comes into effect, the Palmerston North City Council is to promote a plan change to include provisions for Areas A to E.

(2) All proceedings or appeals in relation to provisions of the Manawatu District Plan affecting Areas A to E that have been commenced¹ prior to the date that this order comes into effect will continue to be the responsibility of the Manawatu District Council until resolved. All proceedings or appeals in relation to provisions of the Manawatu District Plan deemed to be part of the Palmerston North City District Plan affecting Areas A to E that are commenced² on or after the date that this order comes into effect will be the responsibility of the Palmerston North City Council. The status of the operative Palmerston North City District Plan shall not be compromised by any proceedings or appeals in relation to provisions of the Manawatu District Plan deemed to be part of the Palmerston North City District Plan.

(3) All resource consents relating to Areas A to E for which applications have been submitted prior to the date this order comes into effect will continue to be the responsibility of the Manawatu District Council until:

(a) for subdivision consents, certificates are issued under section 224(c) of the Resource Management Act 1991; or

(b) for land use consents the resource consent is deemed to have commenced under section 116 of the Resource Management Act 1991; or

(c) the resource consent is otherwise terminated.

(4) All resource consents for which applications are submitted in relation to Areas A to E on or after the date that this order comes into effect will be the responsibility of the Palmerston North City Council.

9. Development contributions—(1) All developments in Areas A to E for which applications are lodged prior to the date that this order comes into effect will be assessed under the Manawatu District Council Development Contributions Policy. If applicable, development contributions will be payable to the Manawatu District Council, in accordance with the rates and methodology set out in the Manawatu District Council Development Contributions Policy.

(2) All developments in Areas A to E for which applications are lodged on or after the date that this order comes into effect will be assessed under the Palmerston North City Council Development Contributions Policy. If applicable, development contributions will be payable to the Palmerston North City Council, in accordance with the rates and methodology set out in the Palmerston North City Council Development Contributions Policy.

(3) Two-thirds of all development contributions received by the Manawatu District Council on or after the date that this order comes into effect for developments located within Areas A to E will be transferred to the Palmerston North City Council.

10. Building consents—(1) Since October 2007, the Manawatu District Council has contracted the Palmerston North City Council to perform its building services function. There are two current contracts that set out this arrangement. The first provides technical staff from the Palmerston North City Council to the Manawatu District Council to assist the Manawatu District Council to discharge their obligations as a building consent authority. The second contract concerns the balance of the building service functions of the Manawatu District Council.

(2) Issues of liability and apportionment of responsibility in terms of all building service functions are detailed in both contracts.

(3) Where work that is carried out relates to dates prior to the commencement of the contracts in subclauses (1) and (2), liability for that work rests with the Manawatu District Council.

11. Separate agreement for apportionment of assets and liabilities, and for other special arrangements—

(1) Except for those matters set out in this order, the Manawatu District Council and the Palmerston North City Council will enter into separate arrangements for the apportionment of assets and liabilities, including any arrangements that may need to be made for the Longburn and Bunnythorpe areas.

(2) These agreements will be negotiated separately, but if no agreement is reached within three months of the date that this reorganisation order comes into effect, either the Manawatu District Council or the Palmerston North City Council may apply to the Local Government Commission for a determination under clause 69 of Schedule 3 to the Local Government Act 2002.

12. Arbitration and mediation—(1) In the event that any matter is not provided for by this order or by Schedule 3 to the Local Government Act 2002, or some other question or dispute arises, the Manawatu District Council or the Palmerston North City Council will endeavour to settle such matter by agreement, or failing agreement, by arbitration.

(2) Any such arbitration will be undertaken in accordance with New Zealand law and the current Arbitration Protocol of the Arbitrators' and Mediators' Institute of New Zealand Inc. The arbitration will be conducted by one arbitrator agreed upon by the Manawatu District Council and the Palmerston North City Council. In the event that the Councils fail to agree on the choice of arbitrator within 21 days from the date upon which the matter is referred to arbitration, the arbitrator will be appointed by the President of the Manawatu District Lawyers Standards Committee or their nominee. The arbitrator's decision shall be final.

(3) In addition to the procedure in subclause (2) above, the Councils may, if they determine, first refer the matter to non-binding mediation.

(4) Nothing in this clause prevents a determination being issued by the Local Government Commission under section 26 of the Local Government Act 2002.

13. Included provisions—(1) Subject to subclause (2), the provisions of Schedule 3 to the Local Government Act 2002 apply to this order.

(2) Subclauses (c), (g) and (l) of clause 67 of Schedule 3 to the Local Government Act 2002 do not apply to this order.

REBECCA KITTERIDGE, Clerk of the Executive Council.

Explanatory Note

This note is not part of the order, but it is intended to indicate its general effect and intent.

The general effect and intent of this order is to alter the boundary between Manawatu District and Palmerston North City by excluding areas labelled Area A, Area B, Area C, Area D and Area E from Manawatu District and including those areas within Palmerston North City.

Maps showing the location of each boundary to be altered by this order will be deposited with the Local Government Commission and made available for public inspection for the purposes of this order.

It is intended that the order comes into effect on or before 1 July 2012, but that public notification of the order will allow each Council to make planning decisions for the financial year commencing on 1 July 2012 before that date.

It is intended that the wards of each of the five areas (Areas A to E) affected by this order are to be excluded from the designated areas within Manawatu District and included within the designated areas within Palmerston North City.

Annotation of Notes

¹Publicly notified under Clause 5(1), Schedule 1, Resource Management Act 1991.

²Publicly notified under Clause 5(1), Schedule 1, Resource Management Act 1991.

Local Government (Waikato District and Hamilton City) Boundary Alteration Amendment Order 2012

LT GEN THE RT HON SIR JERRY MATEPARAE,
Governor-General

ORDER IN COUNCIL

At Wellington this 28th day of May 2012

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL
PRESIDING IN COUNCIL

Pursuant to section 26 of the Local Government Act 2002, His Excellency the Governor-General of New Zealand, acting by and with the advice and consent of the Executive Council, makes the following order.

Order

1. Title—This order may be cited as the Local Government (Waikato District and Hamilton City) Boundary Alteration Amendment Order 2012.

2. Commencement—This order comes into force on **1 July 2012**.

3. Principal order amended—This order amends the Local Government (Waikato District and Hamilton City) Boundary Alteration Order 2011*.

4. Interpretation—The principal order is amended by revoking clause 3 and inserting in its place the following:

“(1) In this order, unless the context otherwise requires:

affected areas means the areas referred to as R1, R1a, HT2a, HT2b and HT2c.

R1 means the area generally shown on the Overview plan – Area R1 as attached to this order.

R1a means the area generally shown on Plan R1a as attached to this order.

HT2a means the area generally shown on Plan HT2a as attached to this order.

HT2b means the area generally shown on Plan HT2b as attached to this order.

HT2c means the area generally shown on Plan HT2c as attached to this order.

(2) The areas referred to in subclause (1) are more specifically delineated on the digitised map contained in the document entitled “Final Approved Boundary Hamilton City.zip”, dated 26 September 2011, and numbered 2884205DA in the Local Government Commission’s document management system.”

5. Bylaws—(1) Clause 8(1) of the principal order is amended by inserting after paragraph (i) the following:

“(j) Keeping of Animals Bylaw 2008

(k) Fires in the Open Air Bylaw 2007

(l) Stock Movement Bylaw 2006”

(2) Clause 8(2) of the principal order is amended by deleting paragraphs (b), (c) and (d).

REBECCA KITTERIDGE, Clerk of the Executive Council.

Explanatory Note

This note is not part of the order, but is intended to indicate its general effect and intent

This order amends four reorganisation schemes altering the boundary between Waikato District and Hamilton City. The schemes transferred several areas from Waikato District to Hamilton City to align the boundary to the route of a new expressway being built by the New Zealand Transport Agency to the north and east of Hamilton. This ensured that pockets of Waikato District would not be left between the City and the Expressway.

The two councils requested the Commission to make a determination (which this order gives effect to) amending the reorganisation schemes to:

(a) *adjust the new boundaries so that they would more closely align with the existing property boundaries; and*

(b) *clarify the application of certain Hamilton City Council bylaws to the area transferred to the City.*

Public Trust

Public Trust Act 2001

The Public Trust Common Fund Interest Rates Notice 31 May 2012

The following notice is given pursuant to section 50 of the Public Trust Act 2001 (“the Act”).

Notice

1. Title and commencement—(1) This notice may be cited as the Public Trust Common Fund Interest Rates Notice 31 May 2012.

(2) Unless otherwise specified, the determinations and revocation in this notice take effect from and including 30 May 2012.

2. Interpretation—(1) Unless the context otherwise requires:

“agency deposit” means a deposit (not being an investment deposit) held as agent or attorney;

“call deposit” means a deposit (not being an agency deposit, an investment deposit, a protection deposit, a special deposit or a trust deposit) held in the ordinary course of administration, and determined by Public Trust to be held at call;

“deposit” means a sum of money held by Public Trust belonging to any estate, which money for the time being forms part of the Common Fund;

“investment deposit” means a deposit held at call or otherwise as an investment under section 51 of the Act;

“protection deposit” means a deposit, held at call, of tuition, boarding, accommodation or other fees by or on behalf of a student enrolled at a private training establishment within the meaning of Part 18 of the Education Act 1989;

“special deposit” means a deposit held other than at call on behalf of the Crown, or any local authority within the meaning of the Local Government Act 1974;

“trust deposit” means a deposit (not being an agency deposit, an investment deposit, a protection deposit or a special deposit) held on trust:

- (i) for persons not of full age or capacity; or
- (ii) for beneficiaries not entitled to payment at call; or
- (iii) otherwise than at call.

(2) Expressions defined in the Act have the same meaning in this notice as they do in the Act.

3. Rates of Common Fund interest—(1) The rate of Common Fund interest on deposits (other than investment deposits repayable at the end of fixed term or protection deposits) shall be that specified in Schedule 1 for the appropriate type of deposits.

(2) The rate of Common Fund interest on each protection deposit associated with a particular private training establishment shall be that specified in Schedule 2 for the appropriate dollar range of the total of those deposits.

(3) The rate of Common Fund interest payable on investment deposits repayable at the end of a fixed term shall be that specified in Schedule 3 for the appropriate interest payment frequency, term and dollar range.

(4) Despite subparagraph (1), the rate of Common Fund interest payable on deposits made pursuant to an enactment shall be the rate (if any) specified in the enactment.

(5) Despite subparagraphs (1), (2) and (3), in particular cases or classes of case, Public Trust and the depositor may agree on a rate of interest payable on investment deposits, protection deposits or special deposits that is different from the rate specified in Schedules 1, 2, or 3 and the agreed rate then applies.

4. Revocation of notice and transitional provisions—

(1) The Public Trust Common Fund Interest Rates Notice 17 May 2012 is revoked.

(2) Unless otherwise specified, the rates of interest specified in Schedules 1 and 2 to this notice do not apply to any period that ends with 30 May 2012 but otherwise operate as from 31 May 2012.

(3) The rates of interest specified in Schedule 3 to this notice:

Transport

Land Transport Act 1998

Authorised Access to Certain Names and Addresses Held on the Motor Vehicle Register

Pursuant to section 241 of the Land Transport Act 1998 ("the Act"), I authorise the following person, for the purpose and the term, and on the conditions stated below, to have access to the names and addresses of persons:

- who are currently registered in respect of a motor vehicle(s); and
- who have not instructed the Registrar of Motor Vehicles to withhold their details.

Person	Purposes	Term
Port Marlborough New Zealand Limited	To send a reminder notice to the registered person where a motor vehicle has been parked in a car park administered by Port Marlborough New Zealand Limited at the Picton Ferry Terminal, Lagoon Road, Picton Marina, Waikawa Marina, and Havelock Marina in breach of the parking terms and conditions.	From the date Port Marlborough New Zealand Limited receives the final decision on its application to 30 April 2017 inclusive.

Conditions

- The names and addresses are accessed only by Port Marlborough New Zealand Limited on its own behalf and solely for its own use;
- The names and addresses are accessed only for the specified purpose;
- The fees charged for the provision of the names and addresses from the Motor Vehicle Register are duly paid;
- Any identified instances of unauthorised access are immediately notified to the Secretary for Transport and the Privacy Commissioner;
- Before being permitted to access the Motor Vehicle Register under section 241 of the Act, all staff must receive training that emphasises that such access must only be for the specified purpose, and refresher training of all staff also must be undertaken at appropriate intervals;
- Access must be restricted solely to a centralised location and to members of staff for whom authorised access is essential to achieving the specified purpose;
- The names and addresses obtained under this authorisation shall not be disclosed to any third party unless such disclosure is necessarily incidental to achieving the specified purpose;
- In the first instance, an unnamed notice of breach must be placed on a vehicle to allow the person in charge of the vehicle a reasonable time to pay a fee or to appeal the imposition of the fee before the Motor Vehicle Register is accessed for name and address details;
- Records must be kept of the purpose and occasions whenever names and addresses are accessed from the Motor Vehicle Register, and these records must be sufficient to establish that in each case a reasonable period has been allowed for payment before the Motor Vehicle Register has been accessed for name and address details;
- Port Marlborough New Zealand Limited must provide an annual report to the NZ Transport Agency on compliance with these conditions by 1 May in each year beginning with 1 May 2013 (this requirement may be incorporated into the company's usual audit practices); and
- The terms and conditions, if any, imposed by the NZ Transport Agency for access to Motor Vehicle Register information.

Dated this 25th day of May 2012.

Commerce Commission

Telecommunications Act 2001

Notification of an Amendment to the Scope of the Commerce Commission's Competition Review of the Standard Terms Determinations for Chorus' Unbundled Copper Local Loop and Unbundled Copper Low Frequency Backhaul Service and Unbundled Bitstream Access Backhaul Service

On 15 March 2012 and in accordance with section 30R of the Telecommunications Act 2001 ("the Act"), the

Commerce Commission ("Commission") gave public notice of its decision to commence a review of the standard terms determinations for the designated services Chorus' unbundled copper local loop backhaul (telephone exchange to interconnect point) (UCLL Backhaul) and unbundled bitstream access backhaul (UBA Backhaul).

The Commission wishes to give public notice of an amendment to the scope of the review under section 30R of the Act.

The Commission notifies that the review will also cover the Unbundled Copper Low Frequency Backhaul Service (UCLF Backhaul) because one of the standard terms determinations in question covers both the UCLL Backhaul and UCLF Backhaul services.

The amended purpose of this review is, therefore, to determine on which parts of Chorus' network Chorus must supply the UCLL Backhaul, UCLF Backhaul or UBA Backhaul services in response to an Access Seeker.

Material relevant to this review can be found on the Commission's website at
