WELLINGTON: WEDNESDAY, 28 AUGUST 2002 — ISSUE NO. 124

VECTOR LIMITED

INFORMATION FOR DISCLOSURE

PURSUANT TO THE ELECTRICITY (INFORMATION DISCLOSURE) REGULATIONS 1999 AND THE ELECTRICITY (INFORMATION DISCLOSURE) AMENDMENT REGULATIONS 2000 AND 2001

CERTIFICATION OF FINANCIAL STATEMENTS, PERFORMANCE MEASURES, AND STATISTICS DISCLOSED BY LINE OWNERS OTHER THAN TRANSPOWER

We, Wayne Brown and Brian Plimmer, directors of VECTOR Limited certify that, having made all reasonable enquiry, to the best of our knowledge, —

- (a) The attached audited financial statements of VECTOR Limited prepared for the purposes of regulation 6 of the Electricity (Information Disclosure) Regulations 1999 comply with the requirements of those regulations; and
- (b) The attached information, being the derivation table, financial performance measures, efficiency performance measures, energy delivery efficiency performance measures, statistics, and reliability performance measures in relation to VECTOR Limited, and having been prepared for the purposes of regulations 15, 16, 21, and 22 of the Electricity (Information Disclosure) Regulations 1999, comply with the requirements of those regulations.

The valuations on which those financial performance measures are based are as at 31 March 2002

Auditors' Report to the readers of the Financial Statements of

VECTOR Limited – Lines Business

We have audited the accompanying financial statements of VECTOR Limited – Lines Business. The financial statements provide information about the past financial performance and cash flows of VECTOR Limited – Lines Business and its financial position as at 31 March 2002. This information is stated in accordance with the accounting policies set out in the Statement of Accounting Policies.

Directors' responsibilities

The Electricity (Information Disclosure) Regulations 1999 require the Directors to prepare financial statements which give a true and fair view of the financial position of VECTOR Limited – Lines Business as at 31 March 2002, and the results of its operations and cash flows for the year then ended.

Auditor's responsibilities

It is our responsibility to express an independent opinion on the financial statements presented by the Directors and report our opinion to you.

Basis of opinion

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the Directors in the preparation of the financial statements; and
- whether the accounting policies are appropriate to VECTOR Limited Lines Business' circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with generally accepted auditing standards in New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatements, whether caused by fraud or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Other than in our capacities as auditors, tax advisors and consultants we have no relationship with or interests in VECTOR Limited.

PRICEWATERHOUSE COOPERS @

VECTOR Limited – Lines Business Auditors' Report

Unqualified opinion

We have obtained all the information and explanations we have required.

In our opinion:

- (a) proper accounting records have been kept by VECTOR Limited as far as appears from our examination of those records; and
- (b) the financial statements referred to above:
 - (i) comply with generally accepted accounting practice; and
 - (ii) give a true and fair view of the financial position of VECTOR Limited Lines Business as at 31 March 2002 and the results of its operations and cash flows for the year then ended; and
 - (iii) comply with the Electricity (Information Disclosure) Regulations 1999.

Our audit was completed on 24 July 2002 and our unqualified opinion is expressed as at that date.

Provater ourse coper.

Auditors' Opinion of Performance Measures

VECTOR Limited - Lines Business

We have examined the attached information, being:

- (a) the derivation table in regulation 16; and
- (b) the annual ODV reconciliation report in regulation 16A; and
- (c) the financial performance measures in clause 1 of Part 3 of Schedule 1; and
- (d) the financial components of the efficiency performance measures in clause 2 of Part 3 of Schedule 1,

that were prepared by VECTOR Limited – Lines Business and dated 24 July 2002 for the purposes of regulation 15 of the Electricity (Information Disclosure) Regulations 1999.

In our opinion, having made all reasonable enquiry, to the best of our knowledge, that information has been prepared in accordance with the Electricity (Information Disclosure) Regulations 1999.

Statement Of Accounting Policies

For the year ended 31 March 2002

Reporting entity

The financial statements have been extracted from the audited financial statements of the VECTOR Limited parent company and represent the electricity line business activities of the company.

VECTOR Limited is a company registered under the Companies Act 1993.

Statutory base

The financial statements have been drawn up in accordance with the requirements of the Companies Act 1993, the Financial Reporting Act 1993 and Regulation 6 of the Electricity (Information Disclosure) Regulations 1999 and Regulation 15 of the Electricity (Information Disclosure) Amendment Regulations 2000.

Measurement base

The financial statements are prepared on the basis of historical cost modified by the revaluation of certain assets as identified in specific accounting policies below.

The avoidable cost allocation methodology (ACAM) used for allocating costs, assets and liabilities between "line" and "other" activities is in accordance with the Electricity Information Disclosure Handbook 30 June 2000.

Specific accounting policies

The following specific accounting policies that materially affect the measurement of financial performance, financial position and cash flow have been applied.

a) Comparatives

Comparatives were prepared in accordance with the Electricity (Information Disclosure) Regulations 1999 as amended by the Electricity (Information Disclosure) Amendment Regulations 2000 and the Electricity Information Disclosure Handbook 30 June 2000.

b) Income recognition

Income from the provision of line network services is recognised as services are delivered. Interest income is accounted for as earned.

c) Property, plant and equipment

The cost of purchased property, plant and equipment is the value of the consideration given to acquire the property, plant and equipment and the value of other directly attributable costs which have been incurred in bringing the property, plant and equipment to the location and condition necessary for the intended service.

The cost of self-constructed property, plant and equipment includes the cost of all materials used in construction, direct labour on the project, costs of obtaining Resource Management consents, financing costs that are attributable to the project and an appropriate proportion of the variable and fixed overheads. Costs cease to be capitalised as soon as the asset is ready for productive use and do not include any inefficiency costs.

Distribution systems and some land and buildings are revalued by independent experts on the basis of Optimised Deprival Value (ODV). The valuation was prepared in accordance with the Fourth Edition of the Ministry of Economic Development Handbook for Optimised Deprival Valuation of System Fixed Assets of Electricity Line Businesses (October 2000). Revaluations are carried out at least every three years and are conducted under the guidance of independent experts. Subsequent additions are recorded at cost.

The carrying values of property, plant and equipment not subject to revaluations are subject to annual impairment reviews.

Statement Of Accounting Policies - continued

For the year ended 31 March 2002

d) Depreciation

Depreciation is calculated so as to expense the cost of the assets, or the revalued amounts, to their residual values over their useful lives as follows:

Buildings 50 years Distribution systems 15 - 100 years

Motor vehicles 20% - 33% per annum diminishing value

Consumer billing and information systems 3 - 40 years
Office equipment 3 - 40 years

Other fixed assets 4% - 60% per annum diminishing value

e) Accounts receivable

Accounts receivable are carried at estimated realisable value after providing against debts where collection is doubtful.

f) Income tax

The income tax expense recognised for the year is based on the accounting surplus, adjusted for permanent differences between accounting and tax rules.

The impact of all timing differences between accounting and taxable income is recognised as a deferred tax liability or asset. During the year the VECTOR group, of which the line business is the predominant activity, changed their accounting policy for income tax in relation to the recognition of timing differences to include timing differences arising as a result of the revaluation of property, plant and equipment. This is the comprehensive basis for the calculation of deferred tax under the liability method.

Previously the timing differences arising from the revaluation of distribution systems and buildings that were not expected to crystallise in the foreseeable future were not recognised.

A deferred tax asset, or the effect of losses carried forward that exceed the deferred tax liability, is recognised in the financial statements only where there is the virtual certainty that the benefit of the timing differences, or losses, will be utilised.

The deferred tax arising from timing differences resulting from revaluation of property, plant and equipment is recognised directly against the asset revaluation reserve.

g) Goods and services tax (GST)

The statement of financial performance and statement of cash flows have been prepared so that all components are stated exclusive of GST. All items in the statement of financial position are stated exclusive of GST, with the exception of the receivables and payables, which include GST invoiced.

h) Leased property, plant and equipment

Operating leases

Operating lease payments, where the lessors effectively retain substantially all the risks and benefits of ownership of the leased assets, are included in the determination of the surplus or deficit in equal instalments over the lease term.

The cost of improvements to leasehold property is capitalised and amortised over the unexpired period of the lease or the estimated useful life of the improvements, which ever is the shorter.

Statement Of Accounting Policies - continued

For the year ended 31 March 2002

i) Foreign currencies

Transactions denominated in a foreign currency are converted to New Zealand dollars at the exchange rates in effect at the date of the transaction, except when forward currency contracts have been taken out to cover short-term forward currency commitments.

Short-term transactions covered by forward exchange contracts are measured and reported at the forward rates specified in those contracts.

At balance date foreign currency monetary assets and liabilities are translated to New Zealand dollars at the balance date exchange rate and exchange variations arising from these translations are included in the statement of financial performance.

The exchange differences on hedging transactions undertaken to establish the price of particular sales or purchases, together with any costs associated with the hedge transactions, are deferred and included in the measurement of the purchase or sale transaction.

j) Financial instruments

The VECTOR group, of which the line business is the predominant activity, is party to financial instruments with off-balance sheet risk to meet financing needs and to reduce exposure to fluctuations in foreign currency exchange rates. These financial instruments include foreign exchange forward contracts, forward rate agreements and swaps.

The VECTOR group, of which the line business is the predominant activity, enters into foreign currency forward exchange contracts to hedge foreign currency transactions. A loss or gain on the item being hedged generally offsets any exposure to gains or losses on these forward contracts. Gains and losses on contracts which hedge specific short-term foreign currency denominated commitments are recognised as a component of the related transaction in the period in which the transaction is completed. The VECTOR group, of which the line business is the predominant activity, is not involved in foreign exchange speculation.

The net differential paid or received on interest swaps is recognised as a component of the interest expense over the period of the agreement.

k) Employee entitlements

Employee entitlements to salaries and wages, annual leave, long-term leave and other benefits are recognised when they accrue to employees.

The liability for employee entitlements is carried at the present value of the estimated future cash outflows.

Statement Of Accounting Policies - continued

For the year ended 31 March 2002

I) Statement of cash flows

The following are the definitions of the terms used in the Statement of Cash Flows.

Operating activities include all transactions and other events that are not investing or financing activities.

Investing activities are those activities relating to the acquisition, holding and disposal of property, plant and equipment and investments that can include securities not falling within the definition of cash.

Financing activities are those that result in changes in the size and composition of the capital structure. This includes both equity and debt not falling within the definition of cash. Dividends paid in relation to the capital structure are included in financing activities.

Cash is considered to be cash on hand and current accounts in banks, net of bank overdrafts.

m) Dividends

Dividends are brought to account in the period in which they are declared. In previous years dividends have been recognised as liabilities in the period to which they were deemed to relate provided they were proposed or declared before the financial report was authorised for issue.

Changes in accounting policies

During the year the VECTOR group, of which the line business is the predominant activity, changed its accounting policy in respect of accounting for dividends. Under the new policy, dividends are only brought to account in the period in which they are declared. The Board of Directors has adopted this change in accounting policy to conform with the requirements of Financial Reporting Standard 5 Events Occurring After Balance Date.

In addition, the VECTOR group, of which the line business is the predominant activity, changed its accounting policy in respect of accounting for income tax. Under the new policy the VECTOR group, of which the line business is the predominant activity, recognises all timing differences in respect to property, plant and equipment, including those arising from revaluations. Previously timing differences in relation to revaluations of property, plant and equipment not expected to crystallise in the foreseeable future were not recognised. The change in policy has resulted in an increase of \$65 million to the deferred tax liability and a decrease of the same amount to the asset revaluation reserve. Because the revaluation has previously been recognised directly in the revaluation reserve the tax effect has also followed this treatment and been taken directly to the revaluation reserve.

There have been no other changes in accounting policies.

Notes to the Financial Statements

For the year ended 31 March 2002

For the year ended 31 March 2002	2002	2001
4 ODEDATING DEVENUE	\$000	\$000

Audit fees paid to principal auditors	59	59
Fees paid for other services provided by principal auditors and other auditors	337	199
Total auditors fees	396	258
Sundry expenses		
Donations	650	12
AC loss - rentals (distribution to retailers/customers) expense	16,390	2,966
Local Authority rates and expenses	2,435	1,79
Total sundry expenses	18,825	4,76
Other Expenditure	(2,800)	(5,187
Total operating expenditure	147,136	126,95
Operating surplus before interest and income tax	112,280	112,04
Interest expense on borrowings/total interest expense	(9,376)	(6,024
Operating surplus before income tax	102,904	106,01
Income tax	(40,044)	(42,345
Net surplus after income tax	62,860	63,67

Notes to the Financial Statements - continued

For the year ended 31 March 2002

	2002 \$000	2001 \$000
4. INCOME TAX		
Operating surplus before tax	102,904	106,017
Prima facie tax at 33%	33,958	34,985
Plus/(less) tax effect of permanent differences:		
Non-deductible entertainment	28	20
Non-deductible legal and consulting	82	223
Prior period adjustment	180	246
Other permanent differences	5,796	6,871
Tax expense	40,044	42,345
The tax charge is represented by:		
Current tax	22,347	36,111
Deferred tax	17,697	6,234
	40,044	42,345

Some tax benefits in VECTOR Limited are not included in the calculation of the line business tax expense as these losses arise from prior period transactions incurred by "other" activities. Only those taxation items directly attributable to the line business are taken into account in determining the income tax balances in these financial statements.

5. IMPUTATION BALANCES

Balance at end of year	17,687	4,582
Imputation credits attaching to dividends paid	(10,420)	(386)
Income tax payments during year	23,525	4,200
Balance at beginning of year	4,582	768

The tax paid above represents the amount actually paid by VECTOR Group, of which the lines business is the predominant activity. This differs from the tax paid in the statement of cash flows as that figure represents the lines business' allocation of the total tax payment, without taking into account the losses incurred by the other business. At balance date the imputation credits available to the shareholders of the VECTOR group of which the line business is the predominant activity were:

Through direct shareholding in VECTOR Limited of which the line business is the predominant activity

17,687

4,582

Notes to the Financial Statements - continued

For the year ended 31 March 2002

	2002 \$000	2001 \$000
6. DEFERRED TAXATION ASSET/(LIABILITY)		
Balance at beginning of year	2,618	8,852
On surplus for year	(17,697)	(6,234)
Deferred tax adjustment on revalued assets	(65,000)	
Balance at end of year	(80,079)	2,618

During the year the VECTOR group, of which the line business is the predominant activity, has recognised a deferred tax liability of \$65 million which relates to changes in accounting policy in relation to a previous revaluation of the network property, plant and equipment. The revaluation reserve has been reduced accordingly.

7. DIVIDENDS

Distributions relating to previous year

Dividends paid on ordinary shares	48,000	33,282
Proposed distributions:		
Proposed dividend on ordinary shares	•	48,000
Total distributions paid or payable in cash	48,000	81,282
Less proposed dividend in previous year	48,000	33,282
Total	•	48,000

The proposed dividend for 2001 and paid in 2002 was partially imputed. The dividend paid in 2001 was partially imputed. Subsequent to balance date, on 22 May 2002, a final dividend of \$42.8 million was declared for the year ended 31 March 2002.

8. SHARE CAPITAL

Ordinary class A shares

300,000,000 issued and fully paid shares	300,000	200 000
	300,000	300,000
Ordinary class C shares		
6 issued and deemed fully paid shares		
	300,000	300,000

The ordinary class A shares can only be held by the Auckland Energy Consumer Trust and may only be dealt with pursuant to the Trust Deed.

The ordinary class A shares and the ordinary class C shares are voting securities.

The ordinary class A shares have 75% of the voting entitlement and ordinary class C shares have 25% voting entitlement.

Notes to the Financial Statements - continued

For the year ended 31 March 2002

1.70	2002	2001
	\$000	\$000
9. RESERVES		
Asset revaluation		
Balance at beginning of year	405,846	417,559
Decrease arising from revaluation of distribution fixed assets	(1,889)	(11,713)
Deferred tax adjustment on revalued assets	(65,000)	
Balance at end of year	338,957	405,846

Subsequent to the revaluation performed as at 31 March 2001 the Commerce Commission approved certain changes, the net impact of which was a devaluation of \$1.9 million (0.2%).

10. RETAINED EARNINGS

Balance at end of year	98,343	35,483
Dividend	•	(48,000)
Net surplus attributable to the lines business	98,343	83,483
Net surplus for the period	62,860	63,672
Balance at beginning of year	35,483	19,811

11. BORROWINGS

Repayable	Interest rates		
Within one year	7.1%	116,294	26,484
One to two years	7.1%	3.85	104,810
Total		116,294	131,294
Less short-term borrowings		116,294	26,484
		\$.	104,810

Debt issued of \$116.3 million (2001: \$131.3 million) is secured by way of negative pledge over the assets of the VECTOR group, of which the line business is the predominant activity.

12. ACCOUNTS PAYABLE AND ACCRUALS

Buildings		
14. PROPERTY, PLANT AND EQUIPMENT - CONTINUED		
	\$000	2001 \$000
Tor the year ended of March 2002	2002	

The original Optimised Deprival Value (ODV) valuation was carried out as at 31 March 2001 by Meritec Limited consulting engineers. The valuation was prepared in accordance with the Fourth Edition of the Ministry of Economic Development Handbook for Optimised Deprival Valuation of System Fixed Assets of Electricity Line Businesses (October 2000). Subsequent to this valuation the Commerce Commission approved certain changes, the net impact of which was a devaluation of \$1.9 million (0.2%). Revaluations are carried out at least every three years in accordance with the accounting policy.

As indicated in the accounting policies finance costs are capitalised to fixed assets while under construction. During the year \$0.3 million (2001: \$4.6 million) of finance costs were capitalised.

15. RECEIVABLES AND PREPAYMENTS

	33,887	35,447

Provision for doubtful debts	-	(120)
Accounts receivables	32,026	33,792

Notes to the Financial Statements - continued

For the year ended 31 March 2002

16. FINANCIAL INSTRUMENTS

The VECTOR Group, of which the line business is the predominant activity, is subject to financial risk as a result of its debt portfolio.

To manage and limit the effect of those financial risks, the Board of Directors of VECTOR Limited, of which the line business is the predominant activity, has approved policy guidelines and authorised the use of various financial instruments. The policies approved, and financial instruments being utilised at balance date, are outlined below.

Credit risk

Financial instruments that potentially subject the VECTOR group, of which the line business is the predominant activity, to credit risk principally consist of bank balances, money market deposits and accounts receivable.

The VECTOR group, of which the line business is the predominant activity, monitors the credit quality of the major financial institutions that are counter parties to its off-balance sheet financial instruments and does not anticipate any non-performance by the counter parties.

Maximum exposures to credit risk as at balance date are:

	2002	2001
	\$000	\$000
Bank balances	32,850	30,688
Accounts receivables	32,026	33,672
The above maximum exposures are net of any recognised provision for losses on these financial instruments		
Concentrations of credit risk		
Bank balances	32,850	30,688

The line business is not exposed to any other concentrations of credit risk.

Interest rate risk

Interest rates on debt issued in the current year are generally fixed for periods of between one and three months at rates from 4.9 % to 6.5 % (2001: 6.4% to 6.9%). The interest rates are based on the BkBM rate plus a margin.

Interest rate swaps and forward rate agreements are used to manage the proportion of fixed rate debt to total debt. Interest rate swaps and forward rate agreements open as at 31 March 2002 have a principal of \$174 million (2001:\$194 million) with a cash benefit of \$28.5 million (2001:\$33.3 million). The VECTOR group, of which the line business is the predominant activity, pays a weighted average interest rate on open interest rate swaps and forward rate agreements of 7.1% (2001:7.1%).

The VECTOR group, of which the line business is the predominant activity, values interest rate swaps by determining the net present value of future cash flows using current interest rates. The VECTOR group, of which the line business is the predominant activity, continuously monitors the credit quality of the major international institutions that are counterparties to its off-balance sheet financial instruments and does not anticipate non-performance by any of the counterparties.

Currency Risk

In 1997 the VECTOR group, of which the line business is the predominant activity, issued a bond in Swiss Francs. As a result of this transaction exposures to fluctuations in foreign currency exchange rates arise.

The VECTOR group, of which the line business is the predominant activity, has hedged all these borrowings in foreign currency by currency swap. Currency swaps open at balance date have a principal of \$104.8 million (2001: \$104.8 million). The cash benefit of the currency swaps is incorporated in the interest rate swaps. The currency swap was taken with an interest rate swap as one transaction. Valuation cannot be obtained to distinguish the two components.

Notes to the Financial Statements - continued

For the year ended 31 March 2002

For the year ended 31 March 2002	2002	2001
	\$000	\$000
17. COMMITMENTS		
Capital expenditure commitments		
Estimated capital expenditure contracted for at balance date but not provided for:	9,983	7,413
Operating lease commitments		
Within one year	1,172	1,445
One to two years	1,172	1,316
Two to five years	2,302	3,598
Beyond five years	113	180
	4,759	6,539

The majority of the operating lease commitments relate to premises leases. Operating leases held over properties give the VECTOR Group, of which the line business is the predominant activity, the right to renew the lease.

18. CONTINGENT LIABILITIES

Downer Construction has filed a claim against VECTOR Limited, of which the line business is the predominant activity, in respect of variances to the contract for the construction of the Penrose to Auckland CBD tunnel. The directors believe this claim to be significantly inflated. VECTOR Limited, of which the line business is the predominant activity, has lodged a counter claim. A provision has been made to cover the anticipated costs, however, details of this provision are not disclosed as the Board believe that this would prejudice seriously the position of VECTOR Limited, of which the line business is the predominant activity.

19. TRANSACTIONS WITH RELATED PARTIES

During the year VECTOR Limited, of which the line business is the predominant activity, had the following transactions with the Auckland Energy Consumer Trust (AECT), which is the majority shareholder of VECTOR Limited:

	2002 \$000	2001
		\$000
Payment of Dividends	48,000	33,300
Payments from AECT	52	Nil

No related party debts have been written off or forgiven during the year.

20. SEGMENT INFORMATION

The line business operates within the electricity sector. All operations are carried out within New Zealand.

Description of interruption classes as per The Electricity (Information Disclosure) Regulations 1999

Class A	Planned Transpower interruption
Class B	Planned interruption by a line operator (other than Transpower)
Class C	Unplanned interruption origination within the principal line owners works
Class D	Unplanned Transpower interruption
Class E	Unplanned interruption origination within the principal line owners works (generation)
Class F	Unplanned interruption (as E above) by persons other than principal line owner (generation)
Class G	Unplanned interruption caused by another line owner
Class H	Planned interruption caused by another line owner
Class I	Other (an interruption not referred to above)

VECTOR Limited Electricity Lines Business FOR THE YEAR ENDED 31 MARCH 2002

SCHEDULE 1 - PART 7

Operating surplus before interest and income tex from financial statements. Operating surplus before interest and income tex adjusted pursuent to regulation 16 (OSBHT) Interest on cash, bank balances, and short-form investments. (ISTI) OSBHT minus ISTI Nat surplus after tex from financial statements. Net surplus after tex adjusted pursuent to regulation 16 (NSAT) Amortisation of goodwill and amortisation of other intergibles. Subvention payment. Depreciation of SFA at EV (s) Depreciation of SFA at ODV (y) OOV depreciation adjustment. Subvention payment tex adjustment interest tex shield. Historiantions. Interest tex shield. Fixed assets at end of previous financial year (FA ₀). Fixed assets at end of current financial year (FA ₀). Adjusted net working capital at end of previous financial year (ANNC ₀). Adjusted net working capital at end of current financial year (ANNC ₀). Average total funds employed (ATFE). Total equity at end of previous financial year (TE ₀).
