New Zealand Public Health and Disability Act 2000

Unclaimed Patient Funds—Southland District Health Board

To: Residual Health Management Unit, P.O. Box 996, Wellington.

Attention: Ian Miller.

Dear Sir,

I refer to the situation whereby the Southland District Health Board holds funds received on behalf of patients before 1 July 1993 and the amount held for particular patients cannot be determined with reasonable certainty, together with any liability to compensate the owners of such money (hereafter referred to as the “Southland unclaimed patient funds”).

I note that it was always the intention that patient funds held on behalf of former mental health patients not be transferred to the relevant health bodies by the transferring ministers.

These monies, commonly referred to as “frozen patient funds”, were excluded assets under the 1993 transfer of assets and liabilities to Crown Health Enterprises.

Advice I have received is that the Southland unclaimed patient funds are similarly excluded assets.

I therefore give written notice, under section 58 (2) of the New Zealand Public Health and Disability Act 2000, that the Residual Health Management Unit be given the function of being the constructive trustee of the Southland unclaimed patient funds accumulated prior to 30 June 1993, including all interest accrued thereon, pending determination of disposal according to law.

Dated at Wellington this 19th day of April 2001.

ANNETTE KING, Minister of Health.

Heavy Motor Vehicle Regulations 1974

Certification of Attachments for Logging Bolsters on Trucks and Trailers Used for the Transport of Logs

Pursuant to Regulation 16A(1)(f) of the Heavy Motor Vehicle Regulations 1974, and pursuant to powers

sub-delegated to me by the Director of Land Transport Safety, I, Peter Waring, Principal Engineer, hereby determine that certification of the design, manufacture and installation of bolster attachments on trucks and trailers used for the transport of logs is required for new vehicles and for existing vehicles being equipped with bolsters for the first time, in compliance with the revised Bolster Attachment Code of Practice specified in Schedule 1, from the date specified in Schedule 2. This notice replaces the requirements for bolster attachment certification for new logging trucks and trailers published in the *New Zealand Gazette*, 27 May 1999.

The requirement for bolster attachments on existing vehicles to be in compliance with the *Bolster Attachment Code of Practice* (issue 27 November 1998) by 1 April 2001, published in the *New Zealand Gazette*, June 10 1999, is hereby revoked. This revocation is conditional. Bolster attachments and load retention devices on existing vehicles and on new vehicles whose bolster attachments are exempted by notice in the *New Zealand Gazette* from compliance with any version of the *Bolster Attachment Code*, must be in compliance with the requirements specified in Schedule 3. Bolster attachments certified to be in compliance with the *Bolster Attachment Code* (issue 27 November 1998) are deemed to be in compliance with the *Bolster Attachment Code* (issue 1 May 2001).

Bolster attachments on vehicles fitted with convertible bolsters for the carriage of long logs must comply with the *Bolster Attachment Code* (issue May 1 2001), unless certified by a manufacturer of logging vehicles who is also a manufacturing certifier, or by a *Bolster Attachment Code* certifying engineer, to be in accordance with the conditions of Schedule 4.

Schedule 1

Bolster Attachment Code (issue 1 May 2001) issued on behalf of the Log Transport Safety Committee.

Schedule 2

1 May 2001.

Schedule 3

- (a) Logging trailers equipped with load cells supporting the attachment of the bolster to the vehicle chassis:

One additional safety chain of 6 tonnes breaking strength (rated strength) per bolster must be applied over the load, attached to certified anchorages on the chassis, in addition to the safety chain attached to each bolster in accordance with normal industry practice. This requirement is a continuation of the instruction issued by the Land Transport Safety Authority in its Factsheet dated 31 July 1997. When belly chains are required by the Truck Loading Code, the above additional safety chain is still required.

- (b) All logging vehicles:

Bolsters and their attachments on all logging vehicles are to be subjected to a more detailed inspection for ongoing security as part of the requirements for these vehicles to be issued with a Certificate of Fitness (CoF). Details will be issued in a revision to the *Heavy Vehicle Safety Inspection Guide* and the inspection criteria will be applied at the first Certificate of Fitness inspection for each vehicle subsequent to 1 November 2001.

Schedule 4

Bolster attachments for long log logging vehicles fitted with convertible bolsters are exempted from compliance with a version of the *Bolster Attachment Code*, provided that the manufacturer (who must also be a manufacturing certifier) or a *Bolster Attachment Code* certifying engineer has evidence available for audit by the Land Transport Safety Authority that the particular design of the bolster attachments has successfully completed, on a single vehicle, 250,000 kilometres of service without any indication of cracking due to fatigue or other significant failure. A certificate to this effect must be presented to the Transport Service Delivery Agent at the time of first presentation of the vehicle for registration.

Signed at Wellington this 23rd day of April 2001.

- In respect of shorn wool, dags and dag wool sold privately in New Zealand, 2 percent of the gross proceeds received from the sale less the cost of testing

the wool where that cost has been incurred by the grower prior to the sale and can be substantiated by the levy collection agent to the satisfaction of the Wool Board. The cost of transport will not be deductible.

- (c) In respect of shorn wool, dags and dag wool sold through alternative marketing systems, for example pools and tenders, 2 percent of the gross proceeds received from the sale less any costs, for example testing, selling, crushing, scouring and dumping, which have been incurred by the grower prior to the sale and which can be substantiated by the levy collection agent to the satisfaction of the Wool Board. The cost of transport will not be deductible.
- (d) In respect of slipe wool and fellmongered wool, an amount per kilogram estimated by the Wool Board to be equivalent to 2 percent of the seasonally-adjusted average price for new season's wool sold at auction (the market indicator) during the calendar month 2 months prior to the month in which the levy became payable or, if there were no auctions during that month, during the last calendar month before it in which there was an auction, adjusted to reflect an average yield for slipe wool of 85 percent and less the average selling charges and testing costs on auction-sold wool for the previous season, as calculated by the Wool Board.
- (e) In respect of wool on the skin, 1 percent of the gross proceeds received from the sale of the sheepskin, being a 2 percent levy on half of the gross proceeds from its sale.
- (f) In respect of greasy wool and scoured wool which is exported from New Zealand, 2 percent of the f.o.b. value of the wool less any costs, for example testing, selling, crushing, scouring and dumping, which have been incurred by the grower prior to export and which can be substantiated by the levy collection agent to the satisfaction of the Wool Board. The cost of transport will not be deductible.

- (g) In respect of all wool (as defined in the Wool Board Act 1997) other than that falling into the categories (a) to (f) above e.g., processed and manufactured wool, which is either sold in New Zealand or exported from New Zealand, 2 percent of the original greasy wool value as assessed by the Wool Board.

Dated this 24th day of April 2001.

ROGER BUCHANAN, Board Secretary, New Zealand Wool Board.
