### Commerce Commission

#### Commerce Act 1986

##### Notification of Amendment to Input Methodologies for Transpower

The Commerce Commission (“Commission”) has amended the input methodologies applicable to electricity lines services supplied by Transpower under Part 4 of the Commerce Act 1986.

The amended input methodologies are:

- *Transpower Input Methodologies Determination* [2012] NZCC 17

- *Transpower Capital Expenditure Input Methodology Determination* [2012] NZCC 2

The amendment is set out in the *Transpower Input Methodologies Amendments Determination 2014* [2014] NZCC 22, and will apply to the determination of Transpower’s individual price-quality path.

In summary, our decisions are:

**Specified asset lives**—we have removed the requirement to spread depreciation for “end-of-life” assets across a regulatory period from the asset valuation input methodology. We have made this amendment because it will reduce Transpower’s compliance costs by aligning regulatory treatment with generally accepted accounting practice, and will not detract from investment incentives given the application of the *Transpower Capital Expenditure Input Methodology Determination*.

**Definition of “commissioned”**—we have clarified that land which is base capex under the *Transpower Capital Expenditure Input Methodology Determination* may enter the regulatory asset base upon acquisition. This amendment will reduce uncertainty by removing ambiguity about the appropriate treatment of land intended to be used to provide electricity transmission services, but which is purchased prior to use. The framework introduced by the *Transpower Capital Expenditure Input Methodology Determination* will provide adequate incentives for prudent acquisition of low-cost land acquired for strategic purposes.

**Reconsideration of the individual price-quality path**—we have amended the reconsideration of an individual price-quality path input methodology to reflect changes to terminology resulting from the *Transpower Capital Expenditure Input Methodology Determination*. These amendments will allow reconsideration of the revenue-linked grid output measures following a catastrophic event, error or change event. We have made this amendment to ensure consistency with the quality standards terminology used in the *Transpower Capital Expenditure Input Methodology Determination*.

**Recoverable costs**—we have amended the specification of price input methodology to allow expenditure, classified as opex under generally accepted accounting practice, to be treated as recoverable costs if originally forecast as approved major capex. We have made this amendment to preserve the neutrality of efficiency incentives irrespective of the accounting treatment ultimately adopted for expenditure incurred in major capex projects approved under the *Transpower Capital Expenditure Input Methodology Determination*. We have also allowed for the recovery of prudent additional net opex incurred as the result of a catastrophic event. We have made this amendment because there is currently no allowance for the additional costs incurred in responding to a catastrophic event, which may undermine incentives to respond efficiently and appropriately.

**Definition of “forecast CPI”**—we have updated the methodology for forecasting CPI with reference to the Reserve Bank’s policy target for inflation. This amendment aligns with similar amendments to the input methodologies application to other regulated energy sectors for the purposes of setting capex allowances. We have made this amendment because it is a better indicator of inflation.

**Definition of “related party”**—we have updated the definition of related party to exclude parties that are related to Transpower by virtue of Crown ownership. We have made this amendment because it reduces compliance costs for Transpower by excluding parties that are related solely as a result of Transpower being a Crown-owned entity, while preserving the policy intent of the input methodologies that exclude certain related party transactions or arrangements.

**Calculation of depreciation**—we have amended the asset valuation input methodology to allow for part-year depreciation for newly-commissioned assets, and a transitional adjustment to align Transpower’s regulatory asset base values with its asset values calculated under generally accepted accounting practice as at 1 July 2015, and established a depreciable pseudo-asset to preserve net present value neutrality. We have made this amendment as it will reduce Transpower’s compliance costs by aligning regulatory treatment with generally accepted accounting practice on a net present value-neutral basis.

Copies of the amendment determination and reasons paper are available on the Commission’s website at

### Electricity Industry Act 2010

#### Electricity Industry (Exemption No. 202 (AccuCal Limited)) Exemption Notice 2014

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

**2. Exemption**—AccuCal Limited (“AccuCal”) is exempted from complying with the obligation in clause 4(2)(a) of Schedule 10.7 of the Electricity Industry Participation Code 2010 (“Code”), to ensure that its metering installation configuration does not use subtraction to determine submission information, in respect of installation control point 0000880392WEA92.

**3. Term**—This exemption expires at the earlier of:

- (a) the close of **31 December 2022**; and
- (b) the completion date of a major upgrade to the switchboards at the co-generation plant owned by Contact Energy Limited (“Contact”) at the Te Rapa dairy factory.

**4. Reasons for granting the exemption**—The reasons for granting this exemption are:

- (a) granting the requested exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- (b) without the exemption, Contact would incur a significant cost to reconfigure the metering installations at the Te Rapa co-generation power plant before AccuCal could comply with the obligation in clause 4(2)(a) of Schedule 10.7 of the Code;
- (c) deriving the submission information from the metering installations by subtraction is as accurate as it would be if it was derived using actual metered data; and
- (d) the requested exemption will have no impact on any other participant or service provider, and will not affect any other Code provision.

Dated at Wellington this 25th day of August 2014.

**3. Term**—This exemption expires at the earlier of:

- (a) the close of **31 December 2022**; and
- (b) the completion date of a major upgrade to the switchboards at Contact’s co-generation plant at the Te Rapa dairy factory.

**4. Reasons for granting the exemption**—The reasons for granting this exemption are:

- (a) granting the requested exemption meets the requirements in section 11(2) of the Act for granting exemptions;

- (b) without the exemption, Contact would incur a significant cost to reconfigure the metering installations at the Te Rapa co-generation power plant to comply with the obligation in clause 10.24(c) of the Code;
- (c) deriving the submission information from the metering installations at the ICP by subtraction is as accurate as it would be if it was derived using directly metered data;
- (d) the exemption from clause 10.24(c) of the Code will allow Contact to continue to use subtraction to determine submission information, even though the ICP is not also a network supply point; and
- (e) the requested exemption will have no impact on any other participant or service provider, and will not affect any other Code provision.

### **Electricity Industry (Exemption No. 204 (Orion New Zealand Limited)) Exemption Notice 2014**

Pursuant to section 11 of the Electricity Industry Act 2010 ("Act"), the Electricity Authority gives the following notice.

#### **Notice**

**1. Title and commencement**—(1) This notice is the Electricity Industry (Exemption No. 204 (Orion New Zealand Limited)) Exemption Notice 2014.

(2) This notice comes into force on **2 September 2014**.

**2. Exemption**—Orion New Zealand Limited ("Orion") is exempted from complying, in respect of the existing interconnection point between Orion's local network (BRY0661) and MainPower New Zealand Limited's ("MainPower") local network (KAI0111), with the following:

- (a) clause 25(1)(a) of Schedule 11.1 of the Electricity Industry Participation Code 2010 ("Code"); and
- (b) all other obligations in the Code in respect of distributors' network supply points.

**3. Term**—This exemption expires at the earlier of:

- (a) **1 September 2017**;
- (b) the number of installation control points ("ICPs") on Orion's local network (BRY0661) that can be backed by MainPower's local network (KAI0111) exceeding 500;
- (c) the number of ICPs on MainPower's local network (KAI0111) that can be backed by Orion's local network (BRY0661) exceeding 500; and
- (d) there having been more than three outages in a year on the existing interconnection point between Orion's local network (BRY0661) and MainPower's local network (KAI0111).

**4. Reasons for granting the exemption**—The reasons for granting this exemption are:

- (a) granting the exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- (b) without an exemption, Orion will:
  - (i) incur unreasonable expenditure and complexity in fitting metering and communication equipment to its network for the relatively low consumption volumes on the interconnection point;

- (ii) incur unreasonable expenditure in becoming a certified reconciliation participant;
  - (iii) incur unreasonable expenditure in submitting submission information for each reconciliation period; and
  - (iv) need to re-assess the viability of having the interconnection point as a back-up;
- (c) the interconnection point is rarely used;
  - (d) although granting the exemption will have a financial impact on the retailers on BRY0661 and KAI0111, the continuous supply to the customers on BRY0661 and KAI0111 outweighs this financial impact; and
  - (e) the exemption will have little or no impact on other participants (other than the affected retailers) and service providers and will not affect any other Code provisions.
