(2) This notice replaces and consequentially revokes the Electricity Regulations (Prohibited Electrical Appliances – Goldair Branded Wall-mounted Fan Heaters Models 3108 and 3109) Notice 2014, published in the *New Zealand Gazette*, 26 June 2014, No. 68, page 1927.

(3) This prohibition is to take effect on and from the date following the date of publication of this notice in the *New Zealand Gazette*.

2. Prohibited equipment—(1) The sale, including offer to sell, and use, including installation, of the following electrical appliances, is prohibited: All units of “Goldair”-branded wall-mounted fan heaters – Model 3109.

(2) The sale, including offer to sell, of the following electrical appliances, is prohibited: All units of the “Goldair”-branded wall-mounted fan heaters – Model 3108.

(3) The use, including installation, of the following electrical appliances, is prohibited: All units of the “Goldair”-branded wall-mounted fan heaters – Model 3108, except that the prohibition on use does not apply to:

(a) units manufactured after 1 January 2008;

(b) units that on 27 June 2014 had been installed so they are connected directly to the fixed wiring of an installation without connection via the connector block situated on the heater mounting plate.

(4) The appliances prohibited in paragraphs 2(1) to (3) above are, for the purposes of this notice, referred to as the “prohibited appliances”.

3. Description—(1) The prohibited appliances to which this notice applies are products that are used primarily in bathrooms and are intended to be wall mounted, further described below.

(2) The prohibited appliances have been sold nationally by various electrical retail outlets, most likely prior to 2010. The prohibited appliances may also have been available elsewhere including second-hand in New Zealand.

(3) The prohibited appliances have known markings that include:

(a) in the case of Goldair 3108 – “Goldair”, “Model 3108”, “220-240V 50Hz”, “1000/2000-1200/2400 W”, “DO NOT IMMERSE”, “DO NOT COVER”, and includes the Class II double insulation symbol;

(b) in the case of Goldair Model 3109 – “Goldair”, “Model No. 3109”, “230-240V a.c.- 50Hz”, “IP22”, “Wattage:2400W”, “DO NOT IMMERSE”, “DO NOT COVER”, and includes the Class II double insulation symbol.

(4) The prohibited appliances may also have a four digit code on the rating label or on a separate label on the underside of which the first two digits denote the week of the year it was manufactured and the second two digits denote the year it was manufactured. For example, for the Goldair Model 3108 prohibited appliances, the four digit code ends with “00”, “01”, “02”, “03”, “04”, “05”, “06” or “07”.

(5) The approximate overall dimensions of the prohibited appliances are in each case: 23.5 x 23.5 x 13.5 cm.

(6) The prohibited appliances in most cases have an off-white coloured plastic enclosure, pull-cord operation, separate wall-mounting bracket and a red indicator light:

- (a) The Goldair Model 3108 has two power output levels.
 - (b) The Goldair Model 3109 has a single power output level.
- (7) The figures below show examples of Goldair Models 3108 and 3109, together with examples of rating labels.

Figure 1 Goldair 3108 wall heater.

Figure 2 Goldair 3109 wall heater.

Figure 3 Rating label – Goldair 3108.

Figure 4 Rating label – Goldair 3109.

- 4. Details of hazard**—(1) The prohibited appliances identified as Goldair 3108 are, or may be, electrically unsafe in that:
- (a) the materials and components used for the construction of the appliance – and specifically the components used in the connector block – and/or the appliance itself are such that they do not function safely in both normal and abnormal conditions so as to prevent fire or the appliance overheating (Regulation 23(1)(b)).
 - (b) there have been multiple house fires involving the prohibited appliances.
- (2) The prohibited appliances identified as Goldair 3109 are, or may be, electrically unsafe in that:
- (a) the materials and components used for the construction of the appliance – and specifically the fan unit and/or heater control components – and/or the appliance itself are such that they do not function safely in both normal and abnormal conditions so as to prevent fire or the appliance overheating (Regulation 23(1)(b)).
 - (b) there have been multiple house fires involving the prohibited appliances.

5. Reasons for prohibition—The prohibited appliances described in this notice are, or may be, electrically unsafe as defined in Regulation 5 of the Regulations, in that there is significant risk that a person may suffer harm or significant property damage may occur as a result of dangers arising from the continued use of, or passage of electricity through, the appliances. There is therefore a significant risk of further fires associated with the continued use of appliances of the same construction that are still in use.

6. Consequential revocation and saving—(1) The Electricity Regulations (Prohibited Electrical Appliances – Goldair Branded Wall-mounted Fan Heaters Models 3108 and 3109) Notice 2014 is hereby revoked and ceases to have effect on and from the date this notice comes into force.

(2) Despite the revocation in paragraph 6(1), the Electricity Regulations (Prohibited Electrical Appliances – Goldair Branded Wall-mounted Fan Heaters Models 3108 and 3109) Notice 2014 continues to have effect for the period commencing on 27 June 2014 and ending on the day before the date on which this notice comes into force.

Dated at Wellington this 14th day of October 2014.

This exemption applies on and from **1 November 2014** until **5.00pm** on **12 December 2014**, unless cancelled earlier under Regulation 21(5) of the Regulations, subject to the exempt adventure activity operator meeting the condition described below.

The effect of the exemption is that the exempt adventure activity operators may provide adventure activities to

If this condition is not met in respect of an exempt adventure activity operator, this exemption will cease to have effect and the relevant operator will need to cease providing adventure activities from that date until the operator is registered.

To avoid doubt, adventure activity operators not covered by this exemption must be registered by **1 November 2014** or, on and from **1 November 2014**, cease providing adventure activities until they are registered to do so.

Pharmacy Council Scopes of Practice and Prescribed Qualifications Amendment Notice 2014

Pursuant to section 12(1) of the Health Practitioners Competence Assurance Act 2003 (“the Act”), the following notice is given.

Notice

Title and commencement—(1) This notice may be cited as the Pharmacy Council Scopes of Practice and Prescribed Qualifications Amendment Notice 2014.

(2) This notice comes into effect on **1 December 2014**.

(3) This notice revokes and replaces all previous Pharmacy Council of New Zealand Scopes of Practice and Prescribed Qualifications notices.

Intern Pharmacist Scope of Practice

The intern pharmacist, practising under the supervision of a practising registered pharmacist acts as a medicines manager, providing patient-centred medication therapy management, health improvement and disease prevention services in a collaborative environment. Intern pharmacists ensure safe and quality use of medicines and optimise health outcomes by contributing to patient assessment and to the selection, prescribing, monitoring and evaluation of medicine therapy.

The practice of pharmacy may include:

- the custody, preparation and dispensing of medicines and pharmaceutical products;
- the selection and provision of non-prescription medicine therapies and therapeutic aids;
- health promotion, including health screening;
- the potential for administration of medicines; and

- researching and evaluating information and providing evidence-based advice and recommendations on medicines and medicine-related health issues.

Pharmacist Scope of Practice

The practice of pharmacy is necessarily broad and is wider than pharmacists working directly with patients, given that such roles influence clinical practice and public safety. In a clinical role, the pharmacist acts as a medicines manager, providing patient-centred medication therapy management, health improvement and disease prevention services, usually in a collaborative environment. Pharmacists ensure safe and quality use of medicines and optimise health outcomes by contributing to patient assessment and to the selection, prescribing, monitoring and evaluation of medicine therapy.

The practice of pharmacy may include, but is not limited to:

- the custody, preparation and dispensing of medicines and pharmaceutical products;
- the selection and provision of non-prescription medicine therapies and therapeutic aids;
- health promotion, including health screening;
- administration of medicines, including injectable medicines;
- researching and evaluating information and providing evidence-based advice and recommendations on medicines and medicine-related health issues;
- teaching and advising;
- policy development;

Pharmacist Prescriber Scope of Practice

Pharmacist Prescribers have specialised clinical, pharmacological and pharmaceutical knowledge, skills and understanding relevant to their area of prescribing practice. This allows them to provide individualised medicines management services, including the prescribing of medicines to patients across a range of healthcare settings and models.

Pharmacist Prescribers work in a collaborative health team environment with other healthcare professionals and are not the primary diagnostician. They can write a prescription for a patient in their care to initiate or modify therapy (including discontinuation or maintenance of therapy originally initiated by another prescriber). They can also provide a wide range of assessment and treatment interventions which includes, but is not limited to:

- Ordering and interpreting investigation (including laboratory and related tests).
- Assessing and monitoring a patient's response to therapy.
- Providing education and advice to a patient on their medicine therapy.

The Pharmacist Prescriber must prescribe within the limits of their professional expertise and competence (both clinical and cultural) and ethical codes of practice. They are responsible and accountable for the care they provide.
