### **Notice of Recognition of Methanex Documents**

Pursuant to Regulation 22 of the Health and Safety in Employment (Pressure Equipment, Cranes, and Passenger Ropeways) Regulations 1999 ("PECPR Regulations"), I, Richard Steel, Manager Technical Support Services, WorkSafe New Zealand ("WorkSafe"), in exercise of those powers granted to me by the Chief Executive of WorkSafe, hereby give notice that recognition is granted to the following Methanex New Zealand Limited ("Methanex") documents:

Methanex Pressure Equipment Management System (Code: MC2I0008, issued 13 March 2014)

RBI Process (Code: MC3I0002, issued 18 September 2012)

This recognition is subject to the following conditions:

1. The recognition applies only to pressure equipment which is subject to the PECPR Regulations and scheduled in the document "Methanex Hazard Level A, B & C Pressure Equipment (Aug 2014)" provided to WorkSafe as an attachment to an email of 12 August 2014 from Harvey O'Sullivan Consulting Limited (on behalf of Methanex).
2. The recognition is not approval of inspection intervals. Methanex In-House Inspection Body shall determine the actual inspection intervals for equipment.
3. Methanex In-House Inspection Body shall determine the frequency and timing of attendance of its equipment inspectors for the purpose of reviewing, approving and auditing the implementation of ITPs and the inspection and certification of equipment.
4. Methanex shall advise Methanex In-House Inspection Body of any changes to its equipment or process that may affect equipment life or the frequency or type of inspection applied.
5. Methanex shall, in conjunction with Methanex In-House Inspection Body, review actual and proposed changes to its equipment or process in order to establish any potential impact on safety and equipment inspection.
6. Methanex shall advise Methanex In-House Inspection Body of any changes to, or affecting, Methanex asset integrity personnel.
7. Methanex shall maintain AS/NZS ISO 9001 certification of appropriate scope.
8. Management of in-service inspection of pressure equipment shall be carried out in accordance with *AS/NZS 3788 Pressure equipment - In-service inspection* and the relevant current approved code(s) of practice.

**Condition 8 notes:**

1. At the time of granting this recognition, the relevant approved codes of practice were the *Approved Code of Practice for the Design, Safe Operation, Maintenance and Servicing of Boilers*, and the *Approved Code of Practice for Pressure Equipment (Excluding Boilers)*.
2. At the time of granting this recognition, the approved codes of practice did not reflect the content of AS/NZS 3788:2006 on inspection intervals derived from risk-based inspection and consequently the standard should be followed in this regard, except where contrary advice is given in a current relevant code of practice that was issued after 2013.

This recognition is not a technical review of the recognised documents and WorkSafe does not accept responsibility for any consequences arising from reliance on them.

This recognition shall remain in force until the earliest of the following occurs:

1. The PECPR Regulations are repealed;
2. the PECPR Regulations are amended, except where a written confirmation is received from WorkSafe that the amendment lacks sufficient substance or relevance to affect the recognition; or
3. the recognition is withdrawn by WorkSafe.

All earlier recognitions to Methanex documents that are relevant to risk-based inspection and further extended inspection periods are hereby withdrawn.

## **Electricity Industry (Exemption No. 222 (Body Corporate Power Limited)) Exemption Notice 2014**

Pursuant to section 11 of the Electricity Industry Act 2010 ("Act"), the Electricity Authority gives the following notice.

### **N o t i c e**

**1. Title and commencement**—(1) This notice is the Electricity Industry (Exemption No. 222 (Body Corporate Power Limited)) Exemption Notice 2014.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

**2. Exemption**—Body Corporate Power Limited ("Body Corporate Power") is exempted from complying with the obligation in clause 15.38 of the Electricity Industry Participation Code 2010 ("Code") to obtain and maintain certification.

**3. Term**—This exemption expires at the earlier of:

- a. the close of **1 June 2015**;
- b. Body Corporate Power being responsible for more than 100 installation control points ("ICPs"); and
- c. Body Corporate Power being responsible for an ICP with a metering installation category of 3, 4, or 5.

**4. Reasons for granting the exemption**—The reasons for granting this exemption are:

- a. granting the exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- b. the exemption is only needed on a short-term basis;
- c. granting the exemption will assist a small new entrant retailer to enter the market, which could lead to increased competition for the long-term benefit of consumers;
- d. Body Corporate Power will not have sufficient data to make an audit required for certification meaningful as some processes and procedures will not have been used in production; and
- e. due to the small number of ICPs involved, the exemption will have little or no impact on other participants and service providers, and will not affect any other Code provisions.

Dated at Wellington this 8th day of December 2014.

For and on behalf of the Electricity Authority:

Dr THOMAS BRENT LAYTON, Chairperson, Electricity Authority.

*Reason for Reassessment:* The Environmental Protection Authority (EPA) has reassessed Organophosphate and Carbamate active ingredients under the Hazardous Substances and New Organisms Act 2001. The outcomes of the reassessment included a reduction in the Potential Daily Exposure (PDE) (food), setting of maximum application rates, and limiting the frequency of applications for some of the actives assessed. As a result, MPI is re-examining the use patterns and controls to ensure dietary intake of these compounds is acceptable and labels are consistent with the use pattern restrictions imposed by EPA. To achieve this, Maximum Residue Limit (MRL) changes may be required. The reassessment will only apply to products affected by the EPA assessment.

Any person may make a written submission to the director-general concerning this application.

Under sections 16 and 17 of the Act, a written submission:

- a. must state in full the reasons for making the submission; and
