**Australian GAAP** means generally accepted accounting principles in Australia.

**6. Exemptions for directors of exempt overseas companies**—Every director of an exempt overseas company is exempted from the following provisions in respect of the exempt overseas company:

- a. sections 201 and 202 of the Act, except to the extent that these sections require financial statements to be prepared for the exempt overseas company's New Zealand business in accordance with section 204 of the Act; and
- b. section 207E of the Act to the extent that it requires copies of the financial statements and group financial statements of the exempt overseas company to be delivered to the Registrar for registration.

For the avoidance of doubt, this notice does not exempt an exempt overseas company from the requirement to prepare audited financial statements for its large New Zealand business.

**7. Conditions**—The exemptions in clause 6 are subject to the conditions that:

- a. the specified financial statements comply with Australian GAAP; and
- b. the specified financial statements are audited by a qualified auditor in accordance with the relevant

standards relating to auditing or assurance that are in force in Australia;

- c. the directors of the exempt overseas company ensure that, within 20 working days after the specified financial statements are required to be signed, the following documents are delivered to the Registrar for registration:
- i. a copy of the specified financial statements together with a copy of the auditor's report on those statements;
  - ii. a memorandum signed by the directors of the exempt overseas company which states that:
    - A. the specified financial statements are the consolidated financial statements that are required to be prepared under the Class Order and are not the financial statements of the exempt overseas company; and
    - B. the exempt overseas company has been granted relief under the Class Order and the basis for which the exempt overseas company qualifies for such relief; and
    - C. the nature of the relief granted.
  - iii. a copy of the Class Order.

Dated at Wellington this 15th day of June 2015.

### Statement of reasons

This notice, which comes into force on its notification in the *New Zealand Gazette* and expires on 31 July 2020, exempts the directors of certain overseas companies incorporated in Australia from various provisions of the Companies Act 1993 ("the Act").

The effect of the exemptions is to allow overseas companies incorporated in Australia, which are wholly-owned subsidiaries that have been granted relief under the Australian Securities and Investment Commission's (ASIC) Class Order [98/1418] Wholly-owned entities (the Class Order), to provide the consolidated financial statements that they are required to prepare under financial reporting requirements in Australia.

The Class Order provides that certain wholly-owned subsidiaries may be relieved from the requirement to prepare and lodge audited financial statements under Chapter 2M of the Corporations Act 2001 (Aust), where they enter into deeds of cross guarantee with their parent entity and meet certain other conditions. The relief is granted on the basis that the deed of cross guarantee makes the group of companies that are parties to that deed akin to a single legal entity in many respects. Creditors and potential creditors can then focus on the consolidated financial position for those entities rather than the individual financial statements of the wholly-owned subsidiaries that are parties to the deed.

The principal differences in financial statements provided by overseas companies relying on the exemptions are:

- a. the directors of the overseas company will prepare and register audited financial statements for the New Zealand business and the consolidated financial statements prepared for the parent entity only (not stand-alone parent company financial statements);
- b. the consolidated financial statements will comply with generally accepted accounting practice in Australia (rather than generally accepted accounting practice in New Zealand);
- c. the consolidated financial statements will be audited in accordance with auditing and assurance standards in force in Australia (rather than the applicable auditing and assurance standards in force in New Zealand).

The Registrar considers that it is appropriate to grant the exemptions because:

- the Registrar has had regard to the financial reporting requirements that must be complied with by Australian incorporated companies who rely on the exemptions. The exemptions are limited to overseas companies that have been granted relief by ASIC under the Class Order;
- an overseas company relying on the exemptions will still be required to file audited financial statements for the group's New Zealand business prepared in accordance with New Zealand generally accepted accounting practice as if the members of the group were companies formed and registered in New Zealand;
- the Registrar is satisfied that the consolidated financial statements for the parent company that are required to be prepared under the Class Order provide sufficient information to avoid any detriment to members of the public who have dealings with companies incorporated in Australia who have been granted relief under

the Class Order; and

- the exemptions address the particular difficulties experienced by Australian incorporated companies that carry on business in New Zealand, and that have been granted relief under the Class Order from the requirement to prepare stand-alone parent company financial statements in Australia. The exemptions are not broader than what is reasonably necessary to address these difficulties and still require that consolidated financial statements be filed in New Zealand.

Dated this 18th day of June 2015.

This notice is administered by the Registrar of Companies.

## **Maximum Contribution Applying in Each Territorial Local Authority Region From**

**1 July 2015**

Under section 152 of the Social Security Act 1964, the Director-General of Health is required to notify the maximum contribution that applies in each region for long-term aged residential care.

The maximum contribution is the maximum weekly amount (inclusive of GST) that a resident assessed as requiring long-term residential care (through a needs assessment and service coordination agency) is required to pay for contracted care services provided to them in the region in which their rest home or continuing care hospital is located.

The maximum contribution is the same for all residents regardless of the type of contracted care services they receive. It is equivalent to the rest home contract price applying to residential care facilities in each territorial local authority region.

The maximum contribution set by this *New Zealand Gazette* notice applies from **1 July 2015** and replaces the previous maximum contribution notice published in the [New Zealand Gazette, 11 September 2014, No. 109, page 3035](#).

The daily GST exclusive contract price for rest home services has been increased by 0.7%, GST has been added and the result has been multiplied by seven to determine the new maximum contribution. The calculations are rounded to two decimal places at each step.

## **Notice of Intention to Take Easements for Kerikeri River Flood Scheme —Far North District**

Notice is hereby given, under the provisions of section 23 of the Public Works Act 1981, that Northland Regional Council proposes to take

- a. easement interests in the land described in the First Schedule hereto for rights to construct and maintain a stopbank, construct and maintain flood protection works including floodways, undertake earthworks, access to remove flood debris, drain water, and flood (“easements”); and
- b. easement interests in the land described in the Second Schedule hereto for rights to flood, to drain stormwater and of access to remove flood debris.

The easements are required over the identified parts of the lands which are within areas to be affected by flooding as part of the proposed Kerikeri River Flood Scheme (“scheme”).

Northland Regional Council proposes to construct the scheme to provide flood protection to the left bank of the Kerikeri River, from downstream of the State Highway 10 Bridge over the Kerikeri River to Rainbow Falls.

The scheme will also reduce flood overflow to the Waipapa Stream, and reduce flood risk along that stream, in particular at Waipapa Landing.

Parts of the earthworks and floodway of the proposed scheme are located on the lands.

The intended taking of the easements is considered reasonably necessary to enable the construction and on-going operation of the scheme.

The Northland Regional Council has assessed a range of flood mitigation options for the Kerikeri-Waipapa catchment, and no better alternative sites or other methods of achieving flood mitigation to the Kerikeri-Waipapa catchment were identified that were more favourable than the scheme.

A designation application for the scheme is currently being processed by the Far North District Council (*Application No.*: 2150173-RMADES) to provide for the scheme in the Operative Far North District Plan.

The owners of the lands and those persons with a registered interest in the land have been served with notice of Northland Regional Council’s intention to take interests by way of easement in the lands and of their right to object.

Any other person having the right to object may send a written objection to the Registrar, Environment Court, Tribunals Division, Justice Department, Private Bag, Postal Centre, Wellington, within 20 working days.

If any objection is made in accordance with this notice, a public hearing will be held with the right of the objector to appear and be heard personally unless the objector otherwise requires, and each objector will be informed of the time and place of the hearing.

Any person requiring further information in respect of this advice should contact Bruce Howse, Land Rivers Senior Programme Manager, Northland Regional Council. Telephone: (09) 470 1135.
