Electricity Authority

Electricity Industry Act 2010

Electricity Industry (Exemption No. 177 (Contact Energy Limited)) Exemption Notice 2013

Pursuant to section 11 of the Electricity Industry Act 2010 ("Act"), the Electricity Authority gives the following notice.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry (Exemption No. 177 (Contact Energy Limited)) Exemption Notice 2013.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—Contact Energy Limited ("Contact") is exempted from compliance with clause 8(g) of Schedule 15.3 of the Electricity Industry Participation Code 2010 ("Code") in respect of providing half-hour ("HHR") submission information instead of non half-hour ("NHH") submission information for distributed unmetered load ("DUML").

3. Term—This exemption expires at the close of **31 October 2023**.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- (a) granting the requested exemption meets the requirements in section 11(2) of the Act for granting exemptions;

- (b) without the exemption, Contact would incur significant administration and compliance costs changing its internal system to provide submission information for DUML in NHH format, instead of in the HHR format it currently provides;
- (c) DUML is reasonably static and predictable, and any changes are accurately tracked within Contact's DUML database;
- (d) Contact's internal system replicates the profiling process used in the reconciliation manager's system by converting NHH quantities into an HHR "shape" using on and off switch times recorded by a certified data logger and provides a similar level of accuracy;
- (e) Contact will still submit the full consumption to the reconciliation manager for the DUML but this will be HHR consumption for each trading period in the month, rather than bulk consumption data for an entire month; and
- (f) the exemption will have little or no impact on other participants and service providers, and will not affect any other Code provisions.

Electricity Industry (Exemption No. 178 (Accucal Limited)) Exemption Notice 2013

Pursuant to section 11 of the Electricity Industry Act 2010 ("Act"), the Electricity Authority gives the following notice.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry (Exemption No. 178 (Accucal Limited)) Exemption Notice 2013.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—Accucal Limited ("Accucal") is exempted from compliance from clause 24(1)(b)(ii) of Schedule 10.7 of the Electricity Industry Participation Code 2010 ("Code"), in respect of the metering installation at installation control point ("ICP") 0008803900WMFBC.

3. Term—This exemption expires at the close of **31 May 2014**.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- (a) granting the requested exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- (b) the exemption from clause 24(1)(b)(ii) of Schedule 10.7 would allow Accucal (an approved test house) to fully certify the existing metering installation at this ICP until such time as the metering installation is replaced;
- (c) the metering equipment provider at this ICP has scheduled a new and larger capacity meter to be installed at the customer's site over the off-season, to be completed by May 2014, which would allow Accucal to fully certify the metering installation without the need for an exemption;

- (d) granting the exemption will enable error compensation factors to be applied, which is considered to be a cost effective solution to producing accurate volume information without disrupting the power to the customer during its peak ski season; and
- (e) the requested exemption will have no impact on any other participant or service provider, and will not affect any other Code provision.

Electricity Industry (Exemption No. 180 (Electrix Limited)) Exemption Notice 2013

Pursuant to section 11 of the Electricity Industry Act 2010 ("Act"), the Electricity Authority gives the following notice.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry (Exemption No. 180 (Electrix Limited)) Exemption Notice 2013.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—Electrix Limited ("Electrix") is exempted from compliance from the following clauses of the Electricity Industry Participation Code 2010 ("Code"), in respect of Transpower New Zealand Limited's ("Transpower") metering installations:

- (a) Clause 31(7) of Schedule 10.7; and
- (b) clause 2(1)(c) of Schedule 10.8.

3. Term—This exemption expires at the close of **31 December 2014**.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- (a) granting the requested exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- (b) without the exemption from clause 31(7) of Schedule 10.7, Transpower and Electrix would incur administration costs in changing their Approved Test House service contracts to incorporate the installation of burden resistors;
- (c) without the exemption, Electrix would incur significant costs installing burden resistors when the in-service burden is lower than the test standard, which would also necessitate an additional outage of approximately two hours at each location;
- (d) without the exemption from clause 2(1)(c) of Schedule 10.8, Electrix would incur higher administration costs contacting and seeking confirmation of accuracy from the measuring transformer manufacturer, with no obvious benefits;
- (e) Transpower has a long-standing and effective process already in place to ensure the accuracy of measuring transformers at low in-service burdens; and
- (f) the requested exemption will have no impact on any other participant or service provider, and will not affect any other Code provision.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—Transfield Services (New Zealand) Limited ("Transfield") is exempted from compliance from the following clauses of the Electricity Industry Participation Code 2010 ("Code"), in respect of Transpower New Zealand Limited's ("Transpower") metering installations:

- (a) Clause 31(7) of Schedule 10.7; and
- (b) clause 2(1)(c) of Schedule 10.8.

3. Term—This exemption expires at the close of **31 December 2014**.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- (a) granting the requested exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- (b) without the exemption from clause 31(7) of Schedule 10.7, Transpower and Transfield would incur administration costs changing their Approved Test House service contracts to incorporate the installation of burden resistors;

Electricity Industry Participation (Approval as Industrial Co-generating Station (No 4) (Norske Skog Tasman Limited)) Notice 2013

Pursuant to clause 8 of Schedule 13.4 of the Electricity Industry Participation Code 2010 ("Code"), the Electricity Authority ("Authority") gives the following notice.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry Participation (Approval as Industrial Co-generating Station (No 4) Norske Skog Tasman Limited)) Notice 2013.

(2) This notice comes into force on **Friday 8 November 2013**.

2. Approval—The following generating units, owned by Norske Skog Tasman Limited ("Norske Skog"), are approved as an industrial co-generating station in accordance with Schedule 13.4 of the Code:

- (a) Generating units:
 - (i) TA2, maximum rating 18.7 MW; and
 - (ii) TA3, maximum rating 9.0 MW; and
- (b) stand-alone Ormat geothermal generating units:
 - (i) KA24, maximum rating 9.9 MW; and
 - (ii) TOPP1, maximum rating 21.0 MW.

3. Condition—This approval is granted on the condition that the industrial co-generating station must comply with dispatch instructions if:

- (a) the system operator has issued a formal grid emergency or warning notice applicable to the area supplied by grid exit points in the Kawerau area; or
- (b) a constraint situation, which is directly impacted by the Norske Skog industrial co-generating station, exists within the area supplied by grid exit points in the Kawerau area.

4. Reasons for granting the approval—The reasons for granting this approval are:

- (a) the system operator has provided conditional approval;
- (b) the generating station fits the definition of industrial co-generating station in Part 1 of the Code. Two of the four generating units that make up the station derive their fuel source from a co-located industrial process; the other two provide some of the electricity they generate into the co-located industrial process;
- (c) Norske Skog is unable to comply with the standard dispatch tolerance in clause 13.86 of the Code because of the close link between the on-site industrial process and the generating units; and
- (d) granting approval is in accordance with the Authority's statutory objective, as stated in section 15 of the Electricity Industry Act 2010. The Authority considers that this application promotes the efficient operation of Norske Skog's pulp mill and generating station. Approval will allow the most efficient operation of its generation plant (with corresponding benefits for competition and reliability) without the risk of the on-going administration costs associated with addressing Code breaches that result from Norske Skog's inability to comply with dispatch instructions, and without affecting the system operator's ability to achieve its principal performance obligations.

DR THOMAS BRENT LAYTON, Chairperson, Electricity Authority.

Electricity Industry Act 2010 Interpretation Act 1999

Electricity Industry (Exemption No. 185 (Contact Energy Limited)) Exemption Notice 2013

Pursuant to section 11 of the Electricity Industry Act 2010 ("Act") and section 13 of the Interpretation Act 1999, the Electricity Authority gives the following notice.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry (Exemption No. 185 (Contact Energy Limited)) Exemption Notice 2013.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—Contact Energy Limited ("Contact") is exempted from compliance with clause 11 of Schedule 15.3 of the Electricity Industry Participation Code 2010 ("Code") in respect of the following installation control points ("ICPs"):

	ICP identifier		ICP identifier
1	0000038627NTADB	7	0008801012TP900
2	0000557925UND32	8	0014189134HBC96
3	0000600085HBD8B	9	0016096032EL6DD
4	0000916610TEA3F	10	0018137292HB7F1
5	0001183605HB0B0	11	0046054751HBFE7
6	0005000772HBA61		

3. Term—This exemption expires on the date on which Contact no longer has the responsibility in the registry as the trader for the ICPs listed above.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- (a) Contact would incur significant compliance costs in setting up the distributed unmetered load ("DUML") databases for these low consumption ICPs;
- (b) the cost of maintaining the databases and undertaking annual audits of them would be disproportionate to the size of the load;
- (c) the load at these ICPs is static, will have little annual variation, and changes can be accurately tracked;
- (d) Contact has stated it will continue to treat the loads as standard unmetered loads and record the information in the registry;
- (e) creating new ICP identifiers for each of the points of connection at each of the 11 ICPs would avoid the need to establish a DUML database at each ICP because each ICP could then be treated as a standard unmetered load rather than aggregated as a distributed unmetered load. However, this would impose additional fixed charges on consumers for no extra benefit;
- (f) the exemption will have little or no impact on other participants and service providers, and will not affect any other Code provisions; and
- (g) granting the exemption meets the requirements of section 11(2) of the Act.

Dated at Wellington this 21st day of October 2013.

For and on behalf of the Electricity Authority:

DR THOMAS BRENT LAYTON, Chairperson, Electricity Authority.
