 - the business has a centre of management in New Zealand; or
 - the business has a head office in New Zealand.
- Businesses may not be an entity established under or governed by the Education Act 1989, Crown Research Institutes Act 1992, Local Government Act 2002, Local Government (Auckland Council) Act 2009, the New Zealand Public Health and Disability Act 2000 or the Crown Entities Act 2004; or an entity that is 50 per cent or more owned by one or more of those types of entities.

CLAWBACK PROVISIONS

Businesses may be expected to return some or all grant funding, during or following a grant agreement, to Callaghan Innovation, if:

- the business breaches any grant agreement, misappropriates funding, provides incorrect information to Callaghan Innovation, or claims ineligible expenditure;
- the business enters into a contract or arrangement (including change of ownership) that materially reduces the current or future planned research and development activity in New Zealand; or
- the grant fund is unspent and for which contractual liabilities have not yet been incurred.

Criteria relating to each initiative are set out in the following sections.

1. Research and Development (R&D) Growth Grants**POLICY OBJECTIVE**

The objective of this initiative, in addition to the overall policy objective of the business-led R&D tool, is to provide a rule-based, market-led incentive for increasing R&D investment in businesses that are experienced in investing in R&D.

ELIGIBILITY CRITERIA

In addition to the BUSINESS ELIGIBILITY CRITERIA stated earlier, to be eligible to receive funding a business must:

- have had at least \$300,000.00 in eligible R&D expenditure (stated below) sourced from non-government funds in each of the two most recent years;
- have had eligible R&D expenditure of at least 1.5 per cent of revenues in each of the two most recent years;
- meet financial and management due diligence requirements sufficient to justify three years of funding; and
- provide Callaghan Innovation with a R&D plan including an estimate of R&D expenditures over the next three years. Businesses must compile the R&D plan to a level of detail and clarity sufficient to assess progress in the businesses' R&D programme over time.

Alternatively, a business that has not previously received a R&D Growth Grant may be eligible under the transitional eligibility criteria (stated below).

For R&D projects that were partially funded by government grants, the funding for the project that came from non-government sources is considered eligible R&D expenditure for the purpose of determining business eligibility.

While eligibility requires that applicants submit a R&D plan, the merits of the R&D programme described in the plan will not influence eligibility.

Entities that conduct or commission R&D activities mainly for other persons or businesses are likely to be ineligible due to insufficient eligible R&D expenditures.

ELIGIBILITY CRITERIA (TRANSITIONAL)

Transitional eligibility criteria will only apply for a business that has not previously received a R&D Growth Grant. No funding is payable by Callaghan Innovation unless the business actually reaches both the intended spend levels of at least \$300,000.00 per year on eligible R&D expenditure and at least 1.5 per cent of revenues per year on eligible R&D expenditure within the first year of the grant.

Notwithstanding the above ELIGIBILITY CRITERIA for R&D Growth Grants, and in addition to the BUSINESS ELIGIBILITY CRITERIA stated earlier, a business may be eligible to receive funding if the business:

- intends to spend at least \$300,000.00 per year on eligible R&D expenditure (stated below);
- has the necessary finance to spend at least \$300,000.00 per year on eligible R&D expenditure;

- intends to spend at least 1.5 per cent of revenues per year on eligible R&D expenditure;
- meets financial and management due diligence requirements sufficient to justify three years of funding;
- provides Callaghan Innovation with a R&D plan including an estimate of R&D expenditures over the next three years. Businesses must compile the R&D plan to a level of detail and clarity sufficient to assess progress in the businesses' R&D programme over time; and
- commits to and provides 3-monthly progress reports to Callaghan Innovation against the R&D plan for the first two years.

If the business does not achieve the intended spend levels within the first year of the grant, it will receive no funding and exit the initiative. The business will be ineligible to reapply for two years.

PARAMETERS SPECIFIC TO THIS INITIATIVE

All eligible applicants will receive a R&D Growth Grant for three years. Grant holders will receive up to 20 per cent of all eligible R&D expenditures incurred over the grant period up to a maximum of \$25 million of eligible expenditures per business, per year (maximum grant funding of \$5 million per business per year).

Businesses will be required to submit annual updates to their R&D plan and estimates. These plans must continue to be sufficiently detailed and clear.

Any business receiving a R&D Growth Grant that is found to be wilfully misreporting R&D expenditure at any point will be immediately removed from the initiative and will be ineligible to reapply for three years.

PARAMETERS SPECIFIC TO THIS INITIATIVE – EXTENSIONS

Two years into the grant period, grant holders will have the option of applying for a two-year extension on the grant. Grant holders will receive an extension if:

- the business' reported expenditure over the previous two years is found to meet the definition of eligible R&D expenditure (stated below);
- the business continues to meet the eligibility criteria (for the avoidance of doubt, the transitional eligibility criteria does not apply to extensions); and
- the business has maintained or increased non-government funded eligible R&D expenditure over the two years of the grant period as compared to the two years prior to the grant period.

If the business has reduced non-government funded eligible R&D expenditure but meets the other requirements, the Callaghan Innovation Board may still choose to grant the business an extension at its discretion. The Board should only do so in exceptional circumstances.

Businesses may continue to apply for, and receive, extensions every two years provided they continue to meet the requirements listed above.

Businesses that fail to receive an extension will receive a final year of grant funding and subsequently exit the initiative. Businesses that exit the initiative are not eligible to apply for another R&D Growth Grant for two years.

DEFINITION OF ELIGIBLE RESEARCH AND DEVELOPMENT EXPENDITURE FOR R&D GROWTH GRANTS

Eligible R&D expenditure is defined as those meeting the New Zealand Equivalent to International Account Standard 38 (NZ IAS 38) definition of research and development and expensed under that standard.

The NZ IAS 38 definitions of R&D are:

- **Research** is original and planned investigation undertaken with the prospect of gaining new scientific or technical knowledge and understanding.
- **Development** is the application of research findings or other knowledge to a plan or design for the production of new or substantially improved materials, devices, products, processes, systems or services before the start of commercial production or use.

Clarifying Principle

If necessary, when seeking to distinguish R&D from non R&D, the further advice provided by the New Zealand Financial Reporting Standard 13 (NZ FRS 13) should be applied:

- R&D is distinguished from non-R&D by the presence or absence of an appreciable element of innovation. If the activity departs from routine and breaks new ground it is normally R&D; if it follows an established pattern it is normally not R&D.

General Exclusions

The following types of expenditure are not eligible for the R&D Growth Grants initiative:

- any expenditure that is capitalised as an intangible asset under NZ IAS 38;
- R&D undertaken outside of New Zealand;
- R&D funded through an enforceable levy paid by another entity;
- enforceable levies for R&D paid to another entity; and
- any R&D funded by a grant or other payment provided by an entity that is not part of the same consolidated group of entities as the applicant. However, expensed funding for R&D contracted out by the applicant to another entity is eligible.

Specific Exclusions

To provide further clarification on the definition, some specific activities are excluded. This list is not exhaustive. Activities not specifically excluded are only eligible provided they meet all other features of the definition. Specific activities excluded are:

- Engineering follow-through in an early phase of commercial production.
- Activities related to the construction, relocation, rearrangement or start-up of facilities or equipment other than facilities or equipment solely used for the businesses' R&D (which may be included).
- Routine, on-going efforts to refine, enrich, or otherwise improve on the qualities of an existing product or process, or to make cosmetic or stylistic changes to it.

- Routine design of tools, jigs, moulds and dies, or seasonal or other periodic design changes to existing products. However, expensed design activities involved in developing a new product or process are eligible.
- Activities involved in ensuring that existing products or processes comply with statutory requirements or standards, and quality control, routine testing or trouble-shooting during commercial production. However, testing in search of significant product or process improvements is eligible.
- Adapting an existing product or process to a particular customer's need or site.
- Supporting, de-bugging or making minor improvements to existing computer software.
- Market research or surveys, market testing, market development or sales promotion, management studies, efficiency surveys or the routine collection of information.
- Any costs involved in protecting, licensing, selling or defending intellectual property or of acquiring or using external intangible assets (eg patent licences).
- Interest expenses or lease payments of any kind, and any overheads that are not closely linked to R&D activities. Eligible overheads include finance, personnel, training, travel, administration and library activities associated with R&D, and reasonable R&D-related transportation, storage, cleaning, repair, maintenance and security activities.
- Prospecting or exploring for minerals, petroleum, natural gas or geothermal energy.
- Research in the social sciences, arts or humanities.

2. Research and Development (R&D) Project Grants

POLICY OBJECTIVES

The objectives of this initiative, in addition to the overall policy objective of the business-led R&D tool, are to:

- support greater investment by businesses in R&D activities and generate wider benefits to the New Zealand economy; and
- develop businesses with less established R&D programmes into stable and substantial R&D performers.

ELIGIBILITY CRITERIA

To be eligible for funding under this initiative the following criteria must be satisfied:

- Only businesses are eligible to receive funding via this initiative. A business or group of businesses may nominate a representative to receive funding.
- A business must have at least one director who is resident in New Zealand and at least one of the following must be true:
 - the business is incorporated in New Zealand;
 - the business has a centre of management in New Zealand; or
 - the business has a head office in New Zealand.
- Businesses may not be an entity established under or governed by the Education Act 1989, Crown Research Institutes Act 1992, Local Government Act 2002, Local Government (Auckland Council) Act 2009, the New Zealand Public Health and Disability Act 2000, or the Crown Entities Act 2004; or an entity that is 50 per cent or more owned by one or more of those types of entities.

PARAMETERS SPECIFIC TO THIS INITIATIVE

DEFINITION OF ELIGIBLE RESEARCH AND DEVELOPMENT EXPENDITURE FOR R&D PROJECT GRANTS

Project grants fund research and development using the following definitions:

- **Research** is original and planned investigation undertaken with the prospect of gaining new scientific or technical knowledge and understanding.
- **Development** is the application of research findings or other knowledge to a plan or design for the production of new or substantially improved materials, devices, products, processes, systems or services before the start of commercial production or use.

R&D is distinguished from non-R&D by the presence or absence of an appreciable element of innovation. If the activity departs from routine and breaks new ground it is normally R&D; if it follows an established pattern it is normally not R&D.

RELATIONSHIP WITH R&D GROWTH GRANTS

- Businesses that receive a R&D Growth Grant will only be eligible for R&D Projects Grants if they undertake a "collaborative" R&D project.
- A collaborative R&D project is one where:
 - at least two businesses (that are independent and not within common control) are undertaking a joint project for mutual benefit (each party is expected to gain value);
 - at least one of the businesses is receiving a R&D Growth Grant;
 - each business is contributing substantially to both the financial and technical requirements of the project; and
 - the project structure indicates the project has shared responsibility and decision-making.

CO-FUNDING RATES

Callaghan Innovation will determine the co-funding rate according to the following rules:

- R&D Project grants will typically provide funding for 30–50 per cent of the eligible R&D expenditure of a project.
- Collaborative R&D projects will only receive funding for 15–30 per cent of the R&D eligible expenditure on top of the R&D Growth Grant. If one of the contributing businesses does not have a R&D Growth Grant, the R&D Project Grant will typically provide funding for 30–50 per cent of their eligible expenditure.
- Callaghan Innovation must ensure the total annual funding allocated to all R&D Project Grants does not exceed 40 per cent of eligible expenditure.

JUDGEMENT CRITERIA

Callaghan Innovation must assess proposals against the following criteria:

A. Private Investment Returns	B. Pathway to Market (commercial outcomes)
<u>Key Question:</u> Assuming the project is successful, what are the potential commercial returns to the business (or group of businesses)?	<u>Key Question:</u> Assuming the technical aspects of the project are successful, how capable will the business (or group of businesses) be at successfully commercialising or implementing the results?
C. Ability to Deliver (R&D outputs)	D. Develop R&D Programme
<u>Key Question:</u> How capable will the business (or group of businesses) be at successfully delivering on the technical aspects of the project?	<u>Key Question:</u> To what extent will the project be a technical stretch for the business (or group of businesses) and/or contribute to the development of a more stable and substantial New Zealand-based R&D programme within the business (or group of businesses)?
E. Grant Impact	F. Benefits Outside the Business
<u>Key Question:</u> How strong will the impact of grant funding be on the delivery, scale, quality or commercial success of the project?	<u>Key Question:</u> How much potential is there for benefit to accrue outside the business (or group of businesses) to other New Zealand businesses or society?

- Criteria A–F must be the basis upon which Callaghan Innovation determines whether to provide a grant for a project.
- Criteria E and F must be the basis upon which Callaghan determines the co-funding rate for individual grants.

INFORMATION SPECIFIC TO THIS INITIATIVE

- R&D Project grants are primarily targeted at businesses that do not receive a R&D Growth Grant, for example, businesses with smaller research and development programmes and businesses new to R&D.
- A business may receive multiple R&D Project grants (each grant for a distinct project).

3. Research and Development (R&D) Student Grants

POLICY OBJECTIVE

The objective of this initiative, in addition to the overall policy objective of the business-led R&D tool, is to support New Zealand undergraduate and postgraduate students to gain and develop their technical skills in a commercial research environment, while bringing capability into New Zealand businesses.

ELIGIBILITY CRITERIA

In addition to the BUSINESS ELIGIBILITY CRITERIA stated earlier, to be eligible to receive funding under this initiative, a business must:

- have an active R&D programme.
- ensure that the student(s) that the grant relates to:
 - is a science, technology, engineering, design or business student from a tertiary education institution;
 - is studying a degree at NZQA levels 7 to 10 or equivalent; and
 - has appropriate immigration status at the time of application (or an application in progress that is subsequently approved).

DEFINITION OF ELIGIBLE EXPENDITURE FOR R&D STUDENT GRANTS

The eligible expenditure that may be incurred is limited to wages and salary of the student, a tax-free stipend for the student, a tertiary administration fee and, when the business is located a significant distance from the tertiary education institute, a travel allowance for the student.

JUDGEMENT CRITERIA

Callaghan Innovation must assess proposals against the following criteria:

A. Student Exposure to R&D	B. Student Professional Development	C. Benefit to the Business
<u>Key Question:</u> How will the involvement of the student within the business expose them to technical work that is relevant to their degree? This should be in the form of a defined R&D project.	<u>Key Question:</u> Does the business have a credible plan for the professional development of the student, and what resources has the business committed towards this?	<u>Key Question:</u> How will the involvement of the student within the business support the business' internal capability development?

Racing Act 2003

Amendments to Betting Rules

Pursuant to section 52 of the Racing Act 2003, the New Zealand Racing Board hereby gives notice of the following amendments to the Betting Rules published as a Supplement to the *New Zealand Gazette*, 25 August 2003, No. 113, page 2981.

Change #1

This is a new rule

11.15 Triple Trio Betting with Concession**11.15.1 Interpretation**

In Rule 11.15, unless the context otherwise requires: –

“**Triple Trio**” is a bet type whereby the Investor endeavours to select the First Three Placings in any order in each of the three Races as designated by the Board.

“**Dividend Pool**” means the aggregate of all investments on a Triple Trio less the deductions for Triple Trio as designated in Appendix 1.

“**Concession Pool**” means 13.2 per cent of the Dividend Pool.

“**First Prize Pool**” means 74.8 per cent of the Dividend Pool, together with:

- (a) any previous First Prize Pool or Concession Pool which may have been carried forward in accordance with Rules 11.15.5 and 11.15.6; and
- (b) any part or all of the Prize Reserve Pool which may have been added to the First Prize Pool under Rule 11.15.7.

“**Prize Reserve Pool**” means 12 per cent of the Dividend Pool.

“**First Three Placings**” means the Race Entrants determined as the “First Entrant”, “Second Entrant” and “Third Entrant” respectively according to the Official Result, provided that:

- (a) if the judge, stewards or judicial committee make an error regarding such determination and subsequently correct their error in accordance with the Rules of Racing, the First Three Placings shall be the Race Entrants which the judge, stewards or judicial committee, after correcting their error, determine to be the first three Entrants according to the Official Result;
- (b) the disqualification of any Race Entrants that have been placed among the first three Entrants shall not affect the determination of the First Three Placings for the purposes of Triple Trio betting if the disqualification resulted from a protest lodged after the expiration of the period allowed by the Rules of Racing for the lodging of such protests;
- (c) where a dead heat occurs, the First Three Placings shall be the first three Entrants determined as such according to the Official Result, except that:
 - (i) a dead heat between two or more Race Entrants may cause the number of Race Entrants eligible to fill the First Three placings to be more than three; and
 - (ii) where a dead heat occurs for a particular placing, all dead-heating Entrants shall be deemed to hold that placing and the immediate placing or placings below shall be skipped for the purpose of placing the other Entrants. For example, for a dead heat for second place the First Three Placings shall be as follows – “first”, “second”, “second”; and
- (d) if the judge, stewards or judicial committee are unable or fail to determine the First Three Placings, the Board may determine the First Three Placings.

11.15.2 Races upon which the Board may conduct Triple Trio betting

Triple Trio betting may be conducted on such Races as the Board may determine from time to time.

11.15.3 Method of Triple Trio betting

A Triple Trio bet is placed by the Investor selecting at least three Race Entrants in each of the three Races of a Triple Trio.

11.15.4 Dividend Pool

The Dividend Pool shall be distributed as follows:

- (a) 74.8 per cent of the Dividend Pool shall be allocated to the First Prize Pool;
- (b) 13.2 per cent shall be allocated to the Concession Pool; and
- (c) 12 per cent shall be allocated to the Prize Reserve Pool.

11.15.5 First Prize Pool

Subject to Rule 11.15.8, the First Prize Pool shall be distributed as follows:

- (a) The First Prize Pool shall be distributed equally amongst those units of betting that have selected the First Three Placings in each of the three Races of a Triple Trio.
- (b) Where the sum of winning units of betting is less than the Dividend Unit, the First Prize Pool will be declared as the Dividend, and the winning units of betting will receive their proportional share of the First Prize Pool. The balance of the First Prize Pool, less any Prize Reserve funds, will be carried forward and added to the First Prize Pool of the next Triple Trio as determined by the Board.
- (c) If no units of betting have selected the First Three Placings in each of the three Races of a Triple Trio, the First Prize Pool in respect of that particular Triple Trio, less any Prize Reserve funds, shall be carried forward and added to the First Prize Pool of the next Triple Trio as determined by the Board.

11.15.6 Concession Pool

Subject to Rule 11.15.12 relating to abandonment, the Concession Pool shall be distributed as follows:

- (a) The Concession Pool shall be distributed equally amongst those units of betting that have selected the First Three Placings in both of the first and second Triple Trio Races and failed to select the First Three Placings in the final Triple Trio Race. Note that this means that the entire Concession Pool will be paid out when the sum of successful units is less than the Dividend Unit.
- (b) If there are no units of betting that have selected the First Three Placings in both of the first and second Triple Trio Races, the Concession Pool shall added to the First Prize Pool and be dealt with in accordance with Rule 11.15.5.

11.15.7 Prize Reserve Pool

The Board may allocate any part or all of the Prize Reserve Pool to the Dividend Pool of any bet type within the respective Code.

Appendix #3**Percentage Priority Order for Percentage Triple Trio**

The %PO for Percentage Triple Trio within each Triple Trio Race commences with those combinations involving the three lowest numbered Race Entrants, and continues in succession through those combinations with the two lowest numbered Race Entrants together with the fourth lowest, then the fifth lowest, then sixth lowest numbered Race Entrants and so on finishing with those combinations involving the two lowest numbered Race Entrant and the highest numbered Race Entrant. This order is then continued for the lowest and third lowest numbered Race Entrants together with the fourth lowest, then the fifth lowest, then the sixth lowest numbered Race Entrants and so on. This order continues until reaching the fourth highest and the third highest numbered race entrants together with the second highest, and then the highest numbered race entrants, and finishes with the combination containing the three highest numbered race entrants.

The %PO for those bets with a common first Race combination, keeps that first race combination fixed whilst proceeding through the Priority order (above) for combinations in the second Race.

The %PO for those bets with a common first and second Race combination, keeps that first and second race combination fixed whilst proceeding through the Priority order (above) for combinations in the third Race.

Example: For a Triple Trio bet with Race Entrants 1, 2, 3 and 4 Boxed in the first Triple Trio race, Race Entrants 1 and 2 the Bankers with 3 and 4 in the second, and Race Entrants 1 and 4 the Bankers with runners 2 and 3 in the third race, the %PO for these 16 combinations would be:

1,2,3 / 1,2,3 / 1,2,4
 1,2,3 / 1,2,3 / 1,3,4
 1,2,3 / 1,2,4 / 1,2,4
