Crown Entities Act 2004

Direction to Callaghan Innovation— Co-funding Guidelines

Under section 103 of the Crown Entities Act 2004, I direct Callaghan Innovation to give effect to Government policy as specified in this direction.

INTRODUCTION

In this direction, I set co-funding guidelines for Callaghan Innovation to apply when determining how to charge for its services.

PURPOSE

Callaghan Innovation's mission is to accelerate commercialisation of innovation by firms in New Zealand. Callaghan Innovation does this through:

- services that foster a stronger culture of innovation;
- services that build firms' capability and connection to resources across the innovation system;
- providing demand-driven in-house research and technical services in niche areas of need; and
- commercial services for the direct benefit of firms.

These co-funding guidelines will ensure transparency and competitive neutrality for New Zealand domestic recipients of Callaghan Innovation's services. The guidelines set a floor (rather than a ceiling) for the prices that Callaghan Innovation sets, but they also provide some initial flexibility to support Callaghan Innovation to grow commercial revenue while delivering wider benefits for New Zealand through its public good activities. The co-funding rates are intended to apply to domestic revenue, with any overseas revenue expected to be priced to achieve a full return on capital and at the maximum level the market will bear.

The co-funding guidelines are comprised of three parts:

1. Principles agreed by Cabinet in 2012 when Callaghan Innovation was established;
2. practical considerations that have been developed to ensure that prices are sensible and reasonable; and
3. indicative co-funding rates for each main category of service.

POLICY PRINCIPLES

The following policy principles apply to the charging of services:

- With respect to Callaghan Innovation's commercial activities, the funding model should create incentives for the institute to grow commercial revenue and reduce its overall reliance on government funding over time.
- The funding model for contestable services should be broadly consistent with the principle of competitive neutrality to avoid crowding out other (public and private) providers.
- Funding sources for Callaghan Innovation functions, and their associated services or activities, should recognise the different blend of public/club/private good characteristics associated with those functions.
- The funding model should be consistent with the on-going financial viability of the institute, including with respect to building and maintaining capability to deliver services into the future.

PRACTICAL CONSIDERATIONS

There are a number of practical considerations that need to be taken into account when deciding on the co-funding rates to apply:

- *Significance:* Where the amount of expenditure on the service is likely to be small, the development of a formal co-funding regime is not warranted. There may, however, be merit in making a charge to avoid frivolous use of the service or to recover some of the administration costs for events and information dissemination.
- *Alignment with NZTE:* In November 2012, Cabinet also considered the alignment and coordination of service delivery by Callaghan Innovation and New Zealand Trade and Enterprise (NZTE). While they have distinct functions, both will be involved in the delivery of business development services. Some alignment with NZTE's co-funding rates should be sought where there are overlaps or similarities with the services Callaghan Innovation is providing. For example, both organisations should adopt a "no-wrong-door" approach when engaging with firms and there should be consistency across common programmes such as the "Better By..." series and information provision.
- *Firm engagement process:* NZTE has adopted an approach where it introduces charges for services once engagement with firms has proceeded and it has offered specific services. In the initial phase of engagement, firms are not charged while the parties

determine what services are appropriate. There is merit in Callaghan Innovation adopting this practice, especially where the initial phase is not particularly long or costly. Co-funding rates would increase to the expected co-funding rate once Callaghan Innovation begins to supply a significant level of services. This practice is likely to be beneficial to smaller firms that need to find out what suitable services are available.

- *Callaghan Innovation's establishment phase:* A case can be made for Callaghan Innovation charging lower co-funding rates for some services while it gets established in the markets for its services, and builds up its customer base and capabilities. The establishment phase could be around three to four years. The time frame for lower co-funding rates shall be clearly signalled to stakeholders, and adhered to, so that an enduring advantage is not created. This practical consideration will only apply for a small number of services, such as open labs and the Foodbowl.
- *Treatment of developmental / infrastructure costs:* Callaghan Innovation will have already invested in developmental and infrastructure costs for some of the products and services it provides. Where on-going public funding has been set aside for infrastructure costs (such as the National Measurement Standards appropriation – \$5.8 million per annum), there is less concern about competitive neutrality because the equipment is specialised. In these cases, the concept of direct costs is used, where businesses would be charged the additional costs (eg the cost of labour, materials and the use of any specialised equipment) involved in making those products and services available.

INDICATIVE CO-FUNDING RATES

The policy principles set out above have been used to formulate indicative co-funding rates. These rates may be varied by Callaghan Innovation, in line with the practical considerations above, or as approved by the Minister of Science and Innovation. Note that any significant variation from the co-funding guidelines shall be clearly signalled and be for a limited time only (eg up to two years).

Category	Indicative co-funding rate for service delivery*
Predominantly public good services	Free of charge or non-material costs only
Building firms' capability and access to resources – mixed public and private good services	Part charges 25–100% of direct costs
In-house research and technical services – mixed public and private good services	100% of direct and indirect costs
In-house research and technical services – private good services	100% of direct and indirect costs

- **Direct cost** refers to the cost of labour, materials, and the use of any specialised equipment (including depreciation).
- **Indirect cost** refers to overhead including a margin for the cost of capital.

*Note that some capability in Callaghan Innovation is directly funded through Crown revenue to support national capability. Callaghan Innovation will not seek to recover costs related to national capability funding.

Direction

1. Title—This Direction is the Maritime New Zealand (Functions and Duties) Direction 2013.

Pursuant to section 11(3) of the Electricity Industry Act 2010 ("Act"), the Electricity Authority ("Authority") gives the following notice.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry (Exemption No. 160 (Contact Energy Limited)) Exemption Notice Revocation Notice 2013.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Revocation—The Electricity Industry (Exemption No. 160 (Contact Energy Limited)) Exemption Notice 2012* is revoked.

3. Reasons for revoking the exemption—The reasons for revoking this exemption are:

- (a) revoking the exemption meets the requirements in section 11(3) of the Act for revoking exemptions;
- (b) in November 2012, the Authority approved the Electricity Industry (Exemption No. 160 (Contact Energy Limited)) Exemption Notice 2012 ("Exemption 160") being granted, to exempt Contact Energy Limited ("Contact") from clause 11 of Schedule 15.3 of the Electricity Industry Participation Code 2010 ("Code");
- (c) the Gazette Notice for Exemption 160* incorrectly exempts Contact only from subclause (3) of clause 11 of Schedule 15.3 of the Code; and
- (d) the Authority has subsequently issued a corrected Gazette Notice[†], which exempts Contact from all of clause 11 of Schedule 15.3 of the Code, making Exemption 160 redundant.

Notice

1. Title and commencement—(1) This notice is the Electricity Industry (Exemption No. 186 (Flick Energy Limited)) Exemption Notice 2013.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

2. Exemption—Flick Energy Limited ("Flick") is exempted from complying with the obligation in clause 15.38 of the Electricity Industry Participation Code 2010 ("Code") to obtain and maintain certification.

- (a) the close of **30 June 2014**; and
- (b) Flick being responsible for more than 100 installation control points ("ICPs").

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- (a) granting the exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- (b) the exemption is only needed on a short term basis;
- (c) granting the exemption will assist a small new entrant retailer to enter the market, which could lead to increased competition for the long-term benefit of consumers;
- (d) Flick will not have sufficient data to make an audit required for certification meaningful as some processes and procedures will not have been used in production; and
- (e) due to the small number of ICPs involved, the exemption will have little or no impact on other participants and service providers, and will not affect any other Code provisions.

3. Term—This exemption expires at the close of **30 April 2014**.

4. Reasons for granting the exemption—The reasons for granting this exemption are:

- granting the exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- by conducting its initial MEP audit at the same time as its authorised test house audit, AccuCal will avoid compliance costs and will minimise disruption to staff involved in audit reviews;
- once the exemption expires, the timing of AccuCal’s next MEP audit will be calculated from the date of the MEP audit completed during the period of the exemption; and
- the exemption will have little or no impact on other participants and service providers, and will not affect any other Code provisions.

Land Transport Rule: Traffic Control Devices 2004

Land Transport Rule: Traffic Control Devices 2004 Sharrow Symbol Road Marking Trial

Pursuant to subclause 3.4(1) of Land Transport Rule: Traffic Control Devices 2004 (the Rule) and a delegation from the NZ Transport Agency, I, Glenn Bunting, Network Manager, authorise the installation and maintenance of the sharrow symbol (shared lane) road marking and alternative cycle lane markings:

- for the purpose described in Schedule 1;
- in the form and layout, set out in Schedule 2;
- at the locations stated in Schedule 3;
- for the period specified in Schedule 4; and
- subject to an evaluation in accordance with Schedule 5.

The sharrow symbol may be marked on roads that are not suitable for dedicated cycle lanes to indicate an area of roadway that bicycles and motor vehicles should share. To distinguish shared lanes from dedicated cycle lanes, cycle lanes must be marked with the cycle symbol and the word "LANE". The sharrow symbol and cycle "LANE" marking may be installed for the purpose of evaluating their use and the trial will be called the "Sharrow symbol road marking trial".

Schedule 1—Purpose of trial

The purpose of the trial is to:

- evaluate the effectiveness and safety of new road markings and the alternative use of existing road markings;
- enable the cycle symbol road marking, which is currently dedicated to identifying cycle lanes, to be used as a component of the sharrow symbol road marking to identify shared lanes.

Schedule 2—Form and layout of cycle lane and sharrow markings

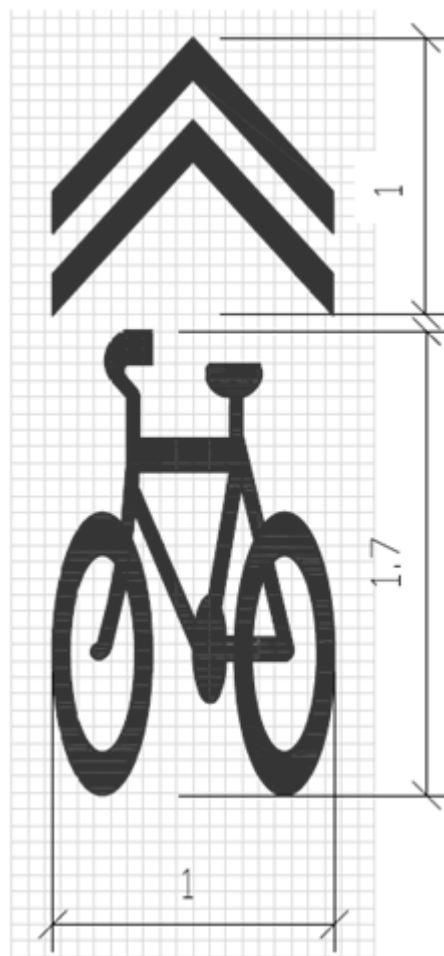

The markings used to identify a cycle lane or to identify a shared lane must comply with the following:

- A cycle lane listed in Schedule 3 to this notice must be marked at the start of the lane and after each intersection along its length with:
 - the cycle symbol illustrated in diagram M2-3 in Schedule 2 of the Rule; and
 - the word "LANE" beyond the cycle symbol;
- additional cycle lane markings, including the word "LANE", may be marked in the lane if the road controlling authority considers it necessary to discourage the use of the lane by other vehicles or to draw attention to the likely presence of cycles in the lane;
- the cycle symbol must be a minimum of 1.0 metre wide x 1.7 metres long;
- the shape, spacing and dimensions of the letters in the word "LANE" must conform with diagram M8-2 in Schedule 2 of the Rule, except that dimensions may be reduced to 75% of those specified for urban road markings, provided the letters have a minimum longitudinal stroke width of 100mm. *Note:* If it is essential to mark the word "LANE" in a place where the width of the cycle lane is less than 1.3 metres, the width of the letters and spacing between letters

may be reduced to less than 75% of the dimensions for urban road markings;

- a shared lane listed in Schedule 3 of this notice may be marked with the sharrow symbol consisting of:
 - the cycle symbol illustrated in diagram M2-3 in Schedule 2 of the Rule; and
 - two chevrons pointing forward, marked beyond the cycle symbol;
- the cycle lane markings and sharrow symbol described in this schedule must be white;
- the minimum dimensions of the sharrow symbol must comply with the following layout diagram:

Layout of sharrow symbol

Schedule 3—Location

Cycle lanes approved for this trial, which must be marked with the word "LANE" in addition to the existing cycle symbols, are located on the following roads controlled by Auckland Transport:

- Carrington Road, Mount Albert;
- Lake Road, Belmont;
- Mount Albert Road, Mount Albert;
- Point England Road, Point England;
- St Lukes Road, Mount Albert.

Shared lanes approved for this trial, which may be marked with the sharrow symbol, are located on the following roads controlled by Auckland Transport:

- Dunkirk Road, Point England;
- Elstree Avenue (at the Taniwha Street roundabout), Glen Innes;
- Hamana Street, Belmont;
- Point Chevalier Road, Point Chevalier;
- Riddell Road, Glendowie;

- (f) Riverside Avenue, Point England;
- (g) Seacliffe Avenue, Belmont;
- (h) Taniwha Street (at the Elstree Avenue roundabout), Glen Innes;
- (i) Winscombe Street, Belmont.

Schedule 4—Period of trial

The trial may begin after the publication of this notice and, unless terminated earlier, must end by **31 December 2014**.

Schedule 5—Evaluation

An evaluation and analysis must be undertaken as outlined in the trial application document dated 7 November 2013, received from Auckland Transport. The evaluation must include analysis of:

- (a) whether cyclists and motorists understand the meaning of different uses of the cycle symbol:
 - (i) to identify a cycle lane when marked with the word “LANE”; and
 - (ii) to identify a shared lane when used in the sharrow symbol;
- (b) cyclists’ and motorists’ understanding of the purpose of the sharrow symbol;
- (c) cyclists’ and motorists’ behaviour in lanes marked with the sharrow symbol; and
- (d) the costs and benefits of adding the word “LANE” to all existing cycle symbols, which are currently used to identify cycle lanes, thereby enabling the cycle symbol to be used for other cycle safety purposes, such as marking shared lanes.

An interim evaluation report must be sent to me by **1 July 2014** and a final report by **31 January 2015**.

Signed at Wellington this 9th day of December 2013.
