THE COMMUNITY TRUST OF WELLINGTON

FINANCIAL STATEMENTS

PURSUANT TO SECTION 13 OF THE COMMUNITY TRUSTS ACT 1999

Deloitte

INDEPENDENT AUDITOR'S REPORT TO THE TRUSTEES OF THE COMMUNITY TRUST OF WELLINGTON

Report on the Financial Statements

We have audited the financial statements of The Community Trust of Wellington (the "Trust") on pages 12 to 25, which comprise the statement of financial position as at 31 March 2011, and the statement of comprehensive income and statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

This report is made solely to the Trustees, as a body, in accordance with Section 17(d) and 17(e) of the Trust Deed. Our audit has been undertaken so that we might state to the Trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trustees, as a body, for our audit work, for this report, or for the opinions we have formed.

Trustees' Responsibility for the Financial Statements

The Trustees are responsible for the preparation and fair presentation of financial statements, in accordance with generally accepted accounting practice in New Zealand, and for such internal control as the Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing and International Standards on Auditing (New Zealand). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates, as well as the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other than in our capacity as auditor, we have no relationship with or interests in the Trust.

Opinion

In our opinion, the financial statements on pages 12 to 25:

- comply with generally accepted accounting practice in New Zealand; and
- present fairly, in all material respects, the financial position of The Community Trust of Wellington as at 31 March 2011, and its financial performance for the year ended on that date.

Chartered Accountants 3 June 2011

For and on behalf of the Board of Trustees:

Chairperson

Trustee

3 pine 2011

Date

Notes to the Financial Statements For the Twelve Months Ended 31 March 2011

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Community Trust of Wellington (The Trust), trading as the Wellington Community Trust, is an incorporated Charitable Trust under the Charitable Trusts Act 1957.

These financial statements have been prepared in accordance with Generally Accepted Accounting Practice ('GAAP') in New Zealand. They comply with the New Zealand Equivalents to International Financial Reporting Standards ('NZ IFRS') and other Financial Reporting Standards as appropriate for not-for-profit entities that qualify for and apply differential reporting concessions.

Basis of Preparation

The accounting principles recognised as appropriate for the measurement and reporting of the statement of comprehensive income and balance sheet on a historical cost basis are followed by the Trust, except that certain investments are disclosed at fair value.

The information is presented in New Zealand dollars as it is the functional and presentational currency.

Differential Reporting

The Trust qualifies for Differential Reporting as it is not publicly accountable, and is not large as defined by the Framework for Differential Reporting. The Trust has taken advantage of all available differential exemptions.

Specific Accounting Policies

The following specific accounting policies which materially affect the measurement of financial performance and the financial position have been applied:

(a) Revenue

Rental revenue in relation to operating leases is recognised in the Statement of Comprehensive Income on a straight-line basis over the lease term.

Dividend revenue from investments is recognised when the Trust's rights to receive payment have been established. Interest income is recognised as interest accrues using the effective interest method.

Notes to the Financial Statements For the Twelve Months Ended 31 March 2011

(b) Income Tax

The Trust is exempt from income tax under section CW 52 of the Income Tax Act 2007.

(c) Property, Plant & Equipment

Property Plant and Equipment is stated at cost less accumulated depreciation and impairment.

(d) Depreciation

Depreciation has been calculated as follows using the diminishing value method:

Furniture

9.0% - 26.4 %

Equipment

33.0% - 80.4%

(e) Investments including Investments in Managed Funds

Shares in listed companies and quoted fixed interest investments are designated as "financial assets at fair value through profit or loss" as the portfolios are managed on a fair value basis in accordance with a documented investment strategy. They are initially recorded at cost and subsequently revalued to bid price each balance date. Gains and losses are recorded in the Statement of Comprehensive Income as part of the investment income.

(f) Financial Instruments

Financial instruments are recognised if the Trust becomes a party to the contractual provisions of the instruments. Financial assets are initially measured at fair value plus transaction costs except for those classified as fair value through profit or loss which are initially measured at fair value. Financial assets are derecognised if the Trust's rights to the cash flows from the financial assets expire or if the Trust transfers a financial asset to another party without retaining control or substantially all risks and rewards of the asset. Regular purchases and sales of financial assets are accounted for at trade date. Financial liabilities are derecognised if the Trust's obligations, specified in the contract, expire, are discharged or cancelled.

Held-to-Maturity Investments

If the Trust has the intent and ability to hold debt securities to maturity, then they are classified as held-to-maturity. Subsequent to initial recognition, held-to-maturity investments are measured at amortised cost using the effective interest method, less any impairment losses.

Investments at Fair Value through profit or loss

An instrument is classified at fair value through the profit and loss if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through the profit and loss if the Trust manages such investments and makes purchase and sale decisions based on their fair value. They are initially recorded at cost and subsequently revalued to market bid price each balance date. Upon initial recognition, attributable transaction costs are recognised in the Statement of Comprehensive Income when incurred. Subsequent to initial recognition, financial instruments at fair value through profit or loss are measured at fair value and changes therein are recognised in the Statement of Comprehensive Income.

Notes to the Financial Statements For the Twelve Months Ended 31 March 2011

Loans and Receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortised cost using the effective interest method less any impairment.

Cash and cash equivalents comprise cash balances and call deposits.

(g) Impairment

The carrying amount of the Trust's assets is reviewed each balance date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

If the estimated recoverable amount of an asset is less than its carrying amount, the asset is written down to its estimated recoverable amount and an impairment loss is recognised immediately in the Statement of Comprehensive Income.

The estimated recoverable amount of investments carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at their original effective interest rate. Receivables with a short duration are not discounted.

The estimated recoverable amount of other assets is the greater of their fair value, less costs to sell, and value in use. Value in use is determined by estimating future cash flows from the use and ultimate disposal of the asset and discounting these to their present value using a pre-tax discount rate that reflects current market rates and the risks specific to the asset. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Impairment losses are reversed when there is a change in the estimates used to determine the recoverable amount.

(h) Operating Leases

Operating lease payments, where the lessor effectively retains substantially all the risks and rewards of ownership of the leased items, are included in the determination of the net surplus in equal instalments over the lease term.

	Term Portion	833,334	933,333
	Total Karori Wildlife Sanctuary Trust Inc	933,334	1,033,333

The Loan is guaranteed by the Wellington City Council. The loan has a repayment term of 15 years which commenced on 1 August 2005. The interest rate is calculated against an agreed formula. The rate for the year under review was 6.5%- 6.6%.

10. Financial Instruments

Significant accounting policies

Details of significant accounting policies and methods adopted, including the criteria for recognition and the basis of measurement applied in respect of each of the class of financial assets are disclosed in note 1 to the financial statements.

The Trustees have approved a Statement of Investment Policy and Objectives (SIPO) which establishes investment portfolio objectives and target asset allocations. Performance against these targets is reviewed at least quarterly by the Trustees and asset reallocations undertaken as required.

Fair Value

The carrying amount of financial assets and financial liabilities recorded in the financial statements represents their respective fair values, determined in accordance with the Trust's accounting policies.

Liquidity Risk

All financial assets at fair value through profit and loss can be realised within 12 months. There are no significant financial liabilities.

The Trust's investments are managed to ensure that the Trust will have sufficient liquidity to meet expected cashflow requirements. Liquidity risk is managed through the Trust's asset allocation strategy, which provides exposure to both growth and income assets, and the benchmark portfolio against which investment returns are monitored. The Trust's benchmarks are maintained through rebalancing between investment managers to bring the weights to benchmark.

Notes to the Financial Statements For the Twelve Months Ended 31 March 2011

Credit Risk

Financial instruments which potentially expose the Trust to credit risk consist of cash and short term deposits, fixed interest securities and receivables and, indirectly, investments in unitised products which invest in cash and fixed interest investments. The maximum exposure to credit risk is the carrying value of these financial instruments:

	2011 2010	
	\$	\$
Cash	104,945	259,851
Short Term Deposits	2,422,001	2,432,945
Fixed Interest - Offshore	13,228,485	13,125,805

The significant counterparties of the Trust are its investment managers: OnePath (NZ) Ltd (formerly known as ING NZ Ltd), Tower Asset Management Ltd, and Mint Asset Management Ltd which the Trustees consider to be financial institutions of high quality. The investments are held in trust by the investment managers for the benefit of the Trust. The managers operate within the portfolio mix approved by the Trustees.

The credit risk on cash and short term deposits is limited because the counterparties are banks; BNZ and ASB, with high credit ratings assigned by international credit rating agencies.

Currency Risk

The Trust is indirectly exposed to currency risk in that future currency movements will affect the valuation of investments in unitised products which invest in foreign currency denominated investments. The Trust has no directly held investments denominated in a foreign currency.

Interest Rate Risk

The Trust is exposed to interest rate risk in that future interest rate movements will affect cash flows and net market values of fixed interest assets and, indirectly, the valuation of investments in unitised products which invest in cash and fixed interest investments.

Interest rate risk management activities are undertaken by the investment manager in accordance with the investment mandate set by the Trustees.

11. Contingent Liabilities

There are no contingent liabilities as at 31 March 2011 (2010:\$Nil).

Notes to the Financial Statements For the Twelve Months Ended 31 March 2011

12. Commitments
