Social Security Act 1964

Maximum Contribution Applying in Each Territorial Local Authority Region From 1 July 2010

Under section 152 of the Social Security Act 1964, the Director-General of Health is required to notify the maximum contribution that applies in each region.

The maximum contribution is the maximum weekly amount (inclusive of GST) that a resident assessed as requiring long-term residential care (through a needs assessment and services coordination agency) is required to pay for contracted care services provided to them in the region in which their rest home or continuing care hospital is located.

Contracted care services are services provided to needs assessed people in a rest home or continuing care hospital that has a contract with a district health board. The services provided are those necessary to meet the person's assessed care needs in accordance with the agreement between the district health board and the residential care provider.

This agreement covers residents who are:

- eligible for the residential care subsidy (under section 141 of the Act); or
- entitled to have funding paid to cover the difference between the maximum contribution and the cost of contracted care services provided to them (under section 140 of the Act).

The maximum contribution is the same for all residents regardless of the type of contracted care services they receive.

The maximum contribution set by this *New Zealand Gazette* notice applies from 1 July 2010 and replaces the previous maximum contribution notice published in the *New Zealand Gazette*, 4 June 2009, No. 79, page 1860.

It is equivalent to the most recent, nationally agreed rest home contract price applying to residential care facilities in each territorial local authority region.

The maximum contribution will change only when a new maximum contribution is gazetted.

New maximum contributions will reflect changes to rest home contract prices that usually result from the annual review of the residential care contract between district health boards and residential care providers.

Requirements and Exemptions for Investment Plans From 2011 Onwards for Tertiary Education Organisations Notice 2010

Pursuant to sections 159P, 159R, 159T, 159U and 159Y of the Education Act 1989, the Tertiary Education Commission (TEC) gives the following notice.

Notice

1. **Title**—This notice may be cited as the Requirements and Exemptions for Investment Plans From 2011 Onwards for Tertiary Education Organisations Notice 2010.
2. **Commencement**—This notice applies from the date of its publication.
3. **Application**—From the date of its publication, this notice revokes and replaces the Requirements and Exemptions for Plans (Investment Plans) for 2008–2010 for Tertiary Education Organisations Notice 2009*.
4. **Introduction**—The TEC may decide to fund tertiary education programmes and activities described in a proposed Investment Plan ("Plan") submitted by a tertiary education organisation¹ ("organisation") for a period of up to three years.
5. The proposed Plan must be a summary-level document. The scale of the proposed Plan will depend on the size and complexity of the submitting organisation.
6. To be eligible to access funding from the TEC for 2011 and onwards, all organisations, other than those exempted by paragraph 12 of this notice, are required to submit a proposed Plan. Previous allocation of Student Achievement Component (SAC), Tertiary Education Organisation (TEO) Component or other TEC or Government funding does not create an entitlement of future funding at any level from the TEC.

7. Content and criteria for a Plan—The proposed Plan will present a summary of the organisation's planning context, and set out activities (including its mix of provision) and performance commitments. The proposed Plan will need to give effect to the Government's priorities as set out in the Tertiary Education Strategy 2010–15 (TES).

8. Public administration requirements for tertiary education institutions—Plans of tertiary education institutions must include a forecast Statement of Service Performance, to enable institutions, in each Annual Report, to report on their performance against proposed outcomes described in the Plan.² Those parts of an institution's Plan that make up the forecast Statement of Service Performance will be expected to reflect the outcome framework agreed with TEC and be prepared in accordance with generally accepted accounting principles.

9. Plan content—The proposed Plan must include the following parts:

(i) *Plan Context*

This part establishes the framework for the proposed Plan. The Plan Context should outline the particular factors that the organisation has considered and intends to respond to, including:

- Government priorities in the TES;
- its mission, role and functions, and how these relate to the outcomes the organisation intends to achieve;
- how it will improve its educational performance;
- the needs of learners, particularly Māori, Pacific peoples and young people under 25 years, and the needs of industry and employers; and
- any key initiatives and/or changes planned in its core activities related to the outcomes the organisation is seeking to achieve through its proposed Plan.

Key background information about the organisation and its operating environment, including a summary of the nature and scope of the organisation's functions and intended operations, should also be included in the Plan Context.

Tertiary education institutions need to include additional information to ensure that the proposed Plan contains a forecast Statement of Service Performance that reflects the full scope of its activities. This fulfils legislative requirements and generally accepted accounting principles.

(ii) *Summary of Activity*

This part sets out information on planned delivery over the period of the proposed Plan. The Summary of Activity should include information about:

- SAC or Industry Training Fund learner numbers by National Qualification Framework (Level 1–10);
- other planned programmes and activities, including learner numbers, funded by the TEC;
- total TEC funding sought;
- planned learner numbers in more detail (if requested by the TEC for non-SAC related programmes and activities); and
- a brief description of other outcomes, programmes and activities not funded by the TEC.

The Summary of Activity should align with the direction signalled in the organisation's Plan Context.

(iii) *Performance Commitments*

This part should set out proposed performance commitments and the associated indicators used in evaluating performance, including:

- achievement against the Government priorities in the TES;
- meeting the needs of learners, particularly Māori, Pacific peoples and young people under 25 years, and the needs of industry and employers;
- improving educational performance for SAC or industry training funded provision;
- other TEC-funded programmes and activities; and
- any key initiatives and/or changes related to the outcomes the organisation is seeking to achieve through its proposed Plan, as outlined in the Plan Context.

Organisations will be expected to use common educational performance indicators. The commitments in proposed Plans must have a clear connection to the Plan Context and the mix of provision and other activities proposed in the Summary of Activity.

10. Other supplementary information for tertiary education institutions—Information relating to tertiary education institutions' financial outlook will be required³ during 2010 to support the delivery of the Plan. This financial information will be used when assessing the potential of an organisation to meet its proposed performance commitments.

This information will include:

- forecast financial statements for the period of the proposed Plan that have been prepared in accordance with generally accepted accounting practice;
- a statement of all significant assumptions underlying the forecast financial statements;
- capital asset management reporting; and
- any additional information and explanations needed to fairly reflect the forecast financial operations and financial position of the organisation.

11. Decision-making criteria—In reaching a decision about the proposed Plan, including what to fund and the period of funding, the TEC will consider the following in relation to each organisation:

- Its proposed response to the TES, including the Government's priorities and expectations of organisations;
- its proposed response to the needs of learners, particularly Māori, Pacific peoples and young people under 25 years, and to the needs of industry and employers;
- its performance against the input, output and outcome indicators as defined by the TEC;
- its governance and financial performance, with a focus on sustainability and viability;
- evidence of its management capability in forecasting, planning and implementation (including providing supplementary information as required of tertiary education institutions such as capital asset management reporting);
- whether the activities, including volume of delivery of programmes, outlined in the Summary of Activity section of the proposed Plan are appropriate and achievable; and
- whether any conditions or limits on funding are required, having regard to appropriations, and any relevant and applicable funding determinations issued by the Minister for Tertiary Education under the Education Act 1989.
