Financial Reporting Act 1993

Financial Reporting Act (GE Corporate NZ LLC) Exemption Notice 2010

Pursuant to section 35B of the Financial Reporting Act 1993 ("the Act"), the Registrar of Companies gives the following notice (to which is appended a statement of reasons of the Registrar).

Notice

1. Title—This notice is the Financial Reporting Act (GE Corporate NZ LLC) Exemption Notice 2010.

2. Commencement—This notice comes into force on its notification in the *New Zealand Gazette*.

3. Expiry—This notice expires on the close of 31 July 2015.

4. Application—An exemption granted by this notice applies to the following accounting periods of the exempt overseas company:

- (a) An accounting period of the exempt overseas company that commenced before the exemption is granted (including an accounting period that ended before the exemption is granted) if:
 - (i) in the case of copies of financial statements or group financial statements for that period that are required to be delivered for registration under section 19 of the Act, the exemption is granted before those documents are required to be delivered for registration under that section; or
 - (ii) in any other case, the exemption is granted before the financial statements or group financial statements for that period are required to be completed; and
- (b) subsequent accounting periods.

5. Interpretation—In this notice, unless the context otherwise requires:

Act means the Financial Reporting Act 1993.

exempt overseas company means GE Corporate NZ LLC.

parent company means General Electric Company.

specified financial statements, in relation to the exempt overseas company, means the consolidated financial statements that are required to be prepared in respect of the parent company in accordance with the laws of the United States of America.

US GAAP means generally accepted accounting practice in the United States of America.

6. Exemptions for directors of the exempt overseas company—Every director of the exempt overseas company is exempted from the following provisions in respect of the exempt overseas company:

- (a) sections 10(1) and 11 of the Act to the extent that these sections require stand-alone financial statements to be prepared for the exempt overseas company;
- (b) sections 13 and 14 of the Act to the extent that these sections require group financial statements to be prepared for the exempt overseas company; and
- (c) section 19(3) of the Act to the extent that it requires copies of stand-alone financial statements for the exempt overseas company and group financial statements in relation to a group comprising that company and its subsidiaries, together with a copy of the auditor's report on those statements, to be delivered to the Registrar for registration.

7. Conditions—The exemptions in clause 6 are subject to the conditions that:

- (a) the specified financial statements are delivered to the Registrar for registration as if they were the group financial statements required of the exempt overseas

company in accordance with section 19(3) of the Act;

- (b) the specified financial statements comply with US GAAP;
- (c) if, in complying with US GAAP, the specified financial statements do not give a true and fair view of the matters to which they relate, the directors of the exempt overseas company add information and explanations that will give a true and fair view of those matters; and
- (d) the specified financial statements are accompanied by a report by an approved auditor that complies with the requirements which apply under the law of the United States of America.

Dated at Wellington this 11th day of March 2010.

Statement of Reasons

This notice, which comes into force on its notification in the *New Zealand Gazette* and expires on 31 July 2015, exempts the directors of GE Corporate NZ LLC, a company that was incorporated in the United States of America, from various provisions of the Financial Reporting Act 1993 ("the Act").

The effect of the exemptions is to exempt GE Corporate NZ LLC ("the company") from the requirement under the Act to prepare stand-alone financial statements, and group financial statements for the company and its subsidiaries. In place of these financial statements the company is required to prepare and deliver for registration the consolidated group financial statements its parent company, General Electric Company, is required to prepare under the law in the United States of America.

The principal differences in financial statements provided relying on the exemptions are:

- the directors of the company will not file stand-alone financial statements or group financial statements for the company and its subsidiaries;
- the directors of the company will register consolidated financial statements for General Electric Company and its subsidiaries; and
- the consolidated financial statements will comply with US GAAP (rather than generally accepted accounting practice in New Zealand) and will be audited in accordance with the requirements under the law in the United States of America instead of the Act.

The Registrar considers that it is appropriate to grant the exemptions because:

- the Registrar has had regard to the financial reporting and audit requirements that must be complied with by the company in its home jurisdiction under which it is not required to prepare stand-alone financial statements or group financial statements;
- the company will still be required to file:
 - financial statements for its New Zealand business, prepared in accordance with New Zealand generally accepted accounting practice;

- consolidated financial statements for General Electric company, prepared in accordance with US GAAP; and
- audit reports for the above financial statements and consolidated financial statements;
- the financial statements for the company's New Zealand business and the consolidated group financial statements prepared for General Electric Company contain all the relevant information for the company required under sections 11 and 13 of the Act;
- the Registrar is satisfied that the financial statements for the company's New Zealand business and the consolidated group financial statements prepared for General Electric Company provide sufficient information to avoid any detriment to members of the public who have dealings with the company; and
- the Registrar is satisfied that the exemptions are not broader than what is reasonably necessary to address these difficulties and still require that financial statements for the company's New Zealand business and the consolidated financial statements required to be prepared for General Electric Company under the laws of the United States of America be filed in New Zealand.

Date of notification in the *New Zealand Gazette*: 11 March 2010.

This notice is administered by the Registrar of Companies.

Insurance Companies' Deposits Act 1953

Exemption From Name Restriction

Pursuant to section 22E of the Insurance Companies' Deposits Act 1953, and acting under delegated authority of the Chief Executive of the Ministry of Economic Development, I hereby issue an exemption from the restriction in section 22C of the Insurance Companies' Deposits Act 1953 on the use of the word "Asure" in the company name Asure Limited.

I am satisfied that Asure Limited will not offer specified insurance business in New Zealand.

I am further satisfied that the proposed subsidiary of AsureQuality Limited has a legitimate reason to use the word "Asure" for the following reasons:

- It is necessary to use the word "Asure" to accurately convey the corporate relationship between AsureQuality Limited and the proposed subsidiary; and
- There will be no public confusion from the use of the word "Asure" in the company name.

Fisheries (Commercial Fishing) Regulations 2001

Seabird Scaring Devices Circular 2010 (No. F517)

Pursuant to Regulation 58A of the Fisheries (Commercial Fishing) Regulations 2001, the Chief Executive of the Ministry of Fisheries issues the following circular.

Circular

1. Title—This circular is the Seabird Scaring Devices Circular 2010.

2. Commencement—This circular shall come into effect on 12 March 2010.

3. Interpretation—In this circular:

“bird baffler” means:

two or more booms attached to the stern quarter of the vessel, with at least one boom attached to the starboard stern quarter and at least one boom attached to the port stern quarter, which are able to be lifted and lowered over the sides or stern of the vessel;

- (a) each boom shall extend outwards not less than four metres from the side or stern of the vessel;
- (b) dropper lines, shall be attached to the booms no more than 2 metres apart;
- (c) plastic cones, rods or other brightly coloured and durable material shall be attached to the ends of the dropper lines, so that the bottom of the cone, rod or material is not more than 500 millimetres above the water, in the absence of wind and swell; and
- (d) lines or webbing may be attached between the dropper lines to prevent tangling.

“paired streamer lines” means:

two lines of a minimum of 8 millimetres in diameter, hereafter known as “streamer lines”, which shall be of a length so that when deployed the streamer lines have an aerial extent of at least 10 metres behind the point at which the trawl warps enter the water, in the absence of wind or swell;

- (a) streamer lines shall be attached to the port and starboard sides of the vessel from a point as close to 2 metres above the trawl blocks as practicable and as close to the stern as practicable. Streamer lines shall be attached either:
 - (i) between 1–3 metres from the outside edge of the trawl blocks on both sides of the vessel, on a sidearm if necessary; or
 - (ii) to a “boom and bridle” system that allows the streamer lines to be adjusted on a horizontal plane in order to vary the distance between the streamer line attachment point and the outside of the trawl blocks and is positioned to ensure maximum protection of the trawl warps at all times;
- (b) an object shall be attached at the seaward end of each of the streamer lines. The object must create sufficient drag on the streamer line to ensure that the streamer line is taut behind the vessel at all times; and
- (c) branched streamers, each comprising of two strands of fluorescent red, yellow, orange or pink plastic tubing of a minimum of 3 millimetres in diameter, shall be attached no more than 5 metres apart commencing no more than 5 metres from the point of attachment of the streamer line to the vessel and thereafter along the seaward extent of the line. When a streamer line is deployed, each of the branched streamers must reach the sea surface in the absence of wind and swell. Branched streamer length will therefore vary depending on the height of its attachment point above the water but, in any event, every branched streamer must be at least one metre in length; and
- (d) each branched streamer shall be attached to the streamer line in a manner to prevent fouling of individual branched streamers on the main streamer line, and to ensure vertical displacement of individual branched streamers to the waterline in the absence of wind or swell.

“warp deflector” means:

a weighted device fixed to each warp with clips or hooks, which allow for the device to slide up and down the warp freely and to stay aligned under each warp;

- (a) when set, the backbone of the device must extend under the warps from a point not more than 4 metres behind the stern and extend as close as practicable to the point where the warps enter the water, in the absence of wind or swell; and
- (b) The backbone of the device shall be made of rope or metal and shall be fitted with colourful durable material of no less than 300 millimetres in length, woven or tied to the backbone at spacings of no more than 250 millimetres apart in a manner designed to create a visible deterrent.

“seabird scaring device” means:

- (a) paired streamer lines;
- (b) a bird baffler; or
- (c) a warp deflector.

4. Seabird scaring devices authorised by the Chief Executive of the Ministry of Fisheries—(1) All vessels 28 metres or greater in overall length that use a trawl net in New Zealand fisheries waters are required to carry one of the seabird scaring devices contained in this circular.

(2) A seabird scaring device contained in this circular must be deployed as soon as practicable after the shooting of the net, and shall remain deployed for as long as practicable prior to the net being brought back on board the vessel.

5. The Schedule—(1) The Schedule sets out an illustration to guide the definition of “paired streamer lines”, “bird baffler” and “warp deflector”.

(2) If there is any inconsistency between the illustration in the Schedule and the definition, the definition prevails.

“Paired streamer lines”:

“Bird baffle”:**“Warp deflector”:**

AOIFE MARTIN, Fisheries Manager Deepwater, Ministry of Fisheries.

Dated at Wellington this 4th day of March 2010.

Explanatory Note

This note is not part of the circular, but is intended to indicate its general effect.

The intent of this circular is to set out what seabird scaring devices are authorised by the Chief Executive of the Ministry of Fisheries for the purpose of avoiding, remedying or mitigating the effects of fishing-related mortality on seabirds. This circular applies to all vessels 28 metres or greater in overall length that use a trawl net in New Zealand fisheries waters.
