Tertiary Education Commission

Education Act 1989

Requirements and Exemptions for Plans (Investment Plans) for 2008–2010 for Tertiary Education Organisations Notice 2009

Pursuant to sections 159R, 159U and 159Y of the Education Act 1989, the Tertiary Education Commission (TEC) gives the following notice.

Notice

1. Title—This notice may be cited as the Requirements and Exemptions for Plans (Investment Plans) for 2008–2010 for Tertiary Education Organisations Notice 2009.

2. Commencement—This notice applies from the date of its publication.

3. Application—From the date of its publication, this notice revokes and replaces the Requirements and Exemptions for Plans (Investment Plans) for 2008–2010 for Tertiary Education Organisations Notice (No. 3) 2008*.

4. Introduction—Investment plans may be approved by the TEC for funding for a period of up to three years.

5. Investment plans will be summary-level documents. The scale of the plans will vary, depending on the size and complexity of the organisation.

6. To access funding from the TEC for 2010 and onwards, all organisations, other than those exempted by paragraph 10 of this notice, are required to have an approved investment plan in place by 31 December 2009.

7. Content criteria for plans—Proposed plans will present a summary of the organisation’s planning context, its three-year outlook, and planned provision. The proposed plan will also set out the key performance indicators to be used for monitoring progress and achievement.

8. The proposed plan must include the following information (comprising four parts):

(i) *Plan Context* (this section establishes the framework for the rest of the plan)

Outline of the particular factors the organisation has considered and intends to respond to in its proposed plan, including:

- Government priorities in the Tertiary Education Strategy 2007–12 (TES) including the distinctive contribution expected of the type of organisation;
- needs and priorities of students and other stakeholders;
- areas for organisational capability development (including those for the delivery of quality education and research); and
- the organisation’s role within the tertiary education system including brief statements on the organisation’s core purpose and local, regional, industry or national fit, including any shifts required to achieve these.

(ii) *Three-year Outlook*

Planned activity for the three-year period to address the factors identified in the *Plan Context* including:

- outcomes the organisation intends to achieve;
- initiatives, including capability development, that will be undertaken to achieve those outcomes;
- a description of other tertiary education programmes not funded by the TEC; and
- any other key changes in core activities.

(iii) *Summary of Activity*

Information on delivery over the period of the proposed plan including:

- Student Achievement Component (SAC) or Industry Training Fund student numbers by National Qualification Award Level (1–10);
- planned activities, programmes and student numbers for other TEC-funded activities and programmes;
- total TEC funding sought; and
- planned student numbers in more detail if requested by the TEC.

(iv) *Key Performance Indicators*

Measures to be used in evaluating performance against the proposed plan, including:

- outcome commitments for the key performance indicators in relation to TES priorities and the key shifts expected of each type of organisation in the TES; and
- other organisational outcome commitments for initiatives and changes in the *Three-year Outlook*.

9. Decision-making criteria—In reaching a decision about what to approve within the proposed plan, including what to fund and the period of funding, the TEC will consider the following in relation to each tertiary organisation.

- The organisation’s planned alignment with the TES, including the distinctive contribution and key shifts expected of that type of organisation, and its contribution to the tertiary network of provision;
- evidence of effective identification of stakeholder needs and priorities;
- the organisation’s governance and management arrangements, and financial viability;
- evidence of the organisation’s capability in forecasting, planning and implementation;
- past organisational performance;
- evidence of critical reflection on current performance;

- the allocation if any, of SAC, TEO component or other TEC funding, and other Government funding available to the organisation;
- whether the activities outlined in the proposed plan are appropriate and achievable; and
- whether any conditions or limits on funding are required, having regard to appropriations, and any relevant and applicable funding determinations issued by the Minister under the Education Act 1989.

10. Exemptions—The following organisations are exempted from the requirement to prepare and submit a proposed plan in 2009 for funding in 2010:

- Organisations with which the TEC is contracting only pilot initiatives and who receive no other funding from the TEC;
- employers receiving only Workplace Literacy funding from the TEC;
- Government training establishments;

- organisations receiving only Modern Apprenticeship Co-ordinator funding from the TEC; and
- organisations that receive only the English for Migrants pre-purchased English tuition fees from the TEC.

11. For the avoidance of doubt, organisations that already have an investment plan approved by the TEC for funding in 2010 (ie an investment plan with more than one year's approval) will not be required to submit a proposed plan in 2009.

12. Timelines and processes—TEC investment guidance information, to assist organisations in developing their proposed plans, is available on the TEC's website

www.tec.govt.nz

Dated at Wellington this 15th day of June 2009.

Food Standards Australia New Zealand

Food Standards Australia New Zealand Act 1991

Australia New Zealand Food Standards Code – Amendment No. 109 – 2009

Food Standards Australia New Zealand Act 1991

Preamble

The variations set forth in the Schedule below are variations to Standards in the *Australia New Zealand Food Standards Code* published by the National Health and Medical Research Council in the *Commonwealth of Australia Gazette*, No. P 27, on 27 August 1987, which have been varied from time to time.

Citation

These variations may be collectively known as the *Australia New Zealand Food Standards Code – Amendment No. 109 – 2009*.

Commencement

These variations commence on 18 June 2009.

SCHEDULE

[1] *Standard 1.2.8 is varied by omitting the Editorial note to subclause 5(2), substituting –*

Editorial note:

‘Average quantity’ is determined in accordance with the definition set out in clause 2 of Standard 1.1.1. Average quantities may be indicated, for example, by inserting the word ‘Average’ or an abbreviation for average at the beginning of ‘Quantity per Serving’ and the ‘Quantity per 100 g (or 100 mL)’ columns, or including a note at the end of the panel stating that all specified values are averages.

No format is prescribed for the indication of minimum and maximum quantities. They may be indicated, for example, by inserting the bracketed abbreviations ‘(min)’ and ‘(max)’ immediately after the relevant quantities in the Quantity per Serving column and the Quantity per 100 g (or 100 mL) column.

Clause 12 explains when minimum and maximum quantities may be indicated.

[2] *Standard 1.4.1 is varied by omitting the Editorial Note to clause 1, substituting –*

Editorial note:

It is recognised both lead and cadmium are ubiquitous in the environment and occur at low levels in foods other than those listed in this Standard. Therefore, in order to assist with the enforcement of MLs in mixed foods which may contain these contaminants, the calculation requires the inclusion of a representative contaminant level for those foods that do not have an allocated ML. In the past, an ML was set for ‘all other foods’. As the category for ‘all other foods’ was discontinued, a representative level is selected for the contaminants cadmium and lead. These levels are set at the limit of quantification (LOQ), and are 0.01 mg/kg for lead and 0.005 mg/kg for cadmium.

The calculation for mixed food for all other contaminants with an ML will assume that the contributing commodity, e.g. peanuts in peanut sauce, contains all of the contaminant.

[3] *Standard 1.6.2 is varied by omitting the Editorial note at the end of clause 8, substituting –*

Editorial note:

Processed meat in this clause includes processed meat and manufactured meat in accordance with Standard 2.2.1, irrespective of the prescribed names set out in that Standard.

Guidelines for the Safe Manufacture of Smallgoods published by Meat and Livestock Australia, will assist manufacturers and appropriate enforcement agencies to give effect to the provisions in this clause.

[4] *Standard 2.2.3 is varied by inserting immediately before the first paragraph in the Editorial note following clause 1 –*

This Standard does not define specific names for fish. An Australian Fish Names Standards (AS SSA 5300 – 2007) has been published.

[5] **Standard 4.2.4A** is varied by omitting the first paragraph from the Editorial Note after the Table to clause 1, substituting –

Editorial note:

Legislation or documentation will only be listed in the Table to clause 1 if it incorporates or provides for methods which provide a level of safety protection equivalent to that provided by a process that includes treatment of the milk or milk product in accordance with paragraph 2(1)(a) of Standard 1.6.2 before 5 October 2008 and then with paragraphs 16(a) and (b) of Standard 4.2.4 after 5 October 2008, and has adequate hazard identification and process controls.

Electricity Act 1992

Notice of Making of Electricity Governance Amendment Rules (No. 73) 2009 and Notice of Reasons for Decision

1. Pursuant to section 172I of the Electricity Act 1992 ("Act"), I notify the amendment of the Electricity Governance Rules 2003 ("Rules") under section 172H of the Act.
2. The empowering provisions for the Electricity Governance Regulations in relation to which the amendments to the Rules are made are sections 172D(1)(3) and 172D(1)(6)(d) of the Act.

3. A brief description of the nature of the amendments is as follows:

- (a) a reduction in the forecast horizon for the System Operator's System Security Forecast ("SSF") from 10 years to a period of not less than three years; and
- (b) minor drafting amendments.

4. The minor drafting amendments are made in reliance on section 172F(3) of the Act.

5. Pursuant to section 172Z(4) of the Act, the reasons for my decision to amend the Rules are that:

- (a) the rule change addresses an identified difficulty with the 10 year horizon prescribed in the current Rules that has resulted in possibly misleading and confusing information being published in some circumstances in the later years of the SSF forecast horizon; and

- (b) the rule change provides the System Operator with some discretion to determine the appropriate horizon as circumstances change over time, or from region to region.
6. These rules come into force on 20 July 2009.
7. Copies of the Rules may be inspected free of charge or purchased from the Electricity Commission, Level 7, ASB Bank Tower, 2 Hunter Street, Wellington.

8. The Rules can also be viewed on the Electricity Commission's website
<http://www.electricitycommission.govt.nz/rulesandregs/rules>

Dated at Wellington this 15th day of June 2009.

HON GERRY BROWNEE, Minister of Energy and Resources.
