Climate Change Response Act 2002

Ministerial Direction to the Registrar of the New Zealand Emission Unit Register: Issuance of New Zealand Units into the Crown Holding Account in the New Zealand Emissions Unit Register

Having consulted the Minister of Finance and having had regard to all the relevant matters, pursuant to section 68 of the Climate Change Response Act 2002, I direct the Registrar of the New Zealand Emission Unit Register to issue 30 million New Zealand Units (NZUs) into the Crown holding account in the New Zealand Emission Unit Registry by 1 July 2013.

I direct the Registrar to identify and “tag” the 30 million NZUs as suitable for conversion to Assigned Amount Units (AAUs) and exportable.

Ministerial Statement to Accompany the Direction to the Registrar of the New Zealand Emission Unit Register

In making the above direction to the Registrar, I have consulted with the Minister of Finance and I have had regard to the following matters specified in section 68 of the Climate Change Response Act 2002:

- Section 68(2)(b)(i) The number of units that New Zealand has received, or that the Minister expects New Zealand to receive, under any international agreement*
- New Zealand has received 309,564,733 Assigned Amount Units (AAUs) under the Kyoto Protocol. New Zealand has elected to receive removal units for net increases in forest sinks (RMUs) at the end of commitment period one (CP1). It is estimated New Zealand will receive 72.2 million RMUs.
- New Zealand decided not to take its commitment under the Second Commitment Period. Therefore, New Zealand will not have an assigned amount for commitment period 2 (CP2).
- Section 68(2)(b)(ii) New Zealand’s international obligations, including any obligation to retire units equal to the number of tonnes of emissions that are emitted in New Zealand*
- Under the United Nations Framework Convention on Climate Change, New Zealand has a commitment to adopt policies and measures to mitigate climate change.
- New Zealand also has obligations under the Convention’s Kyoto Protocol, whereby it must retire sufficient Kyoto units to cover its total emissions during CP1 or face non-compliance consequences. New Zealand has received 309,564,733 AAUs and expects to receive 77.2 million RMUs. The latest projection of New Zealand’s net position under the Kyoto Protocol is a surplus of 29 million units.
- New Zealand decided not to take its commitment under the Second Commitment Period. Therefore no international obligation to retire NZUs equal to the number of tonnes of emissions that are emitted in New Zealand exists at this stage.
- Section 68(2)(b)(iii) The proper functioning of the greenhouse gas emissions trading scheme established under this Act*
- The proper functioning of the ETS requires the issuance of sufficient NZUs to meet entitlements of post-1989 forestry participants; any entitlements under an allocation plan; and any auctions of NZUs the Crown undertakes. Officials estimate that over the next two financial years (2012/13, 2013/14), 23.1 exportable million NZUs will be transferred to post-1989 forest land owners.
- Officials will monitor the balance of NZUs closely to ensure a further issuance, or cancellation of NZUs in 2014 can occur to maintain the proper functioning of the ETS.
- Section 68(2)(b)(iv) Any other matters that the Minister considers relevant*
- There are no other matters.

Dated at Wellington this 23rd day of June 2013.

HON TIM GROSER, Minister for Climate Change Issues.

Electricity Industry Authority

Electricity Industry Act 2010

Notice of the Electricity Industry Participation (Time Frames for Invoicing) Code Amendment 2013

1. Pursuant to section 38(3)(b) of the Electricity Industry Act 2010 ("Act"), the Electricity Authority ("Authority") gives notice of the making of the Electricity Industry Participation (Time Frames for Invoicing) Code Amendment 2013.
2. The amendment is made urgently under section 40 of the Act. The amendment comes into force on **19 July 2013**.
3. The amendment amends clauses 14.36 and 14.73 of the Electricity Industry Participation Code 2010 ("Code") to:
 - (a) enable the clearing manager to delay the issue of an invoice in the event that it does not receive all information necessary to issue the invoice by the required time; and
 - (b) provide for the FTR manager to provide information about the amount of the loss and constraint excess

to be paid into the FTR account after the seventh business day of the month if publication of final prices is delayed.

4. The Authority considers that it is necessary and desirable to make the amendment urgently because:
 - (a) the amendment reduces the risk that there will not be orderly settlement of financial transmission rights if the publication of final prices is delayed; and
 - (b) a standard Code amendment could not be consulted on and made until after August 2013, which would put the first settlement cycles for financial transmission rights at risk.
5. Copies of the amendment and the Code are available on the Electricity Authority's website www.ea.govt.nz/act-code-regs/code-regs/
6. Copies of the amendment and the Code may also be inspected free of charge or purchased from the Electricity Authority, Level 7, ASB Bank Tower, 2 Hunter Street, Wellington.
