Dumping and Countervailing Duties Act 1988

Anti-dumping Duties: Notice That Anti-dumping Duties on Galvanised Wire From Malaysia May Cease to Apply

Under section 14(9) of the Dumping and Countervailing Duties Act 1988 ("the Act"), anti-dumping duties imposed on galvanised wire from Malaysia*, will cease to apply to those goods on 27 April 2009, unless at that date the goods are subject to review under section 14(8) of the Act.

Any interested party that might request that the Chief Executive of the Ministry of Economic Development initiate a review before the cessation date referred to above, should be aware that positive evidence justifying the need for a review must be provided to the chief executive.

If an application is received which provides positive evidence justifying the need for a review, the chief executive must undertake and complete a review investigation within 180 days of initiation, on whether the anti-dumping duties should continue to be applied.

Positive evidence justifying the need for a review would need to include reasons for believing that the expiration of anti-dumping duties would see the continuation or recurrence of dumping of galvanised wire from Malaysia, and for believing that such dumping would be likely to cause the continuation or recurrence of material injury to the New Zealand industry producing galvanised wire.

The reasons should be supported by evidence and not be based on mere allegations or assertions.

 - (c) to clarify the obligations for generators and ancillary service agents to comply with dispatch instruction and to remove any apparent conflicts between Part G and Part C of the Rules;

1. Pursuant to section 172i of the Electricity Act 1992 (“Act”), I notify the amendment of the Electricity Governance Rules 2003 (“Rules”) under section 172H of the Act.
2. The empowering provision for the electricity governance regulations in relation to which the amendments to the Rules are made is section 172D(1)(1) of the Act.
3. A brief description of the nature of the amendments is as follows:
 - (a) clarify the obligation when reserve offers must be revised;
 - (b) remove a duplicate dispatch compliance provision;
 - (c) clarify the obligations for generators and ancillary service agents to comply with dispatch instruction and to remove any apparent conflicts between Part G and Part C of the Rules;
 - (d) amend the definition of bona fide physical reason to clarify that ancillary service agents need to change their offers after gate closure;
 - (e) change the reporting timetable following offer and bid changes made after gate closure;
 - (f) clarify the inter-relationship between energy bids and interruptible reserve offers; and
 - (g) correct various incorrect rule cross-references in Part G.
4. The amendments are made in reliance on section 172F(3) of the Act.
5. Pursuant to section 172z(4) of the Act, the reasons for my decision to amend the Rules are that the rule amendments:
 - (a) clarify participants’ obligations under the Rules;
 - (b) remove requirements that are redundant due to other existing Rules;
 - (c) remove discrepancies from the Rules; and
 - (d) correct typographical errors in the Rules.
6. These Rules come into force on 1 December 2008.

Notice of Making of Electricity Governance Amendment Rules (No. 68) 2008 and Notice of Reasons for Decision

1. Pursuant to section 172I of the Electricity Act 1992 ("Act"), I notify the amendment of the Electricity Governance Rules 2003 ("Rules") under section 172H of the Act.
2. The empowering provisions for the electricity governance regulations in relation to which the amendments to the Rules are made are sections 172D(1)(3) and 172D(1)(4) of the Act.
3. The existing procurement plan in Schedule C5 of Part C of the Rules will be replaced in its entirety with a new Schedule C5. The key changes are:
 - (a) provision for subcontracting of ancillary services – to allow for contracted ancillary service providers to sub-contract services. The contracted Ancillary Service Agent ("ASA") will remain primarily responsible for the performance of those contracted obligations (clause 71A);
 - (b) change to the specification of frequency keeping performance:
 - (i) the requirement for an ASA to use "reasonable endeavours" to commence to respond to the system operator's instructions is removed and replaced with a requirement for the ancillary service agent to respond to eliminate the grid frequency error (clause 88.1); and
 - (ii) the requirement relating to the response rate required from a frequency keeper is relaxed to enable a wider variety of generating plant to be used to provide frequency keeping services (clauses 88.2 and 88A);
 - (c) change to the selection of frequency keeping offers – to allow the system operator to select more than one offer to meet the frequency keeping MW band requirement (clause 115);
 - (d) provision for fixed price frequency keeping – to provide for fixed price frequency keeping offers to be considered as an alternative to the existing "half-hourly" procured service (refer in particular to clauses 26A, 39A, 103A, 105A, 105B); and
 - (e) change to measurement of Interruptible Load ("IL"):
 - (i) to allow an ASA to offer smaller quantities of reserve by confirming performance with equipment on site where it would otherwise be lost in the "noise" at the Grid Exit Point, and to use average MW data to confirm performance of IL offered as Sustained Instantaneous Reserve, but not Fast Instantaneous Reserve, (clauses 125.3 and 130.2); and
 - (ii) to clarify how the system operator accounts for pre-event load changes when assessing the performance of IL providers (clause 126).
4. Pursuant to section 172Z(4) of the Act, the reasons for my decision to amend the Rules are that:

(a) this amendment updates the procurement arrangements with enhancements to the specification and procurement of ancillary services; and

(b) the new procurement plan complies with the requirement in the Rules to review the procurement plan annually.

5. These Rules come into force on 1 December 2008.

6. Copies of the Rules may be inspected free of charge or purchased from the Electricity Commission, Level 7, ASB Bank Tower, 2 Hunter Street, Wellington.

7. The Rules can also be viewed on the Electricity Commission's website

Notice of Making of Electricity Governance Amendment Rules (No. 69) 2008 and Notice of Reasons for Decision

1. Pursuant to section 172I of the Electricity Act 1992 ("Act"), I notify the amendment of the Electricity Governance Rules 2003 ("Rules") under section 172H of the Act.
2. The empowering provision for the electricity governance regulations in relation to which the amendments to the Rules are made is section 172D(1)(1)(d), (e) and (f) of the Act.
3. The amendments involve the creation of a new Section VI of Part G of the Rules. The section, entitled Hedge Arrangement Disclosure Rules, requires the disclosure of information about risk management contracts. Consequential amendments to Part A of the Rules have also been made.
4. Pursuant to section 172Z(4) of the Act, the reason for my decision to amend the Rules is that the rule changes will:
 - (a) increase transparency and liquidity within the electricity hedge market;
 - (b) address the absence of information available to risk management market participants; and
 - (c) improve confidence in the competitiveness of the risk management market.
5. These rules come into force on 2 February 2009.
6. Copies of the Rules may be inspected free of charge or purchased from the Electricity Commission, Level 7, ASB Bank Tower, 2 Hunter Street, Wellington.

Notice

1. Title and commencement—(1) This notice is the Electricity Governance Regulations (Revocation of Exemption No. 93) Notice 2008.

(2) This notice comes into force on 16 October 2008.

2. Revocation of previous exemption—The exemption entitled Electricity Governance Regulations (Exemption No. 93 (Reconciliation Participants and Reconciliation Manager) and Revocation of Exemption No. 90) Notice 2008* (“Exemption No. 93”) is revoked.

3. Reasons for revoking Exemption No. 93—The reasons for granting the revocation are as follows:

- (a) Part J of the Electricity Governance Rules 2003 (“Rules”) changed the reconciliation process from reconciliation on the basis of differencing to global reconciliation, which changed how non half-hour metered volumes are allocated to participants between months. The effect of that change is that the seasonal adjustment shapes are distorted, causing the allocation of electricity in wrong months.
- (b) Because of this distortion, if the reconciliation process in the Rules had been allowed to operate, participants that were incumbent retailers prior to 1 May 2008 would have been financially disadvantaged compared to participants that were independent retailers.
- (c) Exemption No. 93 was put in place to avoid inequitable settlements by exempting participants from the requirement to provide the relevant submission information to the reconciliation manager, and exempting the reconciliation manager from the requirement to process such information.
- (d) Exemption No. 93 was an interim measure put in place to hold the distortion in abeyance until a solution to the seasonal adjustment shapes issue was identified and put in place.
- (e) The seasonal adjustment shapes issue has now been resolved by an urgent amendment to Part J of the Rules that will come into force on 16 October 2008.
- (f) Exemption No. 93 must be revoked as it will be in conflict with Part J of the Rules when the urgent amendment comes into effect.

Dated at Wellington this 13th day of October 2008.

For and on behalf of the Electricity Commission:

PETER HARRIS, Commissioner.
