 - (v) the signature of the supplier.

Schedule 1

For the purposes of clause 6 of Unsafe Goods (Multipurpose Ladders) Indefinite Prohibition Notice 2014, Schedule 1 modifies the tests described in AS/NZS 1892.1:1996 *Portable ladders* accordingly:

1. Clause 2.6.2(b) Spacing

Clause 2.6.2 (b) Spacing of AS/NZS 1892.1:1996 *Portable ladders* is replaced with the following:

- (b) Treads and rungs shall be uniformly spaced at a distance between centres within the range $248 \pm 2\text{mm}$ to $306 \pm 2\text{mm}$ as measured along the stiles of the ladder (all measurements between the centres of the tops of treads and rungs).

2. Clause 2.7(a) Marking

Clause 2.7(a) Marking of AS/NZS 1892.1:1996 *Portable ladders* is replaced with the following:

- (a) The name of the **New Zealand** manufacturer or importer (whether the ladder has been made for sale or otherwise).

3. Appendix W: Stepladder Walking Test

Appendix W of AS/NZS 1892.1:1996 *Portable ladders* is replaced with the following:

STEPLADDER WALKING TEST (NORMATIVE)

W1 SCOPE

This Appendix sets out a method for determining the resistance of a stepladder, trestle ladder or other ladder of equivalent configuration to movement relative to the supporting surface, when subjected to the fluctuating forces associated with normal use.

W2 PRINCIPLE

A ladder is loaded with a specified mass and a lateral load (sufficient to lift the feet on one side just clear of the test surface) is applied alternately to each side of the top cap. Any resulting movement of the point of contact of the stile feet with the test surface is measured.

W3 APPARATUS

The following apparatus is required:

- (a) A horizontal, flat, rigid, smooth, dry and unwaxed vinyl tiled test surface.
- (b) A means of applying the setting force equivalent to the load rating of the ladder.
- (c) A 10kg mass (to apply a static load).
- (d) A means of measuring the walking distance to an accuracy of $\pm 1\text{mm}$.

W4 PROCEDURE

The procedure shall be as follows (see Figure W1):

- (a) Place the ladder in the fully open position and with any spreaders fully set, on the test surface. (See Note 1)
- (b) Apply the setting force appropriate to the load rating of the ladder directly to the top cap or platform.
- (c) Remove the setting force.
- (d) Measure the length of one stile and thus determine the midpoint of the ladder.
- (e) Apply the 10kg mass on to the centre of the upper surface of the tread immediately below the midpoint of the ladder.
- (f) Mark the position of both the left- and right-hand stile feet on the test surface.
- (g) Apply a horizontal sideways force by hand and without shock, to the right-hand side of the top cap or platform, sufficient to lift both the right-hand stile foot and right-hand back leg foot clear of the test surface by at least 5mm.
- (h) Gently remove the horizontal force.
- (i) Apply a horizontal sideways force by hand and without shock, to the left-hand side of the top cap or platform, sufficient to lift both the left-hand stile foot and left-hand back leg foot clear of the test surface by at least 5mm.
- (j) Gently remove the horizontal force.
- (k) Repeat Steps (g) to (j) a further four times.
- (l) Measure and record the total distance through which both left- and right-hand stile feet have moved from the datum point established in Step (f).
- (m) Examine the spreaders for unlocking.

W5 CRITERIA

The spreaders of the ladder shall have remained locked throughout the test. The average distance through which both front feet have moved, shall not exceed the permissible walking distance (W) when determined from the following equation:

$$W = 14 + 15L^{1.8}$$

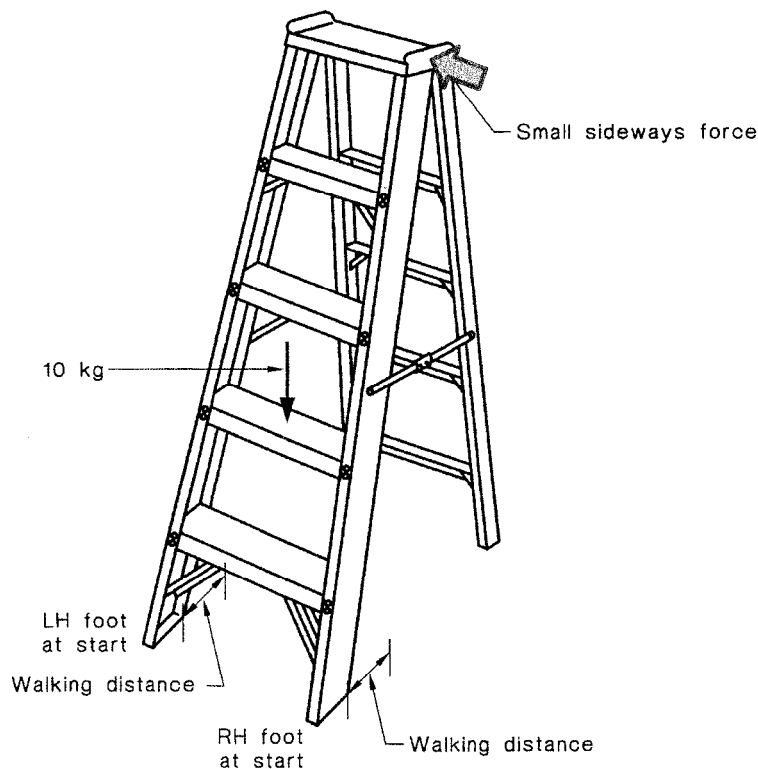

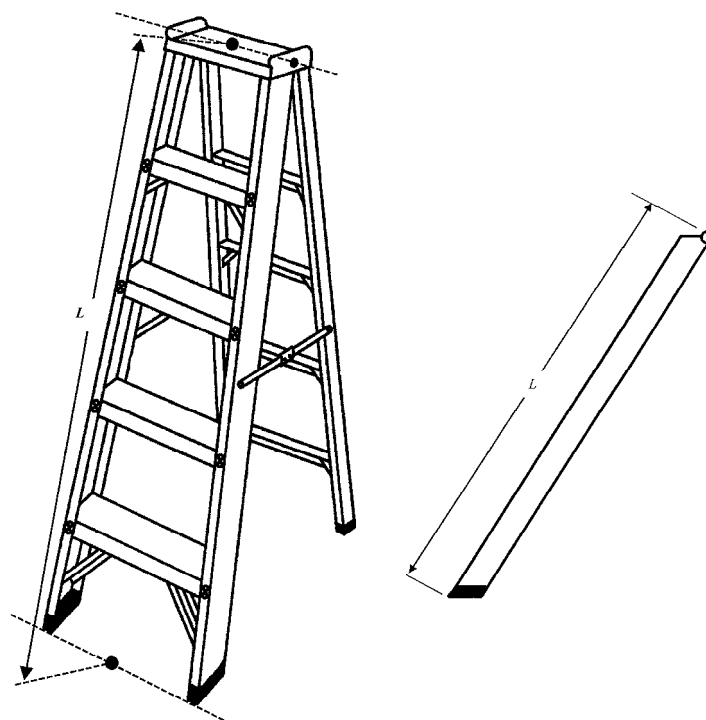

...(W5)

Where

W = permissible walking distance, in millimetres

L = working length of the ladder under test, in metres

(See Note 2 and Figure W2)

FIGURE W1 STEPLADDER WALKING TEST**FIGURE W2 STEPLADDER WALKING TEST, Length L****Notes**

1. Where there is a range of possible movement of the stiles when the ladder hinges are in the locked position, the test shall be carried out with the ladder in the most onerous position.
2. The working length L of the stepladder for the purposes of the walking test is the length from the test surface in front of the stiles to the centre of the hinge, including the feet as described in Figure W2.

Telecommunications Act 2001

Telecommunications (Approval of Variation to Undertakings) Notice 2014

This notice is issued under sections 156AI(5) and 156AM(5) of the Telecommunications Act 2001 and approves Chorus' Variation to the Open Access Undertakings for Copper Services and Fibre Services.

Notice

1. **Title**—This notice is the Telecommunications (Approval of Variation to Undertakings) Notice 2014.
2. **Commencement**—This notice will come into force on the date on which this notice is signed.
3. **Application**—This notice applies to Chorus.
4. **Interpretation**—In this notice, unless the context requires otherwise:

Act means the Telecommunications Act 2001;

Chorus means Chorus Limited; and

Undertakings means the Chorus Limited Deed of Open Access Undertakings for Copper Services and the Chorus Limited Deed of Open Access Undertakings for Fibre Services.

5. **Variation**—Section 10.1 of the Undertakings now reads: “No later than 45 Working Days following the end of each Chorus financial year the Board of Chorus must certify to the Commission annually on behalf of Chorus that, to the best of the directors’ knowledge after making reasonable inquiry, Chorus has complied with these Undertakings (except for any breaches that have been reported to the Commission or are reported with the certificate).”

6. **Approval of Variation to Undertaking by Minister**—The variation to the Undertakings is approved.

Dated at Wellington this 13th day of May 2014.

HON AMY ADAMS, Minister for Communications and Information Technology.

Explanatory Note

This note is not part of the notice, but is intended to indicate its general effect.

On 7 June 2013, the Commerce Commission (“Commission”) recommended to the Minister for Communications and Information Technology (“Minister”) that the Minister approve a variation to clause 10.1 of Chorus’ Undertakings that was requested by Chorus from the Commission on 27 March 2013.

The Commission’s recommendation to the Minister was made under section 156AL of the Telecommunications Act.

The effect of Chorus’ requested variation was to extend the timeframe requirements (from 20 working days to 45 working days) for certification to allow Chorus Board members to certify their compliance at a standard board meeting rather than calling an extraordinary meeting.

Section 156AL(2) of the Act sets out the requirements that must be fulfilled for the Commission to make a recommendation to the Minister on a proposed variation. The Commission is required to have:

- (a) *received a formal request for variation from the LFC (in this case Chorus);*
- (b) *consulted on the request with interested parties; and*
- (c) *been satisfied that the variation would best give effect to the purposes of the subpart of the Act governing the Undertakings.*

On 7 June 2013, the Commission advised the Minister that all of the requirements of section 156AL(2) of the Act (set out above) have been satisfied in Chorus’ requested variation.

Land Transport Rule: Traffic Control Devices 2004

Sharrows Symbol Road Marking Trial – Dunedin, Nelson, Wellington

Pursuant to subclause 3.4(1) of Land Transport Rule: Traffic Control Devices 2004 (“the Rule”) and a delegation from the NZ Transport Agency, I, Glenn Bunting, Network

Manager, authorise the installation and maintenance of the sharrow symbol (shared lane) road marking and alternative cycle lane markings:

- (a) for the purpose described in Schedule 1;
- (b) in the form and layout, set out in Schedule 2;
- (c) at the locations stated in Schedule 3;
- (d) for the period specified in Schedule 4; and
- (e) subject to an evaluation in accordance with Schedule 5.

The sharrow symbol may be marked on roads that are not suitable for dedicated cycle lanes to indicate an area of roadway that bicycles and motor vehicles should share. To distinguish shared lanes from dedicated cycle lanes, cycle lanes must be marked with the cycle symbol and the word "LANE". The sharrow symbol and cycle "LANE" marking may be installed for the purpose of evaluating their use and the trial will be called the "Sharrow symbol road marking trial – Dunedin, Nelson, Wellington".

Schedule 1—Purpose of trial

The purpose of the trial is to:

- (a) evaluate the effectiveness and safety of new road markings and the alternative use of existing road markings;
- (b) enable the cycle symbol road marking, which is currently dedicated to identifying cycle lanes, to be used as a component of the sharrow symbol road marking to identify shared lanes.

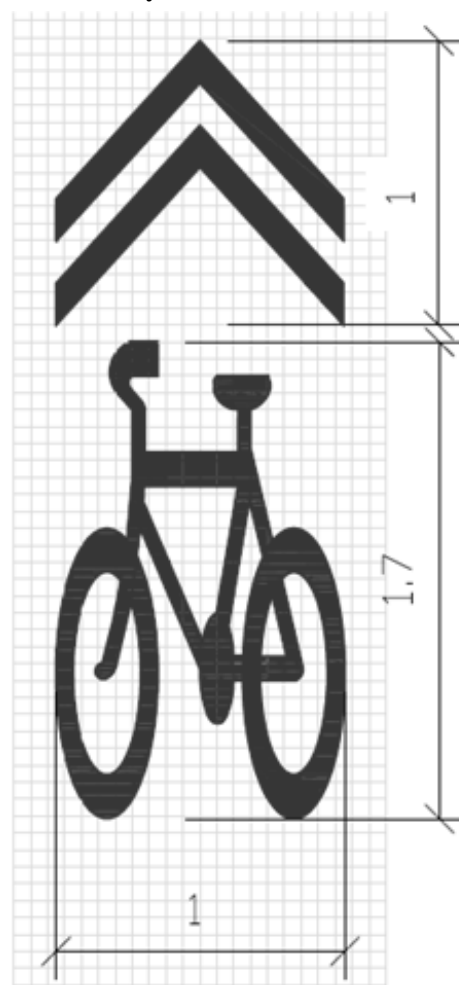

Schedule 2—Form and layout of cycle lane and sharrow markings

The markings used to identify a cycle lane or to identify a shared lane must comply with the following:

- (a) A cycle lane listed in Schedule 3 of this notice must be marked at the start of the lane and after each intersection along its length with:
 - (i) the cycle symbol illustrated in diagram M2-3 in Schedule 2 of the Rule; and
 - (ii) the word "LANE" beyond the cycle symbol;
- (b) additional cycle lane markings, including the word "LANE", may be marked in the lane if the road controlling authority considers it necessary to discourage the use of the lane by other vehicles or to draw attention to the likely presence of cycles in the lane;
- (c) the cycle symbol must be a minimum of one metre wide x 1.7 metres long;
- (d) the shape, spacing and dimensions of the letters in the word "LANE" must conform with diagram M8-2 in Schedule 2 of the Rule, except that dimensions may be reduced to 75% of those specified for urban road markings, provided the letters have a minimum longitudinal stroke width of 100mm. *Note:* When marked in letters which are 75% of the size of standard urban road markings, "LANE" will be 1.2 metres wide by 1.8 metres long. If it is essential to mark the word "LANE" in a place where the width of the cycle lane is less than 1.3 metres, the width of the letters and spacing between letters may be reduced to less than 75% of the dimensions for urban road markings;
- (e) a shared lane listed in Schedule 3 of this notice may be marked with the sharrow symbol consisting of:
 - (i) the cycle symbol illustrated in diagram M2-3 in Schedule 2 of the Rule; and
 - (ii) two chevrons pointing forward, marked beyond the cycle symbol;
- (f) the cycle lane markings and sharrow symbol described in this Schedule must be white;

- (g) the minimum dimensions of the sharrow symbol must comply with the following layout diagram:

Layout of sharrow symbol

Schedule 3—Location

Cycle lanes approved for this trial, which must be marked with the word "LANE" in addition to the existing cycle symbols, are located on the following roads:

- (a) Roads controlled by Nelson City Council:
 - (i) Bridge Street, on the Aratuna Normanby Bridge;
 - (ii) Collingwood Street, from the intersection with Wainui Street and Weka Street to Grove Street;
 - (iii) Rutherford Street, from Selwyn Place to Bronte Street;
- (b) Roads controlled by Wellington City Council:
 - (i) Oriental Parade and Evans Bay Parade, from Carlton Gore Road to Greta Point.

Shared lanes approved for this trial, which may be marked with the sharrow symbol, are located on the following roads:

- (a) Roads controlled by Dunedin City Council:
 - (i) George Street, from Albany Street to Moray Place;
 - (ii) King Edward Street, from Hillside Road to Macandrew Road;
- (b) Roads controlled by Nelson City Council:
 - (i) Hardy Street, from Rutherford Street to Domett Street;
 - (ii) Tasman Street, from Weka Street to Bridge Street;
 - (iii) Tasman Street, Brook Street and Westbrook Terrace, from Bridge Street to Robinson Road;

- (c) Roads controlled by Wellington City Council:
- (i) Featherston Street, from Whitmore Street to Hunter Street;
 - (ii) Hunter Street, from Featherston Street to Victoria Street;
 - (iii) Victoria Street, from Hunter Street to Vivian Street.

Schedule 4—Period of trial

The trial may begin after the publication of this notice and, unless terminated earlier, must end by 31 December 2014.

Schedule 5—Evaluation

An evaluation and analysis must be undertaken as outlined in the trial application documents received from Dunedin, Nelson and Wellington City Councils. The evaluation must include analysis of the following, as relevant to each trial location:

- (a) Whether cyclists and motorists understand the meaning of different uses of the cycle symbol:

- (i) to identify a cycle lane when marked with the word “LANE”; and
- (ii) to identify a shared lane when used in the sharrow symbol; and
- (b) cyclists’ and motorists’ understanding of the purpose of the sharrow symbol; and
- (c) cyclists’ and motorists’ behaviour in lanes marked with the sharrow symbol; and
- (d) the costs and benefits of adding the word “LANE” to all existing cycle symbols, which are currently used to identify cycle lanes, thereby enabling the cycle symbol to be used for other cycle safety purposes, such as marking shared lanes.

An evaluation report must be sent to me by 31 January 2015.

Signed at Wellington this 20th day of May 2014.

GLENN BUNTING, Network Manager.
