	M	-	Modification of Existing Concession
	X	-	Administrative Amendment

Removal of Unused Reference 99 Tariff Concessions

The New Zealand Customs Service periodically reviews the list of tariff concessions made under tariff concession reference number 99 and remove those which have not been used to import goods in the last five years. The purpose for removing unused concessions is part of Customs efforts to ensure that the Consolidated List of Approvals remains current with the Working Tariff Document and does not become full of concessions that are no longer used by industry.

The unused concessions to be removed appear in the Third Schedule (Concession Approvals Withdrawn), prefixed by "RUC" - Revocation of Unused Concessions.

Should it prove necessary to reinstate a concession which has been removed, this will be done on request, effective from the concession's original start date.

Dated at Auckland this 19th day of September 2024.

AARON SAMUEL, New Zealand Customs Service.
